

## 'THE LAW IS A LIVING GROWTH, NOT A CHANGELESS CODE'

**G**rowth has been an addiction for Häfele ever since opening of their subsidiary office in India in 2003. With a steady acceleration in turnovers, establishment of branch offices and design centers all over the country, building a comprehensive dealer network and franchisee base; the company has strongly rooted itself within the country. On the onset of its 8th year of operations, Häfele has risen to yet another prestigious occasion by moving into its owned office at Kanjurmarg, Mumbai. The purchase of this new office represents another major commitment of Häfele to the Indian market.

With a sprawling area of around 17000 sq ft, the state-of-the-art office houses an auditorium, a recreation center and a gymnasium. This multi-purpose auditorium holds a seating capacity of about 70 persons and is specially designed to hold regular events, seminars and launches for our internal as well external associates, in a professional environment. Complete with audio-visual facilities, the Häfele auditorium will become the perfect platform to plan, interact and perform.

No 'work' is accomplished without occasional 'play'. Häfele's recreation center provides the perfect ambience to unwind between hectic work timelines. Equipped with a television corner, foosball table and carom board, the recreation center will be the perfect place to "sweat out the stress" for all the employees. And for those who would prefer a quiet leisure read between their work schedules, the mini-library corner is the ideal place to be. Last but not the least, a well appointed cafeteria and gymnasium completes the setting.

The company has designed the new office with a delicate focus on perfecting the ergonomics thereby creating an environment of motivation and holistic growth. It is also in the process of creating a new state-of-the-art Design Center which would be ready by the end of July. Meanwhile, all the facilities will be available to our customers at the existing Design Center.

Häfele's new office was opened on 1st of April 2010 in the esteemed presence of two Managing Directors from Germany – Mr. Huber and Mr. Bosch accompanied by Mr. Wolf, Managing Director of Häfele India.
