FINDING BETTER WAYS

The new Kitchen Counter Top Protector Rods add style to any kitchen. These Rods are heat proof and allows one to keep hot utensils directly on the rods, as it disperses heat from the Counter Top and protects it from damage.

Made of high quality stainless steel, these rods are water proof and easy to clean. Counter Top Rods are self adhesive and can be fixed effortlessly on any surface including wood.

To achieve optimum functionality and utility these rods should be fixed at a close proximity to the hob.

Kitchen Counter Top Protector Rods are available as a set of six rods. The length of each rod is 45 cm.
