NAGOLD FREESTANDING DISHWASHER AQUA 12

'Nagold by Häfele' offers a series of home appliances that are custom-made to suit the requirements of the Indian market. These energy efficient dishwashers, with their advanced mechanism and enhanced technology, offer immense flexibility and convenience for washing cutlery items and are trained to remove the most rigid masala stains often left behind by aggressive Indian cooking. They are built to deliver a hygienic wash, eliminating 99.9% bacteria and germs.

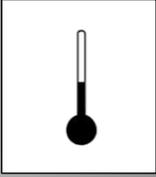

Nagold introduces a new freestanding dishwasher that fits smartly into your kitchen space and offers you a hassle-free recreational kitchen experience. This dishwasher offers flexibility to hold larger pots and pans and moreover comes with a unique Turbo Drying feature that offers the convenience of quick drying thereby reducing the overall dishwashing cycle. The contemporary silent washing technique embedded in the dishwasher ensures that your kitchen doesn't attract any unwanted attention. This dishwasher comes equipped with smart sensor technology that detects any perceived loss in water along with effective filtration system to circulate enough water.

You can now add the advantage of style and convenience to your kitchen with this new freestanding dishwasher and enjoy effortless cleaning. This communication takes you through the following topics:

FEATURES AND BENEFITS

The New Nagold Freestanding Dishwasher – AQUA 12 is feature packed and is built to specially suit the Indian kitchen environment.

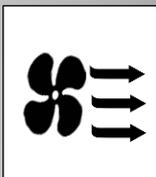

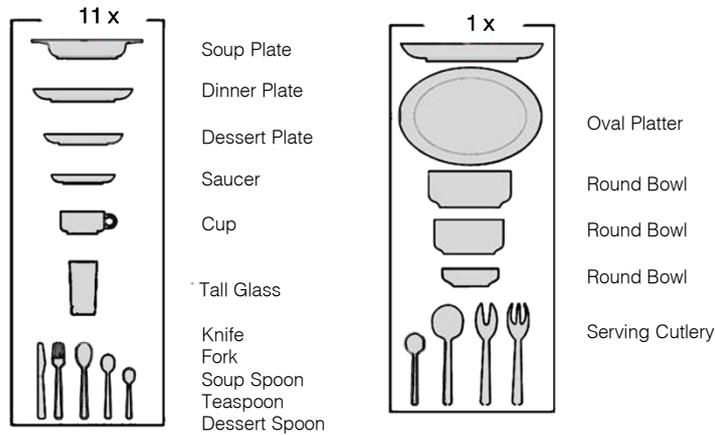

Sterilisation

The New Nagold Freestanding Dishwasher delivers a hygienic wash capable of eliminating 99.9% bacteria and germs. The high temperatures of the dishwasher help remove sticky residue, bacteria and germs.

High Capacity

This dishwasher can hold an impressive 12 place setting and is thus extremely apt for an average Indian family.

Turbo Drying

The new dishwasher comes with a unique Turbo Drying feature that provides nearly 30% faster drying compared to other dishwashers where the utensils normally dry using the residual heat contained in them after wash. The moisture, in that case, rains back down onto the utensils creating water spots and leaving the utensils wet.

On the other hand, the Turbo fan, in the new dishwasher, starts once the wash is complete, drawing in hot steam. The moisture is then removed completely even before it can cool and drip on the dishes, resulting in efficient drying for all utensils including plastics in a short span of time.

Sound Engineered

The sound reducing material, massive insulation, quality of components and the science of hydraulics integrated within the Nagold dishwasher ensures a silent washing.

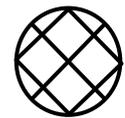

Half load

With the new Nagold dishwasher, you do not need to wait for the full load and can wash half the load with no restrictions of where to stack your dishes. This features helps save 20% water and 10% energy, perfect for smaller households.

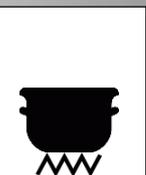

FEATURES AND BENEFITS

**Sensor for water load**

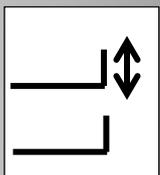

This dishwasher is equipped with a smart sensor that notices any perceived loss in water and immediately compensates it by ensuring optimal amount and circulation of water.

**Effective Filtration System**

Nagold's filtration system comes in three parts : Fine Filter, Micro Filter and Coarse Filter. These filters allow 15% more water to circulate through the system.

**Intensive Mode**

With the intensive mode on, the items in the lower rack are subjected to 20% more spray pressure at a higher temperature which is very useful for stubborn oily stains. The upper rack in the meanwhile is subjected to the programme selected by you.

**Height Adjustable Upper Basket**

The height of the upper basket can be adjusted at different levels, offering flexible stacking of different types and sizes of plates, glasses and other dishes, even when fully loaded.

**Leak-proof**

This Nagold Dishwasher comes with a 100% leak proof guarantee. If ever a leak occurs, the sensor shuts down the machine immediately.

9.5 – 10L

Low Water Consumption

The new dishwasher consumes as little as 12 litres of water per wash compared to 60 Litres of water if you wash the same load by hand.

**Child Lock**

The Nagold Dishwasher includes a child lock that prevents children from opening the door.

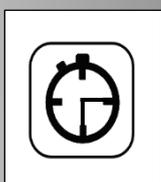

WASH PROGRAMS

Prewash

Suitable for removing the remnants on soiled dishes that will be kept waiting in the machine for a few days, and thus preventing the bad odour build up.

- > Wash time : 14 Minutes

Mini 30

Suitable for lightly soiled daily dishes that are scraped or pre - cleaned.

- > Degree of Soiling: Low
- > Wash Time: 30 Minutes
- > Drying Function: No
- > Power Consumption : 0.79 kWh

Intensive

Program is designed for medium soiled wash loads, such as pots, plates, glasses and lightly soiled pans.

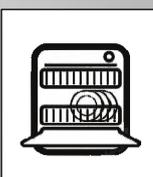

- > Degree of Soiling: High
- > Wash time: 115 mins
- > Drying Function : Yes
- > Power Consumption: 1.67 kWh

ECO

Most economical washing program for the medium soiled daily dishes that are kept waiting.

- > Degree of Soiling: Medium
- > Wash time: 185 mins
- > Drying Function: Yes
- > Power Consumption : 1.02 kWh

Normal

For lightly soiled loads that do not need excellent drying efficiency.

- > Degree of Soiling: Light
- > Wash time: 60 mins
- > Drying Function: Yes
- > Power Consumption : 1.02 kWh

- > Drying system: Yes
- > Type of inlet hose: Standard
- > Inlet hose length: 1500 mm
- > Outlet hose length (total length): 1600 mm
- > Outlet hose length (exposed length outside the machine): 1400 mm
- > Approvals : CE / TUV
- > Connected load (W): 1800 W
- > Voltage (v): 220-240
- > Frequency (HZ): 50
- > Product dimension (D×W×H): 598mm × 600mm × 850mm

IMPORTANT INFORMATION

How to cancel the washing program ?

To cancel a program while the machine is operating:

Press start/ stop button for 3 seconds. The machine will drain the water inside the machine for 45 seconds. The program is cancelled when washing light goes off. Then, you can choose and start a new program.

NOTE:

- > Avoid opening the door during the washing process. This interrupts the washing process and hot steam will escape. When the door is closed, the programme will continue.
- > Depending on the stage of the program you have cancelled, there may be detergent residue or rinse aid inside the machine and on the load. Make sure the items in the dishwasher are not used before washing properly.
- > Use the On / Off button to turn the machine off. When the progress indicator light "programme end" lights up, the programme is complete.
- > Close the water tap. Pull out the plug.
- > Allow your dishes to cool for 15 minutes, with the door open. Unload the dishes. Begin with the lower basket.

INTERNAL COMPARISON

Program	Serene FI 02	Serene SI 02	Aqua 12
Intensive*	180 mins	180 mins	130 mins**
Normal*	165 mins	165 mins	74 mins**
Eco	175 mins	175 mins	185 mins
1 Hour Express	60 mins	60 mins	60 mins
Rapid / Mini 30' Wash	40 mins	40 mins	30 mins
Drying	Residual Drying	Residual Drying	Turbo Drying
Pre-wash	Integrated with Program	Integrated with program	14 mins

NOTE:

* The program time for Aqua 12 is less due to the turbo drying and also owing to less load.

** The time includes the pre-wash time
