Hafele Reassuring Expertise

Hafele appliances characterizes – **“The way of life”** of the 100,000 Indian household families we have been associated with so far. Hafele products plays a major role in transforming the way customers perform their daily household chores from cooking to cleaning. Our endeavour is to bring sheer joy of cooking and that is why we thoughtfully design our products to stand on the values of Innovation, Design, Functionality and Trust. Hafele appliances have always been on the forefront in terms of launching products with cutting edge technology. **The innovative product lines**, conceived and conceptualized, by Hafele bring ease to the day to day life of the user and enhance lifestyles. Hafele

products are designed with an eye to detailing and add more value and joy to the lives of customers. **The product designs** are practical and are very contemporary in terms of all aesthetic aspects. It is our endeavour to enhance the user experiences with our highly **functional products**. We have **garnered the trust of all partners** associated with Hafele, which is the key motivation for us to deliver finest quality products backed up by strong and sustainable business environment.

REFRIGERATION AND COOLING APPLIANCES

EXCELLENT PERFORMANCE IN LARGE CAPACITY AND DUAL FUNCTIONALITY

Pave way for a smart and healthy lifestyle with the new Professional Freestanding Refrigerators by Hafele. These high specification Professional Freestanding Refrigerators boast of higher capacity, premium cooling technology and inverter compressor especially designed for Indian kitchens.

The Professional Freestanding Refrigerators available with French Door MultiZone Refrigerator (ARG650NF) are packed with incredible features which retain the maximum quality of your food and beverages.

The ARG650NF and comes with a 100 L MultiZone compartment which can be used alternatively as a freezer and fridge depending on your storage requirements. The Fresco Zone Plus drawer in these refrigerators provides the suitable environment for your fruits and vegetables maintaining their quality for a longer time.

The tropicalized climate rating of the compressor makes the refrigerators apt for the Indian climatic variations, the inverter compressor works in line with the outside temperature and smart sensors maintaining the internal conditions of the refrigerator as you have set them! Treat yourself and your food to special care with these new elegant, intelligent and contemporary Professional Freestanding Refrigerators by Hafele!

BAKING APPLIANCES

FOR THE PERFECTIONIST!

Hafele's range of built-in ovens are multifunctional and offer you a host of contemporary cooking options; making your cooking experience recreational and fun! As compared to traditional cooking, oven cooking is done with less oil and spices and the original flavours and complete nutrients of the food are retained. You can thus taste and consume food at its absolute best.

Baking in an oven is also easier as you don't have to supervise your dishes intermittently like the traditional cooking on gas stoves requires you to do. Just prep the food, set the oven at the desired temperature, clock in the timer and relax till the food is ready to be served.

INTUITIVE DISPLAY

The oven comes with a convenient and easy to operate controls. With one touch you can choose the desired function and with the big display screen, you can see your selection of function and temperature

LOW E GLASS PANES FOR HIGH HEAT EFFICIENCY

The Low-E (low emissivity) coatings keep the temperature inside the oven consistent by reflecting the interior temperatures back inside the cavity. These are the new age technology for enhancing the heat efficiency in the large cooking appliances using heating elements.

INTEGRATED DESIGN

The oven can be installed with matching diamond microwave that can seamlessly gel with your kitchen design and surrounding cabinetry.

ROTISSERIE FUNCTION

This is a specially designed function to give you the best roasting and grilling result for a wholesome meal. This function ensures that the grilling is done from all the sides of the dish.

SMART COOK FUNCTION

The one touch functions on the display panel gives you the ease and flexibility to choose a suitable program for your style of cooking. The electronic control gives you the most precise temperature setting for a wholesome meal.

COOKING APPLIANCES

VORTEX BURNER HOBS

Hafele introduces you to a unique design in built-in hobs that is extremely suitable for Indian cooking patterns. The insulated black glass body and elegant metallic knobs - make way for a strikingly smart hob that fits seamlessly into your kitchen worktop. Hafele now presents to you the efficiency of the traditional wood-fire Indian cooking along with the convenience of modern technology through its range.

UNLOCK THE INDIAN COOKING CODE

Indian cooking is like a painting – there are as many flavours on an Indian platter as there are colours on a canvas. Each cuisine fuses together with unique recipes, traditional spices and the individual touch of the cooking artist. This makes every Indian dish different from the other and the cooking treatment demands the same diversity.

It is this unique combination of diversity and complexity of Indian Cooking that forms the Inspiration for Hafele's Vortex Series Hobs. Through this range, we have decoded the science of Indian cooking and introduced the most ideal cooking equipment that can support, enhance and inspire the culinary art of India!

The quintessential Indian currys and tadkas are done best on the wok (known as kadai) and are most enjoyed with the flat Indian Chapatis which are done on a flat Indian pan (called tawa). Very often the conventional hob flames either support the rounded bottom of a kadai (wok) or else spread out flat under a pan – there are no burners in the market today that can adapt to the type of cooking vessel that is placed on them.

In order to handle such varied patterns of Indian cooking, our Vortex Series Hobs are engineered with special burners whose flames adapt to a wok by centring maximum heat at the rounded portion of the wok to allow for seamless blending of the spices and seasoning in the oil. Alternately the same flame adjusts effortlessly under a flat pan used for making chapatis, offering ideal heat distribution to the base of the pan. It is this unique feature that makes the Vortex Series Hobs a fitting range for Indian Cooking.

... So let's dive into the many facets of this cooking miracle that will change the face of Indian cooking!

VERTEX FLAME

The direct injection of fuel and air results in a high power burner with a well-balanced flame for efficient cooking. This is possible with a vertex flame design by creating 440 identical flame holes punched in a 30° angle to deflect the flame to rise vertically, aiding in even distribution of the heat across the entire surface of the cooking vessel. This not only delivers perfectly executed recipes, but also offers the most optimum cooking experience.

The Vortex Series Hobs are very high in efficiency. They consume 12% less fuel compared to any regular brass burner of equivalent power output, due to their vertical flame that completely eliminates the heat loss from the sides of the burners when pots are placed. For the big vortex burners, the gas consumption per hour is 306gms as compared to standard brass burners that consume 347gms per hour. This is a great saver of energy and cooking fuel.

THE FLAME MODULATION

The Vortex Series Hobs wok burner is designed to take care of high heating to low searing cooking. You can independently regulate the inner and outer flame to achieve more precision of temperature during cooking!

BEVELED GLASS EDGES

The beveled edges makes your installation flushed and more minimalistic. The matt beveling gives the hob a defined look and enhances the overall aesthetics of the hob.

FLAME DRAPE EFFECT!

Vortex Series Hobs are designed to give you the most balanced flame. The web of this distinct flame creates a drape effect, where the flame rises vertically and drapes itself around any type of cooking vessel; quite akin to a piece of cloth that seamlessly covers objects of varying shapes. This significantly reduces unnecessary heat transfer outside the cooking zone whether a flat pan or a round pot is placed. The flame-drape effect results in overall heating efficiency and enhanced performance of the burner.

The burners are also designed to control any turbulence in the flame that generally results in high levels of heat loss and reduces the efficiency of the burners due to high consumption of the fuel.

During the ignition cycle, the burners infuse maximum air (oxygen) and pre-mix the fuel to give out a pure blue flame.

PAN SUPPORTS WITH HEAT PROTECTOR

Due to the high power burner the heat dissipation during long hours of cooking causes the surrounding exposed surfaces like knobs and glasses to heat up. To avoid this kind of unwanted heating of exposed surfaces around the burners, Hafele has exclusively designed the pan support with heat barriers.

EASE OF CLEANING & MAINTENANCE

Cleaning of the burners is a breeze.

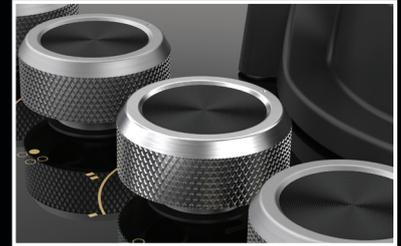

The burner is easy to assemble and clean. In case of spillage and pore blocking, you just need to soak the burner!

PREMIUM METAL KNOBS

Gun-metal finish, defined and grooved edges gives the knob a distinct signature aesthetics.

The knobs are designed for a better grip and easy maintenance and cleaning.

AIR CHANNELS FOR EFFICIENT MIXING OF OXYGEN AND GAS:

The Vortex Series Hobs are designed to control the turbulence in the flame that causes heat loss and reduces the efficiency of the burners resulting in high consumption of the fuel. During the ignition cycle, the burners infuse maximum air (oxygen) and pre-mix the fuel to give out a pure blue flame.

SAFE AND SECURED OPERATIONS:

All Vortex Series Hobs come with a Flame Failure Safety Device (FFSD) that gets activated the moment the flame accidentally goes off. It automatically cuts off the gas supply to the burners, thus, preventing any instance of fire accidents due to gas leakage. The result – your kitchen and home is safe from any kind of gas leakage accidents.

EASY BURNER ASSEMBLY

The Vortex Series Hobs come with integrated Locking Slots that facilitate easy assembly and removal of burners during cleaning cycles.

INDUCTION HOBS

ELENA 60
60 cm Induction Hob
Article No.: 538.01.491

BELLA 30
30 cm Domino Induction Hob
Article No.: 538.01.481

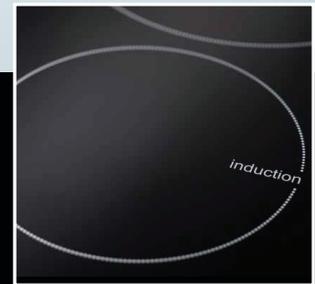

Safe Cooking

The Induction Hobs from Hafele Appliances are built with extra safety features that enable you to cook with ease. There are no open flames and it's only your pot that is heated up while cooking. If there's no contact with a pot, the heating stops automatically. The small object safety feature ensures that the hob will not be activated by any other extraneous object - such as a tea spoon that might have accidentally been dropped on the hob.

Quick & Easy Cleaning

Since the vitroceramic surface doesn't heat up, overspilled food won't burn on the hob, which makes it easy to clean.

Safety, efficiency and cleanliness

This is the latest and most efficient cooking technology available. Induction hobs heat up only when there's a pot on the vitroceramic surface, while the rest of it gets barely warm.

When the pot is placed on the induction zone, this magnetic field transfers heat directly to the cooking pan. The only result is a rapid increase in food temperature that can be precisely regulated.

BUILT-IN DOMINOS

Made of high quality stainless steel these cooking appliances fit snugly into your kitchen counter top providing the elegance of style along with the much desired variations in cooking. The integrated front knob allows you to regulate your cooking or barbequing. As always, this range of Hafele Appliances comes with the latest market technologies - the deep fryer is equipped with an oil temperature lamp set by a thermostat and the barbeque boasts of a removable enameled griddle and lava stone. So add these futuristic trends of modern cooking to your range and enjoy the true bliss of entertaining your guests with finger-licking delicacies - let your kitchen be the envy of every eye!

KITCHEN COUNTERTOP APPLIANCES

Modern

Time Saving

DO YOU LOVE COOKING BUT HATE THE TEDIOUS PREPPING ACTIVITIES THAT PRECEDE IT?

WELL, YOU'RE NOT ALONE!

The recreational experience of cooking your favourite delicacies is often spoiled due to all the time and effort spent in mundane pre-cooking activities like chopping, grinding, grating or blending. Hafele introduces, for the very first time, a professional range of small countertop appliances that makes prepping fun while giving you more time to enjoy what you like doing the most – cooking your favourite dishes or experimenting with new ones!

As an extension to our comprehensive offering of cooking appliances from the Hafele Appliances Range, Hafele's countertop appliances come in modern designs, attractive colours and long-lasting, sturdy materials; coupled with superior functions that will make your pre-cooking tasks a breeze. These handy appliances are super easy to use, provide accurate prepping results and can make even the most boring tasks in the kitchen, fun!

Ergonomical

Chic

KLARA HIGHLINE SERIES

The Hafele Highline Series brings to you the first ever electronic kitchen machine that every Indian Kitchen needs today.

With the KLARA HIGHLINE® Kitchen Machines you can enjoy the most advanced design and functionality that will make your regular cooking task a breeze.

KLARA HIGHLINE - MURPHY RED

KLARA HIGHLINE - GOTHIC GREY

Dough Kneading Function:

The precise kneading movement results in soft doughs (which are similar to hand-kneaded doughs) for fluffy breads or soft chapattis.

Whipping / Whisker Function:

The planetary movement allows consistent whisking results that are professional even for a large portion of servings. It is Ideal for whipping egg whites or cream which are often used in cakes and desserts.

Beater Function:

The precise configuration of the beater helps mix batters at a constant speed and at a regular pace resulting in providing a homogeneous texture; highly desired for dosa or steamed cake batters.

KLARA HIGHLINE PRO

Vegetable Slicing, Chopping, Grating and Mashing Function:

The various blade configurations provide flexibility in chopping vegetables in even shapes and sizes (unlike hand-chopped vegetables which may be uneven) and that too in a fraction of the time you would have spent doing the same.

Meat Mincing Function:

Enjoy the benefits of the heavy duty metal mincer for precise meat mincing.

Mixer and Grinder Function:

As a unique feature the Kitchen Machine also doubles up as a mixer, giving you all required functions in one machine.

Use the wet mixer to quickly blend that ideal smoothie, shake or puree or use the small dry grinder to grind spices, pulverize sugar, shred coconut and much more!

HAFELE PROBLEND[®] SERIES

OKTABLEND VACUUM PROFESSIONAL BLENDER

The Oktablend Vacuum Blender laden with VacuoTechnology helps remove, with the push of a button, the air and oxygen responsible for oxidation of food and the subsequent depletion of the micro nutrients to enhance the shelf life and nutrient content of the blended food.

With this technology the nutrient level of your food is maintained and the food can be stored for a longer time when compared to traditional blending.

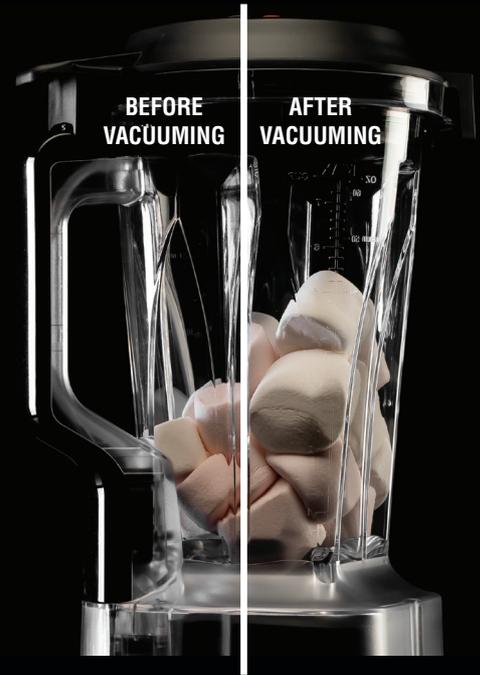

- VacuoTechnology: 80Pa Pressure of Vacuum that helps to take out maximum air
- High speed blending of upto 30,000 RPM
- AdapTech display: 8 preset one touch Functions + time, temperature and speed display
- 2L octagonal jar design to assist wholesome blending in minimal time
- Full touch operation and large adaptive display
- 3D blade assembly that is perfect for blending
- Commercial AC motor with copper winding for powerful performance and longer hours of operation
- Power: 2200 W

Article No: 535.43.270

THE VACUOTECHNOLOGY

The high pressure vacuum helps remove air and oxygen during blending which are responsible for oxidation of food/drinks as well as the subsequent depletion of the micro-nutrients thereby enhancing the shelf life and the nutrient content of the blended food.

ADAPTECH CONTROL

Hafele's OktaBlend blender introduces the smartest control in Vacuum Blending.

The inbuilt AdapTech Control and Display of Oktablend Vacuum Blender with the 8 pre-set functions gives you a host of options to select from, while promptly displaying the real-time temperature inside the blending jar.

The easy-to-use joystick knob manoeuvres through the programs and makes it a breeze to operate the machine.

HAFELE COPRESS[®] SERIES

MAGNUS COLD PRESSED JUICER

Magnus Cold Pressed Juicer by Hafele is designed to work at a much slower pace as compared to your regular juicer. It is hence able to extract fruit and vegetable juices without applying heat, the absence of which helps retain maximum number of nutrients, vitamins and enzymes, and prevents oxidation.

The Magnus ensures that it extracts more than 80% of the juice from fruits and vegetables put into the juicer.

- Slow and gentle rotation of 35 RPM
- Big 83 MM Ø inlet for whole fruits
- SmartFlow System - mixes and holds juice when using more than 2 kinds of ingredients
- Higher juice yield (Upto 80% more)
- Stainless steel housing
- BPA Free material
- Powerful AC motor with Copper windings – for powerful performance and longer operating hours
- Power: 250 W

Article No: 535.43.530

MagnaFeed Inlet:

83mm diameter of the inlet tube helps take in whole fruits like big apple, pear, oranges, etc. without hassles of cutting them .

SmartFlow System:

This system allows to mix and hold juice to get 100% mixed juice result when using more than one fruit / vegetable. Smart Cap controls the flow of the juice while pouring it out.

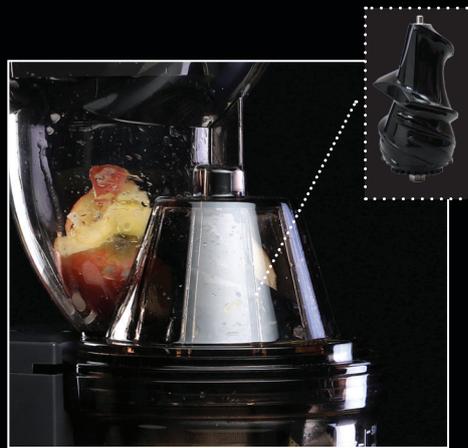

Less Waste, More Juice:

The residual juice that remains in the pulp waste is merely 20%. This means you can now get maximum juice output with Hafele's Cold Pressed Juicer.

Single Button Operation:

The hands-free "ON" button is used for continuous juicing. Use "REVERSE (REV)" button to clear out the MagnaFeed in case ingredients get stuck in the cavity.

Gentle & Slow Squeezing:

The auger made by FDA PMMA alloy, known for its strength and hardness rotates at a slow speed of 35 RPM to provide you with a taste closest to the original flavours of the fruits and vegetable without generating any heat in the process.

Safety Locks:

Multiple safety locks ensures that the machine works only when all the parts are connected properly.

FOOD ENGINEERING OF COLD PRESSED JUICE

It is a process that enables the user to maintain all the original properties of fruit and vegetables, without applying heat. Since no heat is applied throughout the entire process, the user can retain the largest number of nutrients, vitamins and enzymes of the fruits and vegetables maximising their nutritional value and preventing their oxidation.

With this technology you can experiment and combine various ingredients to achieve combinations that can provide instant energy or a much needed detox or those that can accelerate your metabolism to aid weight management - the options are endless, try the ones that best adapt to your lifestyle.

HAFELE ANALOG[®] SERIES

DOME KETTLE

The Dome Kettle comes with a high capacity (1.7L) to heat water and is equipped with removable limescale filters for easy cleaning.

The Stainless Steel body, inner water level markings, non-drip spout and sleek handle make the Dome Kettles extremely easy to use and durable. It is available in two colour options – Jade (matt grey) and Opal (metallic red).

QUEEN KETTLE

The Queen Kettle, with its royal white colour and rose gold accents, stands majestically with a capacity of 1.6 L serving more than eight drinks at a time.

The double-lined Stainless Steel and Plastic body, detachable micro-mesh filter, inner water level markings, non-drip spout, analog temperature display and an ergonomic handle make Queen an extremely easy to use and durable kettle.

HAFELE AMBER[®] SERIES

AMBER COLLECTION

The new 2-Slot and 4-Slot Electric Toaster Machines come with 7 adjustable browning levels and enable you to not only prepare fresh crisp toasts but also to reheat the ones prepared previously. You can also defrost the freezer-stored bread in the new toasters.

The 2-Slot model from Hafele's Amber Series comes in two contemporary colours – Jade (matt grey) and Opal (metallic red) while the 4-Slot model is available in the Jade (matt grey) colour option.

DISH-WASHING APPLIANCES

GET USED TO MORE **HYGIENE** AND **ENHANCED CONVENIENCE**

With an advanced mechanism and improved technology, Hafele Appliances dishwashers are trained to remove even the most rigid masala stains often left behind by aggressive Indian cooking. They are sensitive to different vessel materials and minimize the risk of breakages in a given cleaning cycle; and the child-lock feature makes these appliances child-proof when left unattended. These appliances come with a dual zone feature which allows you to place sensitive crockery.

Water Consumption : 10.5L
Power 0.7kWh
Time of wash : 95 mins

LAUNDRY CARE

WASHER DRYER COMBO WITH ANTIALLERGENIC & STAIN SELECTION PROGRAM

After an advanced wash, if clothes are left to dry in the open they are again susceptible to catching infection from the surroundings. This completely defeats the purpose of having a technology-packed washing machine. Hafele offers you the combined advantage of washing and drying results in one machine. **Hafele's Washer Dryer Combo** comes with easy load options and smart programs giving you maximum flexibility for your laundry even with different kinds of clothes like cotton, wool, synthetic as well as delicate fabrics like silk and satin. You also get the freedom from draining water from the condenser box after every wash. Hafele's washer dryer combo is one of the most efficient combo machines with the condenser drying technology giving you maximum flexibility to choose time or energy saving programs.

WASHER DRYER COMBO

Get Completely Dry Clothes Within Little Time!

Hafele washer dryer combo is one of the most efficient combo machines with condenser drying technology giving you the maximum flexibility to choose time or energy saving programs. Choose the 30% faster time saving program to dry 6 kgs of laundry

Multiple Drying Levels

From jeans to woollens, now get 100% drying options with three levels of drying.

Stain Level Selection

You can change your wash settings according to the laundry dirt levels. The stain level can be automatically set depending on how dirty is your laundry.

Super-Wide Door

320 mm wide door opening for easy loading & unloading of clothes.

Quick Program

Special program is optimised to wash lightly soiled garments in just 33 minutes.

Special Wool Program

Provides extra care for your hand wash only labelled wools with gentler mechanical movements and a warmer rinsing cycle.

Enjoy Allergen Free Cleaning!

The specially developed antiallergenic program targets to provide antiallergenic laundry for your sensitive skin. You can get maximum hygienic cleansing results by the help of additional drum movements and sensitive temperature control.

LEAVE THE “STAIN FIGHT” TO THE EXPERTS!

DRYING OPTIONS

The CORAL Plus Washer dryer has a condenser drying technology which results in fast and efficient drying of clothes. There are 4 intensities or modes of drying that can be used when using a drying program.

Extra Dry

Activate this model for up to a 100% dry clothes that can be worn immediately after wash. This is an intensive drying mode that will ensure minimal or no dampness in the clothes so that they can be worn or stacked immediately after wash.

Normal Dry

The normal drying mode is for the clothes that does not require intensive heat to dry like synthetics, polyester and satin. These clothes can be dried using this mode.

Iron Dry

This mode is designed for the clothes that you wish to iron after washing or for clothes and fabrics that need very gentle care like woolen and silk clothes. This mode is not harsh at all to harm the delicate clothes even during tumble drying.

Gentle dry / Refresh Mode

This is a refresh mode, where you would like to refresh the clothes for sometime. This mode will activate gentle tumbling action with minimal heat.
