HAFELE REASSURING EXPERTISE

“For over 9 decades, we’ve been helping people make more of their homes.

Established in Germany, and now operating worldwide, we specialise in the fittings, hardware and systems that improve the way your home works. So when you choose our products as part of your new or reformed home, you know you’re getting the benefit of extensive knowledge and decades of experience.

And we’re still a family business, owned and managed by family members who really care about the products and service we provide. You can rely on our commitment to the highest standards of quality and reliability, founded on a long tradition of German engineering where attention to detail is second nature.

All our home improvement ideas are built to last – day in, day out – we want you to get the very best from every corner of your home, for many years to come.”

PREMIUM FREESTANDING REFRIGERATOR

Pave way for a smart and healthy lifestyle with the new Premium Freestanding Refrigerators by Hafele. These high specification Premium Freestanding Refrigerators boast of higher capacity, premium cooling technology and inverter compressor especially designed for Indian kitchens. Available in three variants, Side by Side Refrigerator (ARG550NF), Bottom Freezer Refrigerator (ARG468NF) and French Door MultiZone Refrigerator (ARG650NF), these refrigerators are packed with incredible features which retain the maximum quality of your food and beverages. The ARG650NF and ARG550NF come with a 100 L MultiZone compartment which can be used alternatively as a freezer and fridge

depending on your storage requirements. The Fresco Zone Plus drawer in these refrigerators provides the suitable environment for your fruits and vegetables maintaining their quality for a longer time.

The tropicalized climate rating of the compressor makes the refrigerators apt for the Indian climatic variations, the inverter compressor works in line with the outside temperature and smart sensors maintaining the internal conditions of the refrigerator as you have set them! Treat yourself and your food to special care with these new elegant, intelligent and contemporary Premium Freestanding Refrigerators by Hafele!

ARG468NF
Bottom Freezer Refrigerator

BIGGER IS ALWAYS BETTER!

With its grand design and large storage capacity, the French Door MultiZone Premium Refrigerator is a gem. Stock food worth 650 L with ease and never fall short of ingredients to experiment with! The Triple Cooling Technology, Inverter Compressor and Smart Sensors work together to provide the perfect cooling for your food.

Elegant and Minimalist!

The side by side configuration offered by Hafele Argento Series comes with a high capacity of 550L and vogue black glass doors that completely sync in with the modern kitchen design and layout. The refrigerator is a design extension of Hafele's full glass series of hobs, hoods, ovens and microwave.

Electronic control system and smart sensors make it an intelligent machine that can store food and keep it fresh for a longer period of time.

Smart is Simple!

The Bottom Freezer Premium Refrigerator from Hafele is a simple and smart appliance packed with efficient cooling technology, smart sensors and a simplistic design! With the storage capacity of 468 L, this refrigerator is the ideal compact family refrigerator, sufficient for an average Indian family. Its Tropical Climatic Rating and Inverter Compressor make it perform extraordinarily even in extreme environments.

A Smart Refrigerators for a Smarter Lifestyle!

In modern times, our access to good organic food is limited to super markets. We pay attention to "Organic Produce" but we ignore that if this produce is not stored in proper conditions, it will end up losing most of its nutrients. Hafele smart

refrigeration has active sensors to regulate precise temperatures in each zone. Stable temperatures across the zones help keep the food stored, be it fruits, dairy or meat, fresh for a longer time.

Right temperature in every corner of your refrigerator

MultiZone Convertible Compartment

In the French Door Premium Refrigerator by Hafele, MultiZone is a 100 L convertible compartment that can be utilised either as a fridge or a freezer depending on your storage needs. The cooling system adjusts for the freezer or fridge compartment in just 60 minutes. The flexible temperature range of -23 °C to 8 °C helps you keep different foods and beverages at an ideal temperature. You can also turn off the multizone compartment when you have fewer supplies.

(Applicable in ARG650NF)

The Health Zone - where food feels good!

FrescoZone™ Plus

If your food feels good, you feel better. The FrescoZone™ Plus drawer in the new Premium refrigerators creates an ideal habitat for your fruits, vegetables and dairy by maintaining low temperatures between 0°C and 2°C with the help of smart sensors. The humidity slots provided in the FrescoZone™ help adjust and maintain the right level of moisture based on the type of food stored. Fruits and vegetables require more moisture to retain their freshness and crispness compared to dairy and meat products which require lesser humidity.

Food stored in the FrescoZone™ Plus drawer remains fresh for up to 3 times longer than food stored in a standard refrigerator drawer.

The Fresh Zone

Vegetables, fruits, fish, seafood and meats maintain their freshness for the longest possible time at a temperature of 0°C to 2°C. Hafele's Range of Premium Freestanding Refrigerators understands this by providing you with two isolated zones to create an ideal habitat for these food items by maintaining low temperatures between 0°C to 2°C with the help of smart sensors.

Vegetables

FRESH
ZONE

Inverter Compressor

Your refrigerator works 24 × 7 to provide you with the quality food that you deserve. It therefore becomes important to have an efficient compressor that will give you ideal cooling with minimal energy consumption! The Premium refrigerators by Hafele feature an inverter compressor which helps save energy, decrease noise and preserve freshness for a longer time.

The compressor never switches off even when the temperature stabilizes, but runs at a slower speed maintaining the temperature inside the refrigerator thereby preventing temperature variations and spikes in energy consumption during peak load (in summers or during the day). When your refrigerator has an inverter compressor:

1. There is a reduction in your electricity bills due to the fact that the device accelerates to maximum power at the first power-up and maintains the desired temperature levels throughout the day.
2. It produces less noise compared to refrigerators with a traditional compressor
3. It maintains the temperature in the refrigerator more efficiently compared to a conventional compressor. The temperature is maintained at the set value even at minimum compressor power.

Keeping it **GREEN!**

Let **your food** also **breathe** the **best air!**

With the latest collection of smart refrigerators Hafele has drawn on the best that nature has to offer, employing anions that purify the air as part of a highly-effective process known as ionisation.

By cleaning the air and fully enriching it with oxygen, these anions help create the ideal microclimate for keeping food fresh and healthy inside your refrigerator. IonAir technology, which eliminates up to 95% of microorganisms, is integrated in each line of the new generation refrigerators by Hafele.

Every year we end up throwing out large amounts of food due to improper storage and eventual spoilage. But ION generation refrigerators provide the ideal solution – optimal temperatures combined with anions, creating the ideal environment for storing and caring for your good food, keeping it fresh and bacteria-free far longer than any conventional systems.

The **Dual Cooling** Technology

You may often notice that in a regular refrigerator the rice you store overnight has dried up and the peel of the vegetable looks crinkled. This happens because the refrigerator doesn't have an isolated cooling technology and there is an active exchange of air between the freezer and the fridge, making the food stored in the fridge section dryer than desired.

It is important to have an independent cooling cycle for each compartment as the temperatures in both the compartments varies by atleast 25 degrees. The optimum temperature for food preservation is 7° for fridge and -18° for freezer.

Häfele's New Premium Refrigerators provide you with a sophisticated and advanced technology of Dual Cooling which ensures that the fridge and freezer have no exchange of air and are independent in terms of temperature settings. Some other advantages of Dual Cooling are that it upholds and sustains the humidity in the refrigerator compartment, averts odour transfer and brings in higher energy efficiency as cooling energy is generated separately for both compartments.

Tropical Climatic Rating

Compressors are classified according to four climatic classes based on different operating temperatures:

- Sub-Normal (SN): 10 °C to 32 °C
- Normal (N): 14 °C to 36 °C
- Sub-Tropical (ST): 16 °C to 38 °C
- Tropical (T): 18 °C to 43 °C

The Premium refrigerators have a Tropicalised compressor with a climatic class SN-T providing optimal cooling and humidity in the temperature range of 10 °C to 43 °C. This compressor works in the best way possible for the Indian Climate where temperatures range from 53 °C to -23 °C and humidity can be as high as 85%.

If you choose a refrigerator with an inappropriate climate class:

- The refrigerator has trouble achieving the right temperature thus putting a constant strain on the compressor for running longer resulting into higher energy consumption.
- The refrigerator will be unable to sufficiently cool the food items leading to increased humidity due to defrosting in the refrigerator and frosting in the freezer.
- Due to the constant strain on the compressor, the refrigerator will have a lower life span.

Give **light** and the **darkness** will **disappear of itself!**

The French Door Multizone Refrigerator model comes equipped with an advanced lighting concept - Sky LED that illuminates the whole refrigerator compartment with minimal obstruction so that you have a clear view of the food stored in your refrigerator.

(Applicable for ARG650NF)

Smart Display and Control

Hafele's Premium Freestanding Refrigerators come with an intuitive display that allows you to regulate the refrigerator temperature independently for the fridge and the freezer compartment. The refrigerators are equipped with smart sensors that maintain the refrigerator temperatures based on the limit set by the user with minimum variation. The display also allows you to set the refrigerator on various modes like quick cool, quick freeze and holiday mode.

Quick / Super cooling & Quick / Super freezing function

When a new item is placed in the refrigerator or the freezer compartment, the temperatures usually increase, which leads to reduced freshness of items already present inside. Activate the super cool function in the fridge section and super freeze function in the freezer section of Hafele's New Premium Refrigerators to accelerate the rate of cooling inside. If new food items are added, the refrigerators will cool faster to minimise the humidity and condensation until ideal temperatures are reached (i.e. 2°C for the fridge section and -24°C for the freezer section). This helps the food to retain the initial freshness and quality for a longer time. Once the ideal temperatures have been achieved, you can switch back to your regular refrigerator settings.

* Both the Super Cool / Freeze and Quick Cool / Freeze functions work in a similar way. Super Cool / Freeze is the name used in French Door MultiZone™ Refrigerator and Quick Cool / Freeze is used in Bottom Freezer Refrigerator model.

No Frost Technology

With the no-frost technology in the Premium Refrigerators by Hafele, you don't have to manually defrost your appliance because the built-up frost in the fridge / freezer is melted at regular intervals throughout the day and the resulting water is drained through a duct at the back of the unit. This prevents unwanted humidity inside the refrigerator and keeps your freezer ice-free thereby preventing food from frosting over.

In a frost-free refrigerator, due to the effective air-flow, the temperature is maintained precisely, the packaged food stored does not stick together and odours are limited.

Child Lock and Vacation Mode

Vacation mode is designed to reduce the power usage when you go on holiday for longer periods of time. If your fridge has Vacation Mode, turning it on will keep the freezer running normally but will put the refrigerator compartment on a standby mode. This is ideally to allow you to preserve the food in the freezer compartment during your stay away from home.

The Premium Refrigerators by Hafele come equipped with a child lock which prevents accidental changes made in the temperature settings of the refrigerator during wiping of the panel / regular cleaning or if a kid at home fiddles with the settings unknowingly. When the child lock is activated, the panel doesn't respond to any other touch till the lock is released.

Keeping it **smart** and **elegant!**

Flat door handle-less design

With the modern kitchens getting more contemporary with handle-less cabinetry designs, it becomes even more important to have a refrigerator that has harmony with the overall kitchen design.

The flat door design of Hafele's Premium French Door MultiZone Refrigerator and Side by Side Refrigerator model enables the refrigerator to blend in with your kitchen layout perfectly.

FREESTANDING DISHWASHER

Juggling numerous tasks at home and work can be a bit overwhelming especially when you do not have the right appliances that help take care of your daily mundane activities at home. Hafele's premium appliances range equips you with the choice of concentrating on activities that really need your attention. With our range of appliances you can go about your day without the added stress of doing that big batch of laundry or cleaning your utensils. Hafele's New Freestanding Dishwasher Range is a hygienic and quiet alternative to your regular washing. These dishwashers have impressive capacities with 12 place settings, aptly suited for average Indian households. The adjustable

upper and lower baskets and the separate cutlery basket guarantee maximum space optimization inside these dishwashers! Besides, they also have the option of functioning at half load, which is an energy saving solution when you have less dishes to wash! The SoftTouch shelves of the dishwashers prevent scraping and scratching of utensils.

The Aqua 12S and Axle 12S Dishwashers come with built-in programs which provide you with the flexibility of washing your dishes depending on their material and how soiled they are. There is a glass care program especially designed for your delicate glassware and an intensive

program to take care of the toughest stains on your pots and kadhais. The temperatures and time duration for different programs vary according to the dishes you choose, such as pots, glasses, plates etc., ensuring 99.9% germ-free cleaning of any utensil you put inside. Each washing cycle is followed by an efficient drying cycle which gives you dishes that are ready-to-use. The sound engineering technology of these dishwashers doesn't cause a disturbance in the background when all you want to do is spend some time with your family or take an afternoon siesta! Time and peace are luxuries you can now afford with Hafele's new Aqua 12S and Axle 12S Dishwashers!

AQUA 12S FREESTANDING DISHWASHER

AXLE 12S FREESTANDING DISHWASHER

Features

Low Water Consumption

Washing dishes by hand may feel like an achievement, but the environment ends up paying a price for it. Washing dishes by hand consumes more litres of water for the same load that can be cleaned with as little as 11 litres of water using Hafele's Freestanding Dishwasher Range.

Additional Cutlery Basket

Your cutlery usually gets lost in the sea of larger utensils when placed in the same basket. To make sure that these small but essential tableware are looked after properly, Aqua 12S and Axle 12S provide you with dedicated cutlery baskets which offer you immense flexibility and convenience to take good care of your knives, spoons and forks.

No Germs

99.9% Clean

It isn't enough that your dishes are visibly clean, they need to be germ-free too! Hafele Dishwashers deliver a hygienic wash capable of eliminating 99.9% germs and bacteria. The high temperature inside the dishwashers accompanied with the water pressure removes all the sticky residue, bacteria and germs.

Glass Care Program

The most delicate things need the greatest care. With our Freestanding Dishwashers, your glassware have a dedicated glass care program which is a 40°C, 60 minute gentle cycle. Now your champagne flutes, wine glasses and glass bowls will get the best treatment possible!

No more wet utensils

The drying cycle in the Hafele Dishwashers leaves your dishes perfectly dry without any water residue or moisture deposit! The residual drying technology incorporated in the dishwashers dries the dishes with the help of the steam generated during the washing cycle without the introduction of external air. As a result, the drying is faster and more hygienic compared to other drying methods.

Soft Touch Shelves

The racks and spikes in the Aqua 12S and Axle 12S Dishwashers are coated with nylon which provides a gentle hold for fragile glassware and essential crockery during active washing and drying cycles. Moreover, compared to normal racks, these racks are more hygienic and last longer.

Controls & Operation

- ① Power Button:**
Press this button to turn on your dishwasher. The indicator above the button will switch on.
- ② Half Load:**
For small loads of utensils this special half load function can activate either of the racks, unlike the standard half load function that only activates the bottom racks spray zones. This is a great energy, time and water saving function.
- ③ Delayed Start:**
Don't want your dishes to be washed and kept in the dishwasher for a long time before you arrive home? The delayed start function helps you to set the time at which you want your washing to begin. Press the button multiple times to delay the time of the wash program by 3/6/9 hours accordingly.
- ④ Program Selector:**
Press the program button multiple times to select the desired program cycle you wish to run.
- ⑤ Start / Pause:**
You can confirm and start the cycle by pressing this button. This is done after your selection of desired program, start time and full / half cycle load. You can also pause the cycle by pressing the same button.
- ⑥ Child Lock:**
This option allows you to lock the buttons on the control panel - except the Power button to avoid any tampering during the washing cycle. To lock or unlock the buttons on the control panel, press and hold the Delayed Start button + Program selector button for 3 seconds simultaneously.

Programs & Application

ECO:

Most economical washing program for medium soiled daily dishes that are kept waiting.

Cycle: Wash (45°C) - Rinse (65°C) - Dry

Degree of Soiling: Medium; Wash time: 190 mins;

Power Consumption: 0.90 kWh; Water Consumption: 11L

Rapid 30:

Suitable for lightly soiled daily dishes that are scraped or pre-cleaned.

Cycle: Wash (45°C) - Rinse (55°C)

Degree of Soiling: Low; Wash Time: 30 Minutes;

Power Consumption: 0.75kWh; Water Consumption: 11L

Intensive

Designed for highly soiled wash loads, such as pots, plates and woks.

Cycle: Pre-wash (50°C) - Wash (60°C) - 3x Rinse (65°C) - Dry

Degree of Soiling: High; Wash time: 170 mins (Aqua 12S) / 175 mins (Axle 12S)

Power Consumption: 1.6kWh; Water Consumption: 18L

Normal

For high-medium soiled utensils. Ideal for daily wash of a load of utensils used for regular cooking

Cycle: Pre-wash (45°C) - Wash (55°C) - 2x Rinse (65°C) - Dry

Degree of Soiling: Medium; Wash time: 180 mins (Aqua 12S) / 225 mins (Axle 12S)

Power Consumption: 1.3kWh; Water Consumption: 15L

90mins Wash

For medium soiled mixed loads that do not need excellent drying efficiency.

Cycle: Wash (65°C) - 2x Rinse (65°C) - Dry

Degree of Soiling: Medium/Light; Wash time: 90 mins;

Power Consumption: 1.02kWh; Water Consumption: 12L

Glass

For delicate glassware like bowls, plates, wine glasses etc.

Cycle: Pre-wash (30°C) - Wash (40°C) - 2x Rinse (60°C) - Dry

Degree of Soiling: Light; Wash time: 60 mins;

Power Consumption: 0.9kWh; Water Consumption: 14L

Additional Information

Changing program in the middle of the cycle:

A wash cycle can only be changed if it has been running for a short time otherwise, the detergent may have already been released and the dishwasher may have already drained the wash water. If this is the case, the dishwasher needs to be reset and the detergent dispenser must be refilled. To reset the dishwasher, follow the instructions below:

1. Press the Start/Pause button to pause the washing.
2. Press program button for more than 3 seconds - the program will cancel.
3. Press the program button to select the desired program.
4. Press the Start/Pause button, after 10 seconds, the dishwasher will start

Adding a Utensil after the wash cycle starts:

A forgotten utensil can be added any time before the detergent dispenser opens. This can be done with the following steps:

1. Press the Start/Pause button to pause the washing.
2. Wait 5 seconds then open the door.
3. Add the forgotten dishes.
4. Close the door.
5. Press the Start/Pause button after 10 seconds, the dishwasher will start.

100% Dry Just Wash and Wear

MARINA 8614 W
Freestanding Washer Dryer Combo Machine

Washer Dryer Combo with Antiallergenic & Stain Selection Program

Eliminate the need for a separate washing machine and a separate clothes dryer. With easy load options and smart programs, you get the maximum flexibility for your laundry work with regards to different kinds of clothes like, cotton, wool, synthetic and delicate clothes like silk and satin. You also get the freedom from draining water from the condenser box after every wash. Hafele's washer dryer combo is one of the most efficient combo machines with the condenser drying technology giving you maximum flexibility to choose time or energy saving programs. Choose the 24% faster time saving program to dry 6kgs of laundry compared to a standard clothes dryer.

Don't Limit your Outdoor Activity

Allergy Safe[®] Wash

The clothes you wear throughout the day go through invariable interactions with pollens, spores and other micro bacterial germs that stay on the fabric till it is duly treated and cleaned.

A regular wash cannot rinse out these micro bacterial particles from the clothes. Hafele washing machines and washer dryer combos comes with special allergy safe wash programs that can effectively clean these particles.

Thanks to their custom drum movements, sensitive temperature control and additional rinse and spin cycles, you can get premium hygienic cleaning results for all your laundry.

KINDS OF POLLUTANTS AND ITS EFFECTS:

Pollen is one of the most common triggers of seasonal allergies. Many people know pollen allergy as "hay fever." The affected person can have symptoms like itchy and runny nose, red and watery eyes.

Usually during high humidity season, spores and molds are formed from the traces of dust present in the clothes. The spores causes itchy skin with rashes.

Ultra fine particles like pet's hair, fine fabric lint, etc. can also be a cause of inflamed respiratory tracks. People suffering from asthma are highly prone to these kind of particles.

The **Condenser Drying** Technology

Faster Drying

Compared to the standard vented dryers, the condenser dryer takes 40% less time to dry an equivalent load of the laundry. To dry a 6Kg wash load in the condenser dryer it takes less than 3 hours whereas the vented dryer takes 4 hours or more for the same.

Can Handle Higher Loads

Condenser dryers are vital machines to handle higher drying loads within a less time frame.

Hafele washer dryer combo can undertake and complete washing and drying of a 6 kg cotton clothes load in less than 285 mins (5 hours). Drying of 6 kg wash load can happen in less than 168 mins (less than 3 hours).

Professional Drying Results

The condenser dryer dries out 99% of the moisture. Whereas vented dryers are not as efficient as the condenser dryers. The moisture retention in vented dryer is 85% - 90%.

Features

Special Wool Program

An incredible winter coat or cashmere sweater is an investment, so of course we'd want to protect it. Yet how exactly to care for our winter clothes seems to be a mystery - Should everything be dry cleaned? Can anything be put in the wash?

Hafele's Washer Dryer Combo brings you the Special Wool Program that takes care of your precious woolens. This specially designed program gives a gentler mechanical movement and restricts the water temperature up to 40 degrees. The program for wools runs for 44 mins for a 2 kg load. You can also select the stain levels in woolens to get a hygienic wash.

Eco Logic system

The multiple sensors and microprocessors chipped inside the Hafele's washer dryer combo intelligently identify the wash load, water pressure and adjust the cycle accordingly.

During the half load cycle, the washing machine adjusts the intake of water and the wash time. This optimizes the consumption of water and energy, thus making the washing exercise super efficient.

Multiple Drying Level

The Hafele Washer Dryer model has integrated 4 drying programs for cotton and additional 3 levels of drying for laundry other than cottons.

You can select drying levels along with 13 wash programs to get an end to end washing and drying result as per your choice.

Stain Level Selection

This program gives you the complete charge of cleaning your laundry your way !

This unique program is provided to ensure that the tough stains are taken care of without giving harsh treatment to clothes. While you select this function, the machine will incorporate an additional pre-wash function and adjust the temperature level based on the fabric and stain-level you have selected. There are 8 programs that allow you to select this function.

Features

Multiple Drying Levels

From jeans to woolens, now get 100% drying

16 Smart Wash Programs

16 Smart Wash programs to obtain the best wash results for cotton, synthetic, woolens and delicate clothes.

Quick'30 Program

The special program is optimised to lightly wash soiled garments in just 30 minutes.

Liquid Detergent Compartment

The special compartment is designed for alternative detergent use, and is compatible with liquid and concentrated liquid detergents

A Complete Laundry Care Solution

Super-wide Door

The 310cm wide door opening for easy loading & unloading of clothes.

Smart Foam Control

Can detect if there's too much foam in your washing machine and reduces it automatically, thereby caring for your skin and improving the quality of your laundry.

Auto Restart

Specially developed auto restart feature allows the washing machine to continue the wash cycle in safe conditions when the electricity resumes after power cut-offs.

Smart Motor

Hafele's NSmart™ motor technology cleans even the toughest stains - with lesser noise and higher durability.

Overflow Control

The water level sensor measures water level deviations in the drum and drains automatically when the required level is exceeded.

Leave the “stain fight” to the experts!

Hafele’s premium washing machines’ revolutionary and smart programs remove different types of tough stains with three different temperature level options for heavy to light stains.

The intensive program provides a longer washing cycle, higher washing temperatures, increased tumbling action, special soaking phases and longer rinse cycle to ensure superior cleaning performance.

Range Highlight

Don't Limit your Outdoor Activity

Allergy Safe® Wash

The clothes you wear throughout the day go through invariable interactions with pollens, spores and other micro bacterial germs that stay on the fabric till it is duly treated and cleaned.

A regular wash cannot rinse out these micro bacterial particles from the clothes. Hafele washing machines and washer dryer combos comes with special allergy safe wash programs that can effectively clean these particles.

Thanks to their custom drum movements, sensitive temperature control and additional rinse and spin cycles, you can get premium hygienic cleaning results for all your laundry.

KINDS OF POLLUTANTS AND ITS EFFECTS:

Pollen is one of the most common triggers of seasonal allergies. Many people know pollen allergy as “hay fever.” The affected person can have symptoms like itchy and runny nose, red and watery eyes.

Usually during high humidity season, spores and molds are formed from the traces of dust present in the clothes. The spores causes itchy skin with rashes.

Ultra fine particles like pet's hair, fine fabric lint, etc. can also be a cause of inflamed respiratory tracks. People suffering from asthma are highly prone to these kind of particles.

Using **Energy** and **Resources** Efficiently is More Important Than Ever

Hafele's Premium Range of Washing Machines protect nature with this environmental vision. Hafele presents **A+++** washing machines that are 70% more energy efficient than a standard energy rated machine.

Features

Special Wool Program

Provides extra care for your 'hand wash only' labelled wools with gentler mechanical movements and a warmer rinsing cycle.

Temperature Control

Our preset programs have been designed with optimum temperature levels. You can chose from 30°C – 90°C

Sports Wear Wash

This program washes at 40°C, and is particularly recommended for lightly soiled synthetic or cotton blend gym clothes.

Liquid Detergent Compartment

The special compartment is designed for alternative detergent use and is compatible with liquid and concentrated liquid detergents

Quick'15 Program

This Special program is optimised to lightly wash soiled 2-3 kg garments in just 15 minutes.

Advanced Display & Programs

15 Smart Wash programs to suit your requirement

Most Efficient Spin Speed

With a spin speed of 1400RPM, Hafele washers leave less than 50% of residual moisture, that dries off in no time!

Auto Restart

Specially developed auto restart feature allows the washing machine to continue the wash cycle in safe conditions when the electricity resumes after power cut-offs.

Super-wide Door

The 33cm wide door opening for easy loading & unloading of clothes.

Smart Motor

Hafele's NSmart™ motor technology cleans even the toughest stains - with less noise and higher durability.

Smart Foam Control

Can detect if there's too much foam in your washing machine and reduces it automatically, thereby caring for your skin and improving the quality of your laundry.

Overflow Control

The water level sensor measures water level deviations in the drum and drains excessive water automatically when the required level is exceeded.

Kitchen Countertop Appliances

Do you love cooking but hate the tedious prepping activities that precede it?

Well, you're not alone!

The recreational experience of cooking your favourite delicacies is often spoiled due to all the time and effort spent in mundane pre-cooking activities like chopping, grinding, grating or blending. Hafele introduces, for the very first time, a professional range of small countertop appliances that makes prepping fun while giving you more time to enjoy what you like doing the most – cooking your favourite dishes or experimenting with new ones!

As an extension to our comprehensive offering of cooking appliances from the Hafele Appliances Range, Hafele's countertop appliances come in modern designs, attractive colours and long-lasting, sturdy materials; coupled with superior functions that will make your pre-cooking tasks a breeze. These handy appliances are super easy to use, provide accurate prepping results and can make even the most boring tasks in the kitchen, fun!

Modern

Time Saving

Chic

Preparing a perfect meal does not
always entail clutter -

Unclutter your kitchen with
Hafele Kitchen Machines

Small appliances like slicers, graters or blenders increase your productivity in the kitchen. Or do they? A cluttered worktop does not only cause chaos in your culinary playground but can also muddle up your headspace. With the rising trend of people opting for open kitchens, it is absolutely necessary to UNCLUTTER your kitchen for it to cater to not only your functional needs but also your aesthetic aspirations.

Appliances that are meant to serve a single purpose can easily be replaced with multi-purpose machines. This not only creates more space for you on your worktop but in the long run helps derive compounded value for the money spent by you.

Hafele brings to you its range of 'Kitchen Machines' which are in essence dynamos which successfully amalgamate functions of various countertop appliances like dough kneader, whisker, beater, chopper, grater, sausage maker, juicer, mixer and blender. Your daily kitchen chores are nothing but a piece of cake for these versatile, multi-use machines by Hafele.

Upgrade your lifestyle....upgrade your kitchen.

HAFELE CASTLINE® SERIES

VIOLA

KLARA

TAURUS

Hafele brings to you its 'Castline Kitchen Machine Series' which includes three models: Klara (5.5 L), Taurus (5.5 L) and Viola (6.5 L) that successfully amalgamate functions of various countertop appliances like dough kneader, whisker, beater, chopper, grater, sausage maker, juicer, mixer and blender. Your daily kitchen chores are nothing but a piece of cake for these versatile, multi-use machines by Hafele.

How is the **HAFELE CASTLINE® SERIES** better than any food processor?

Powerful Aluminium Die-cast Body for heavy duty performance and stability even when used at high speed

Tactical touch control for easy one touch operation of the machine

Take your cooking game from amateur to professional, thanks to the results of the CASTLINE Series Kitchen Machines

Planetary motion with 60 touch-points to ensure that the mixing attachments rotate efficiently around the bowl providing thorough mixing without manual intervention

High speed glass blender of 1.5 L capacity for your puree, smoothie, sauce making requirements

Multi-functional machine with in-built 8+ functions for every kind of cooking need

5.5/ 6.5 L large capacity stainless steel bowl to prepare small to big batches of food without any hassle

LED Display to gauge the elapsed or running time of the machine. Helps you in mixing/blending for just the right amount of time

Specialty attachments for different kinds of mixing and blending to provide the desired output

Inbuilt timer to allow the machine to work without supervision (for upto 20 min.) while you can move on to other tasks in the kitchen

Compact design which consumes minimal space on the countertop and makes the kitchen machine a must have chic accessory for your kitchen

Multiple speed options to achieve varied levels of textures and fluffiness of your mixed/blended food

KLARA

The Hafele Castline range brings to you the first ever electronic kitchen machine that every Indian Kitchen needs today.

With the new CASTLINE® Hafele Kitchen Machine - KLARA, you can enjoy the most advanced design and functionality that will make your regular cooking task a breeze.

Dough Kneading Function:

The precise kneading movement results in soft doughs (which are similar to hand-kneaded doughs) for fluffy breads or soft chapattis.

Whipping / Whisker Function:

The planetary movement allows consistent whisking results that are professional even for a large portion of servings. It is Ideal for whipping egg whites or cream which are often used in cakes and desserts.

Beater Function:

The precise configuration of the beater helps mix batters at a constant speed and at a regular pace resulting in providing a homogeneous texture; highly desired for dosa or steamed cake batters.

Vegetable Slicing, Chopping and Grating Function:

The various blade configurations provide flexibility in chopping vegetables in even shapes and sizes (unlike hand-chopped vegetables which may be uneven) and that too in a fraction of the time you would have spent doing the same.

Meat Mincing:

Enjoy the benefits of the heavy duty metal mincer for precise meat mincing.

Grinder

Blender and Grinder:

As a unique feature the Kitchen Machine also doubles up as a blender, giving you all required functions in one machine. Use the wet blender to quickly blend that ideal smoothie, shake or puree or use the small dry grinder to grind spices, pulverize sugar, shred coconut and much more!

- Heavy duty full Aluminium Diecast body
- Powerful 1000W motor
- Planetary rotations* for a uniform mixing result
- Wider tilt head circumference for efficient and superior mixing
- Metal gear transmission
- Timer function
- Electronic control
- 5.5L Food Grade Stainless Steel mixing bowl
- 3 mixing attachments: beater, dough hook and whisker
- 1.5L single mould glass blending jar for leak-proof blending
- Vegetable cutter (3 Attachments: slicer, grater and chopper)
- Optional : Aluminium body meat mincing unit (Article No: 535.43.129)

Article No: 535.43.122

** Planetary mixing: rotary mixing along the axis and circumference for superior and uniform blending even of small quantities.*

VIOLA

Hafele extends its CASTLINE SERIES with the VIOLA Kitchen Machine.

Viola comes with a knob control to set accurate speed levels and with a huge capacity of 6.5L. Its trendy matt grey colour will perfectly complement your contemporary kitchen.

Speed Control :

With 6 speeds and a pulse function enjoy greater control over textures while mixing, kneading or blending.

Beater Function:

The precise configuration of the beater helps mix batters at a constant speed and at a regular pace resulting in providing a homogeneous texture; highly desired for cake batters.

Dough Kneading:

The precise kneading movement results in soft doughs (which are similar to hand-kneaded doughs) for fluffy breads or soft chapattis.

HAFELE PROBLEND® SERIES

OKTABLEND

MÉLANGE

It is often said that following a healthy lifestyle is an extremely expensive affair and why should it not be! Whether it is a pre-packaged juice or a vacuum blended smoothie, a whole lot of advanced technology and science goes into the machines that make creating them possible. Instead of having weekly subscriptions with health companies to send you these bottled juices / smoothies at a premium, wouldn't it be better if you could prepare them fresh at home at a fraction of the cost.

Hafele now brings these technologies right at your doorstep with its Problend® Professional Blender Series which includes two models: Oktblend Vacuum Blender and Mélange High-speed Blender.

OKTABLEND

The Oktablend Vacuum Blender laden with VacuoTechnology helps remove, with the push of a button, the air and oxygen responsible for oxidation of food and the subsequent depletion of the micro nutrients to enhance the shelf life and nutrient content of the blended food.

With this technology the nutrient level of your food is maintained and the food can be stored for a longer time when compared to traditional blending.

Why do you need **vacuum technology** in your daily life

ROTTEN FOOD

CORROSION

AGING

Oxygen is the main cause of erosion, ageing and rotting. Vacuuming food, juices or any form of blends removes the oxygen responsible for the oxidation and subsequent depletion of micro-nutrients. You can derive upto 90% of nutrition in your food/drinks if it is stored under vacuumed condition as compared to it being stored in an exposed condition.

THE VACUOTECHNOLOGY

The high pressure vacuum helps remove air and oxygen during blending which are responsible for oxidation of food/drinks as well as the subsequent depletion of the micro-nutrients thereby enhancing the shelf life and the nutrient content of the blended food.

TRADITIONAL VS. VACUUM BLENDING

When you blend at high speed the air bubbles formed do not allow the complete and uniform blending of fruits and vegetables which is why within just an hour a clear separation starts to occur.

When food starts oxidizing, the colour and texture of the food changes. It is the first visible indication that the nutrients in the food have started depleting.

AdapTech Control

Hafele's OktaBlend blender introduces the smartest control in Vacuum Blending.

The inbuilt AdapTech Control and Display of Oktablend Vacuum Blender with the 8 pre-set functions gives you a host of options to select from, while promptly displaying the real-time temperature inside the blending jar.

The easy-to-use joystick knob manoeuvres through the programs and makes it a breeze to operate the machine.

Vacuum

Whole Juice

Puree

Batter

Smoothie

IceCream

Blending

Cleaning

- VacuoTechnology: 80Pa Pressure of Vacuum that helps to take out maximum air
- High speed blending of upto 30,000 RPM
- AdapTech display: 8 preset one touch functions + time, temperature and speed display
- 2L octagonal jar design to assist wholesome blending in minimal time
- Full touch operation and large adaptive display
- 3D blade assembly that is perfect for blending
- Commercial AC motor with copper winding for powerful performance and longer hours of operation
- Power: 2200 W

Article No: 535.43.270

MÉLANGE

Hafele's high speed professional blender is your perfect partner for power punched blending results. Thanks to its titanium coated blades which are tough and long-lasting and the strongest motor in the market, blending hard fruits and vegetables like coconuts, apples and apricots or grinding hard and dried Indian spices like dry turmeric, cumin, coriander seeds, and pepper corns takes no real effort.

The fully digital machine also comes with a unique one touch operation for Smoothies and Ice crushing. You can choose up to 30 speed levels for the perfect blending and grinding results.

- 1200W powerful motor
- High speed blending of upto 32000 RPM
- 1.8L glass blending jar
- Titanium blades for long lasting service life
- Auto programs: Smoothie, ice crush and auto clean
- Stainless Steel housing provides durability and stability
- 30 speed levels for varied results as per requirement
- 500ml dry grinder jar for spices, coffee, nuts and much more

Article No: 535.43.261

Hafele COPRESS® Series

MAGNUS

MAGNUS

Magnus Cold Pressed Juicer by Häfele is designed to work at a much slower pace as compared to your regular juicer. It is hence able to extract fruit and vegetable juices without applying heat, the absence of which helps retain maximum number of nutrients, vitamins and enzymes, and prevents oxidation.

The Magnus ensures that it extracts more than 80% of the juice from fruits and vegetables put into the juicer.

Food Engineering of Cold Pressed Juice

It is a process that enables the user to maintain all the original properties of fruit and vegetables, without applying heat. Since no heat is applied throughout the entire process, the user can retain the largest number of nutrients, vitamins and enzymes of the fruits and vegetables maximising their nutritional value and preventing their oxidation.

With this technology you can experiment and combine various ingredients to achieve combinations that can provide instant energy or a much needed detox or those that can accelerate your metabolism to aid weight management - the options are endless, try the ones that best adapt to your lifestyle.

More than just JUICES!

Prepare a bottle of healthy and tasty nut milk

Make a healthy Chia seeds smoothie

Concoct a blend of your favourite essential oils

MagnaFeed Inlet:

83mm diameter of the inlet tube helps take in whole fruits like big apple, pear, oranges, etc. without hassles of cutting them .

SmartFlow System:

This system allows to mix and hold juice to get 100% mixed juice result when using more than one fruit / vegetable. Smart Cap controls the flow of the juice while pouring it out.

Less Waste, More Juice:

The residual juice that remains in the pulp waste is merely 20%. This means you can now get maximum juice output with Hafele's Cold Pressed Juicer.

Single Button Operation:

The hands-free "ON" button is used for continuous juicing. Use "REVERSE (REV)" button to clear out the MagnaFeed in case ingredients get stuck in the cavity.

Gentle & Slow Squeezing:

The auger made by FDA PMMA alloy, known for its strength and hardness rotates at a slow speed of 35 RPM to provide you with a taste closest to the original flavours of the fruits and vegetable without generating any heat in the process.

Safety Locks:

Multiple safety locks ensures that the machine works only when all the parts are connected properly.

- Slow and gentle rotation of 35 RPM
- Huge Ø 83 mm inlet for whole fruits
- SmartFlow system mixes and holds juice when using more than 2 kinds of ingredients
- Higher juice yield (more than 80%)
- Stainless Steel housing
- BPA free material
- Powerful AC motor with Copper windings for powerful performance and longer operating hours
- Power: 250 W

Hafele ANALOG® Series

DOME : JADE AND OPAL

QUEEN

For the connoisseurs of coffee and herbal teas, Hafele brings to you its Analog Electric Kettles Series that not only looks impressive on your kitchen countertops but is also extremely quick and efficient.

Both Dome and Queen Kettle, under the Analog Series, come with a temperature display slot for you to ensure that the water boils at the precise temperature as per your liking.

DOME KETTLE

The Dome Kettle comes with a high capacity (1.7L) to heat water and is equipped with removable limescale filters for easy cleaning.

The Stainless Steel body, inner water level markings, non-drip spout and sleek handle make the Dome Kettles extremely easy to use and durable. It is available in two colour options – Jade (matt grey) and Opal (metallic red).

UK Strix Control Thermostat:

Equipped with the UK Strix Thermostat Control (the world's leading thermostat), Häfele's Analog collection of kettles with a concealed heating system provides you with precise temperature controls

LED Indicator Light with On/Off Switch:

The kettles come with an LED light switch which indicates if it has been turned on or not.

External water level indicator:

The external water level indicator on the kettles shows the water levels inside the kettle and thereby prompts you for a refill as and when required

Temperature Analog Display:

Afraid of overheating the water in the kettle? Stress no more with the temperature display integrated in our new kettles you can now keep a watch and easily achieve the desired water temperature

Boil-dry Protection:

This safety feature, integrated in the Dome and Queen Kettles, cuts-off the power when it senses that there is no water left in the kettle or that the water level is below the minimum level required (i.e. 0.7 L)

Detachable micro-mesh filter:

The detachable fine mesh filters found in the spout of the Dome & Queen Kettles restrain all pieces of limescale in the kettle from being poured into your drink

DOME KETTLE

- Volume: 1.7 L
- Power: 2150 W
- Food Grade Stainless Steel inner & outer body
- Analog temperature display
- UK Strix Control for precise heating
- Indicator light on switch
- Detachable Micro-mesh Filter
- External water gauge
- Automatic & manual switch off
- Boil-dry protection
- Colors: Opal (Metallic red) & Jade (Matt grey)

Article No: 535.43.542 (Jade)
535.43.540 (Opal)

- Volume: 1.6 L
- Power: 2150 W
- Double lining of Stainless Steel and Plastic
- Analog temperature display
- UK Strix Control for precise heating
- Indicator light on switch
- Detachable micro-mesh Filter
- External water gauge
- Automatic & manual switch off
- Boil-dry protection
- Color: Royal white with rose gold highlights

Article No: 535.43.541

QUEEN KETTLE

The Queen Kettle, with its royal white colour and rose gold accents, stands majestically with a capacity of 1.6 L serving more than eight drinks at a time.

The double-lined Stainless Steel and Plastic body, detachable micro-mesh filter, inner water level markings, non-drip spout, analog temperature display and an ergonomic handle make Queen an extremely easy to use and durable kettle.

Use the boiling water from our kettles to do all this and much more..

Brew herbal tea

Cook instant noodles & soups

Prepare ready to eat oats

Hafele AMBER® Series

2- SLOT TOASTER

4- SLOT TOASTER

What would breakfasts be without a crisp warm toast and a sunny side up? For many, a slice or two of toasted bread with jam and butter is a breakfast staple and for many, especially working professionals, owing to the weekday hustle pretty much the only source of food till lunch. It therefore becomes imperative to ensure that at least the quality and preparation of this toast is not just up to the mark but superior.

Hafele brings to you its Amber Electric Toaster Series which includes the 2-Slot and 4-Slot Toaster Machines.

AMBER COLLECTION

The new 2-Slot and 4-Slot Electric Toaster Machines come with 7 adjustable browning levels and enable you to not only prepare fresh crisp toasts but also to reheat the ones prepared previously. You can also defrost the freezer-stored bread in the new toasters.

The 2-Slot model from Hafele's Amber Series comes in two contemporary colours – Jade (matt grey) and Opal (metallic red) while the 4-Slot model is available in the Jade (matt grey) colour option.

Easy to Use:

3 push button functions to reheat, defrost and cancel.

Defrost Function: Defrost freezer-stored bread slices as well as toast them on the go.

Reheat Function: Cold toasts are no fun! Reheat cold toasts with just a press of the button.

Cancel Function: Changed your mind? The toasting process comes to a halt once the cancel button is pressed.

Adjustable Browning Control:

7 varied levels of browning for the perfectly toasted bread – allowing you to prepare toasts with the right degree of colour and crispness, just the way you like it

Wide slots:

Slots with a width of 3.5 cm to cater to your taste of thick home-baked breads, tortillas, bagels, donuts, sliced bread and so much more

Easy to Clean:

Easy-to-pull removable crumb tray feature aids in thorough cleaning inside and outside

Dual-control system:

Independent control systems for both the pair of slots (in the 4-Slot Electric Toaster Model) provide convenience of using either 2 or 4 slots at once.

Why just toast bread when you can do so much more?

Defrost tortillas

Toast multigrain handmade breads

Toast papads

Reheat doughnuts

Defrost waffles

Toast handmade breads

4-SLOT TOASTER

- Slots-4
- 3 function buttons: Re-heat / Stop / Defrost
- Dual-control system: Individual system for 2+2 Slots
- Adjustable browning setting: 7 levels
- Stainless Steel Housing
- Power: 1350-1600W
- Removable crumb tray

Article No: 535.43.154 Jade (Matt grey)

2- SLOT TOASTER

- Slots – 2
- 3 function buttons: Re-heat / Stop / Defrost
- Adjustable browning setting: 7 levels
- Stainless Steel Housing
- Power: 930W
- Removable crumb tray
- Colors: Opal (Metallic red) & Jade (Matt grey)

Article No: 535.43.551 Jade (Matt grey)

535.43.550 Opal (Metallic red)
