Three new hinges from Blum

HÄFELE

www.blum.com

 **blum**[®]

If it's required, we develop it.

The needs of our customers are our greatest motivation in refining our fittings – and the reason why our range is constantly growing. Right now, for example, we are adding three new CLIP top BLUMOTION hinges to the range, containing our engineers' wealth of technical expertise. The resulting products also embody the inventive spirit that has led to Blum's unique range of functions.

**CLIP top BLUMOTION 155°:
the new 0-protrusion hinge
with integrated dampening**

blum

155°

BLUMOTION

Crammed full of functionality – within the smallest space

The benefits of CLIP top BLUMOTION are now also included in our new wide angle hinge with 0-protrusion. In addition to the high quality of motion, CLIP top BLUMOTION 155° has a built-in dampening function – without any increases to the installation size.

 **blum**

Dampening on demand

The integrated BLUMOTION feature can be deactivated for individual hinges via a simple switch to ensure that even smaller or lighter doors boast high quality of motion.

Use of the existing storage space in the wardrobe is optimised, while the large opening angle makes access particularly convenient.

With its INSERTA boss fixing, CLIP top BLUMOTION 155° also guarantees straightforward tool-free assembly.

**Versatile:
CLIP top BLUMOTION
with 0-protrusion**

 **blum**

The new CLIP top BLUMOTION 155° hinge in colour variant onyx black blends stylishly with dark furniture, especially with its low installation size.

CLIP top BLUMOTION 125° is an ideal solution for thick doors. The BLUMOTION function is now integrated directly into the hinge arm.

The usual convenience: CLIP top BLUMOTION 155° assembly

blum

The INSERTA mechanism with self-closing makes it possible to fix the boss in place without tools – and ensures flush fitting. The drilling pattern for the new CLIP top BLUMOTION hinge remains unchanged from previous versions.

Tried-and-tested CLIP assembly

The CLIP mechanism has proven itself a million times over in the past; it ensures that the wide angle hinge can be installed in cabinets quickly, with ease, and without tools.

Three-dimensional adjustment

The new 155°-hinge features a simple side and height adjustment, as well as infinitely variable depth adjustment, so it matches the high standard of the existing CLIP top BLUMOTION hinges with which people are familiar.

Suitable boss cover caps

Suitable boss cover caps are now available for CLIP top BLUMOTION 155° – and are also available in dark colour variant onyx black.

**CLIP top BLUMOTION CRISTALLO:
the new glass door hinge with
integrated dampening**

blum

3-8 mm

BLUMOTION

Makes a strong impression – every time

CLIP top BLUMOTION CRISTALLO is a combination of elegant design, innovative technology and high quality of motion. The BLUMOTION function comes built into this new hinge for glass and mirror doors. The hinge achieves a unique level of stability, ensuring it meets the toughest of requirements.

Dampening on demand

The integrated BLUMOTION feature can be deactivated for individual hinges via a simple switch to ensure that even smaller or lighter doors boast high quality of motion.

BLUMOTION for a silent and effortless closing action – for glass and mirror doors – is installed in the hinge arm with CLIP top BLUMOTION CRISTALLO. Its linear design ensures the new hinge blends discreetly into furniture such as glass display cabinets.

**Versatile:
CLIP top BLUMOTION CRISTALLO**

blum

CLIP top BLUMOTION CRISTALLO
in colour variant onyx black offers
even more design possibilities for
elegant-looking furniture.

With CLIP top BLUMOTION
CRISTALLO, front overlays of up
to 19 mm are possible.

The usual convenience: CLIP top BLUMOTION CRISTALLO assembly

 **blum**

Standard fixing positions are used to fix the mounting plate in place in the cabinet, which enables the use of standard cabinets and also makes the production process more straightforward.

Simplified positioning

CLIP top BLUMOTION CRISTALLO can be used in a very wide range of glass display cabinets – without glass drilling. The adhesion template helps ensure that the adhesion plate is fixed in the correct position.

Tool-free assembly

Thanks to the CLIP interface, it is easy to mount the hinge on the adhesion plate.

Simple removal

If necessary, the hinge can also be removed from the adhesion plate – simply unclip and you're done.

**CLIP top BLUMOTION
for thin doors:
The special new hinge with
integrated dampening**

blum

8-14 mm

BLUMOTION

Doors of 8 mm thickness & above made possible

CLIP top BLUMOTION for thin doors gives you a large amount of creative leeway when designing furniture. Bring your ideas to life using a wide range of materials. Technically, the new hinge is an impressive blend of tried-and-tested Blum functionality and integrated dampening.

blum®

Dampening on demand

The integrated BLUMOTION feature can be deactivated for individual hinges via a simple switch to ensure that even smaller or lighter doors boast high quality of motion.

Assembly without boss drilling

EXPANDO T is fastened in a drilling with a diameter of 10 mm and a drilling depth of just 6 mm. There is no need for any boss drilling – which is a major plus when using hard materials.

Simple to fasten: EXPANDO T for a variety of materials

What sets CLIP top BLUMOTION for thin doors apart is the EXPANDO T split dowel, which was developed specifically for this purpose. Steel pull-in anchors ensure a firm hold in hard materials, while plastic jaws ensure the same firm hold in softer materials such as MDF and chipboard.

 **blum**

6 mm

Versatile: CLIP top BLUMOTION for thin doors

 blum®

Thanks to the 0-protrusion, the CLIP top BLUMOTION hinge developed for thin doors is also suitable for cabinets with inner pull-outs, as well as for standard applications.

CLIP top BLUMOTION for thin doors promises the usual high level of Blum quality in furniture with a pared-down design: innovative technology, high-quality materials and a large amount of stability – for the life of the furniture.

CLIP top BLUMOTION for thin doors in colour variant onyx black blends in elegantly with dark furniture and goes well with a wide range of materials and colours.

The usual convenience:
CLIP top BLUMOTION
for thin doors assembly

blum

Simple hinge fixing

Place the dowels in the drill holes, tighten the screws, then you're done! The new type of fixing with EXPANDO T makes furniture with thin doors easy to process.

Standard fixing position

Standard fixing positions are used to fix the mounting plate in place in the cabinet, which enables the use of standard cabinets and also makes the production process more straightforward.

Tried-and-tested adjustment options

Tool-free front assembly using the CLIP mechanism, you also benefit from tried-and-tested infinitely variable adjustment of the height, side and depth.

Disclaimer of liability

If the Blum fittings are installed according to instructions and on suitable glass and mirror fronts, they will meet the requirements concerning the stability of the connection.

This is monitored through internal and external testing.

As the adhesive and/or the adhesive process are beyond our control, Blum cannot accept liability for claims arising from the failure or malfunction of this/these process/es.

It is recommended that the adhesive be applied by an experienced glass manufacturer.

CLIP top BLUMOTION for thin doors 110°

Order specification

- Hinge for doors of 8–14 mm
- EXPANDO T fixing system for a variety of front materials
- CLIP top BLUMOTION with integrated BLUMOTION (and deactivation option)
- CLIP top with or without closing mechanism (spring)
- 0-protrusion (for inner pull-outs or pull-out surrounds)
- Tool-free fixing to mounting plate
- Three-dimensional front adjustment

Overlay application, dual application, inset application

Boss	EXPANDO T		
Hinge	Spring	Colour	Part no
CLIP top BLUMOTION	●	NI ONS	71B453T
CLIP top	●	NI	71T453T
CLIP top	○	NI	70T453T.TL

The different overlay applications can be achieved with the appropriate fixing position.

Legend

●	With spring	ONS	Onyx black
○	Unsprung	NI	Nickel plated

EXPANDO T area of application

EXPANDO T is suitable for fixing Blum fittings to thin front materials in furniture manufacturing. With sufficient stability and strength, front materials of 8 mm thickness and above may be used.

Area of application and assembly recommendation

Materials tested by Blum	Min. tightening torque (Nm)
Chipboard (transverse tensile strength > 0.4 N/mm ²)	1.5
MDF (transverse tensile strength > 0.6 N/mm ²)	1.5
HDF	2
HPL	2
Mineral composites	2
Nero Assoluto natural granite stone	3
Artificial stone – quartz composite	3
Ceramic plates	3

Personal consultation

Have questions about our products and services? We would be happy to help you here – including on a one-to-one basis. Go to www.blum.com/contact to find your personal BLUM contact partner.

The company Blum

Founded over 60 years ago by Julius Blum, Blum is a family-owned company that operates on an international scale. Its strategic business segments include lift, hinge and pull-out systems. All our product developments focus on perfecting motion.

www.blum.com

The Blum logo consists of a stylized lowercase 'b' with a small upward-pointing arrow integrated into its stem, followed by the word 'blum' in a bold, lowercase sans-serif font.

Blum in Austria and around the world

The company has eight plants in Vorarlberg, Austria, additional production sites in Poland, the USA and Brazil and 31 subsidiaries/representative offices. Blum supplies more than 120 markets. The Blum Group employs 8,000 people in total, 6,000 of whom work in Vorarlberg.

Global customer benefits

“Whether manufacturer, distributor, fitter or kitchen user – everybody should personally enjoy the benefits of Blum products” – that is Blum’s philosophy on global customer benefits.

Innovations

To support customers with innovative fittings solutions and secure long-term success for the company, we need to consistently invest in research and development, in plants and facilities and in employee training. With more than 2,100 granted patents worldwide, Blum is one of Austria’s most innovative companies.

Quality

Blum’s comprehensive concept of quality does not only apply to products. Services and collaboration with customers and partners should also meet the same quality requirements.

Environment

At Blum, we believe that responsible ecological behaviour has long-term economic benefits. The longevity of products is just one of many important aspects. Other important measures include the use of environmentally-friendly processes, the intelligent use of materials and prudent energy management.

DYNAMIC SPACE

Good workflows, optimum use of storage space and top quality motion are important features of a practical kitchen. Blum’s ideas for practical kitchens are designed to bring function, convenience and ergonomics to furniture interiors.
