HOTEL ASSORTMENT

ONE ROOM ONE SPACE

Introduction

Dear Readers,

Häfele has pioneered the way interior fittings are sold across the globe for many years now. Being a German company, our foremost concern has always been to offer our customers, premium quality products at competitive prices paired with solution based services. Our strength lies in offering a holistic range of solutions for any given interior space and yet provide the much-needed focus to understand, appreciate and furnish the dynamic demands from different customer segments. As a result of this, we present to you an exclusive range of interior solutions for our Hospitality customers under Häfele's Hotel Assortment, enabling you to execute the most ideal settings within hotel rooms and other areas. Through this range we bring to you the best technology and state-of-the-art functionality for every area of a hotel room – from the main entrance, bathroom, wardrobe to the main living area – as well as solutions for other hotel areas like the lobbies, banquet halls and restaurants.

The Häfele hotel assortment makes it possible for design concepts to be consistently implemented down to the tiniest detail. Consistent designs and finishes - from the entrance door to the bathroom accessories can be adapted to the individual design concept. The hotel room is therefore presented as a stylistic unit in every respect. At the same time, the integrated Häfele hotel assortment provides more efficiency and transparency in the procurement process by means of delivery from a single source. And because the entire assortment is available worldwide, country and continent encompassing hotel concepts can be implemented quickly and without problems at any time.

The Häfele hotel assortment consists of a wide range of fitting solutions all of which can be orchestrated into an overall room impression. For Hotel room main doors, we offer you our globally reigning range of secured and easy-to-use access control solutions - Dialock. For bathroom and wardrobe doors, our range of Sliding solutions under the SLIDO brand, present versatile options with the smoothest sliding operations and highest standards of quality. Within Bathrooms, Hafele's range of bathroom fittings including faucets, showers, shower cubicle hinges etc. provide perfect harmony in design and quality.

One aspect that brings the ideal balance to a hotel room is the overall lighting within the interiors of the room. Here, Häfele specializes in planning and executing the most perfect light settings for Hotel rooms with its range of furniture lighting solutions under the LOOX brand. The range includes every option from built-in cabinet lighting to sensor controlled plinth lighting and even light-integrated mirrors for hotel bathrooms. Loox5, the fifth generation of Hafele's Lighting solutions now introduces aesthetically engineered linear profiles with integrated strip lighting that can be recessed into different furniture units like wardrobe doors or cabinet insides and lend the most harmonious light effects to the overall furniture design.

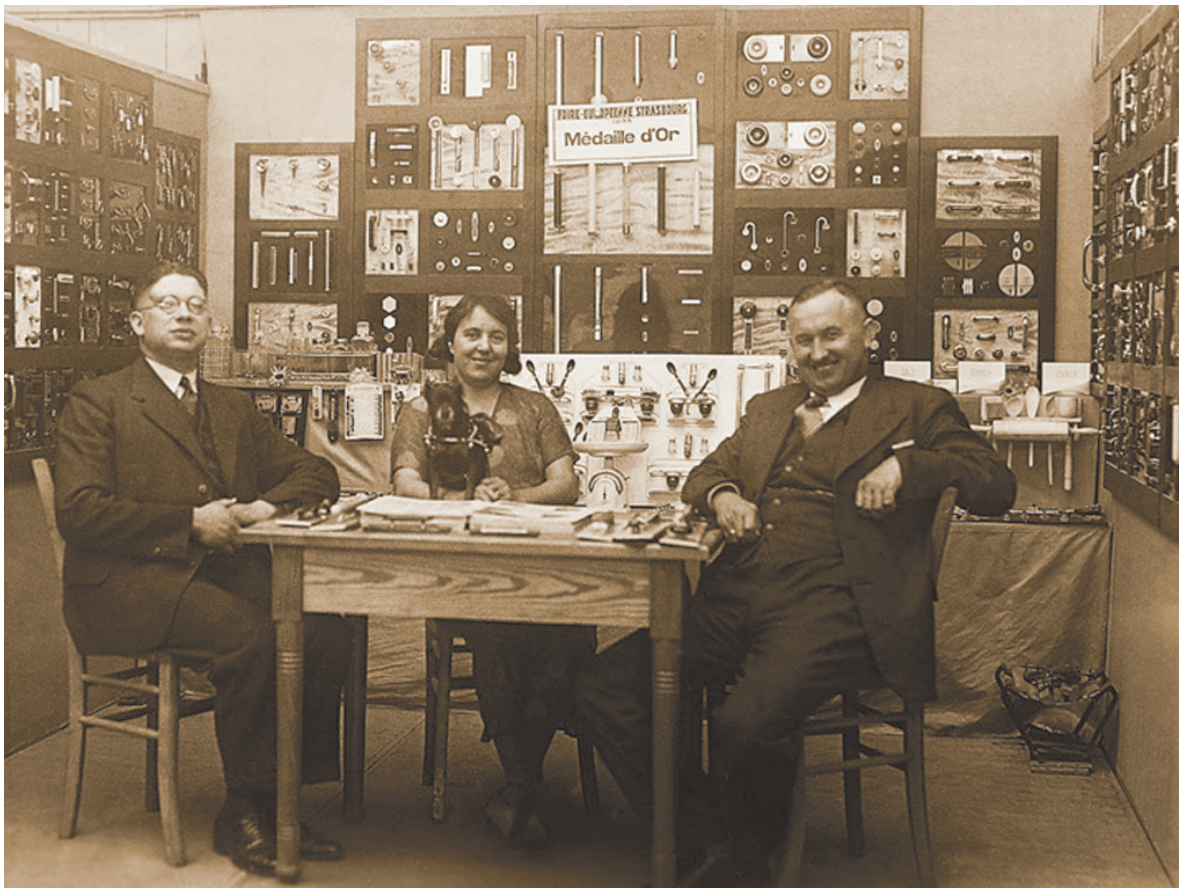
With these interior fittings for hotel rooms, Häfele's Hotel Assortment also offers interior surfaces to execute the best renditions of bar counter tops in hotel restaurants or wall-claddings across hotel lobbies etc. Our two brands, Caesarstone (Israel) and Dekton (Spain) are world leaders in quartz and porcelain surfaces respectively, and offer immense flexibility in creating different applications within hotels.

Häfele looks after customers from the project area with its own team of specialists. You can fall back on the practical experience of our experts from specifying products and planning to tendering and operation in order to safeguard your investment in the best possible way. Moreover, our optimised logistics increase your cost-effectiveness in the material supply area. We walk along with you for the entire duration of your project to provide assistance in finding a solution to all your challenges.

So, go through this detailed product guide and get in touch with us with your specific needs. We look forward to partnering with you and assisting you in every which way possible.

Jürgen Wolf
Managing Director
(Häfele South Asia)

Hafele
Reassuring Expertise



"For over 9 decades, we've been helping people make more of their homes.

Established in Germany, and now operating worldwide, we specialise in the fittings, hardware and systems that improve the way your home, works. So when you choose our products as part of your new or reformed home, you know you're getting the benefit of extensive knowledge and decades of experience.

And we're still a family business, owned and managed by family members who really care about the products and service we provide. You can rely on our commitment to the highest standards of quality and reliability, founded on a long tradition of German engineering where attention to detail is second nature.

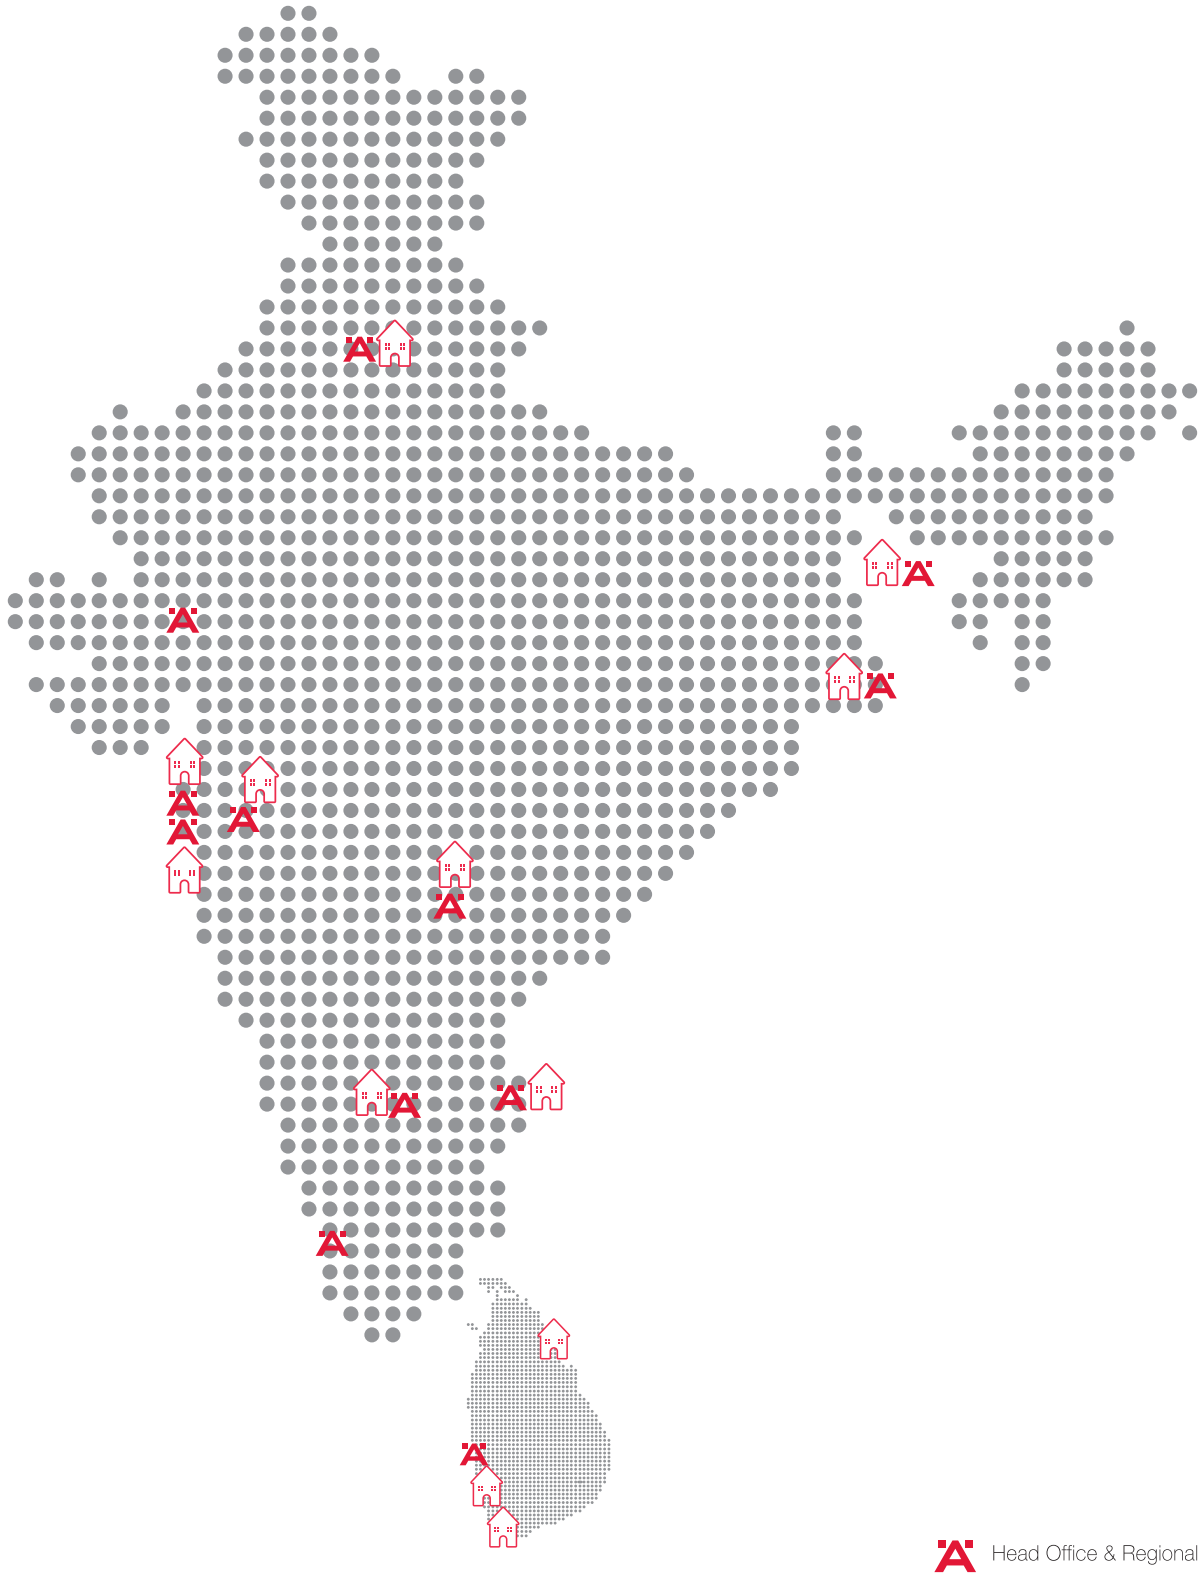
All our home improvement ideas are built to last – day in, day out – we want you to get the very best from every corner of your home, for many years to come."

Hafele Worldwide

With its origin in 1923 in a small town named 'Nagold' from the Swabian region of Germany that nurses a passion for hardware technology, it is no surprise that Häfele has lived up to its roots through a successful presence in the architectural and furniture hardware industry for over 9 decades now. Today, Hafele's worldwide penetration includes 38 subsidiaries across Europe, America, Asia, Australia and New Zealand. With these subsidiaries and numerous other sales organisations, Häfele operates in over 150 countries. The Häfele headquarters, 4 manufacturing units and 10 sales offices are located within Germany; while 1 manufacturing unit is located at Budapest, Hungary. The company also owns one of the largest and most sophisticated warehouses in its home country. The Häfele worldwide workforce is empowered by a base of over 8100 employees.

The group services over 150,000 customers across the globe through its extensive range of hardware products and a comprehensive logistics system. In addition to this, Häfele also provides consultative services to its customers, educating and advising them about buying the correct hardware as per their requirements. With this level of market penetration and ability to handle worldwide demand, it comes as no surprise that the company is an authority in the segment of home interior solutions; what is pleasantly surprising, though, is that in spite of its size, Häfele still remains a family owned and run business with a unique, friendly and value-centric work culture which is strongly followed among all its subsidiaries.

Hafele India



Head Office & Regional Offices

Hafele Design Showrooms

Häfele India is a wholly-owned subsidiary of the Häfele Global network and has been operating in India since 2003 under the leadership of Mr. Jürgen Wolf (Managing Director). The ability of the company to understand the diverse Indian market has made it an authority in the field of architectural hardware, furniture and kitchen fittings and accessories. The company also has a strong presence in synergized product categories namely Home Appliances, Furniture Lighting, Sanitary and Surfaces catering to the focused demand from these industries.

The subsidiary has a strong nation-wide presence with offices in Mumbai, Pune, Ahmedabad, Bangalore, Chennai, Hyderabad, Delhi, Kolkata and Cochin. It has full-scale operations in Sri Lanka and Bangladesh with Regional offices and Design Showrooms in both the countries; and has also spread its operations to other regions of South Asia including Nepal, Bhutan and Maldives.

Häfele's design showrooms are hubs of international home interior trends and cutting edge designs presented in a world-class environment, where customers can see home solutions in their inherent applications. These showrooms function as a one-stop-shop for all home interior and improvement needs - from providing in-depth technical advice to kitchen and wardrobe designing services through a team of experts stationed at the showroom.

Häfele India services its customers with a base of over 1300 employees, a well-networked Franchise base of over 130 shops along with over 1000 dealers situated across South Asia. The subsidiary has a sophisticated Logistics centre in Mumbai along with distribution centres in Delhi, Bangalore, Kolkata and Colombo respectively.

ONE ROOM.

The Häfele hotel assortment makes it possible for design concepts to be consistently implemented down to the tiniest detail.
Consistent designs and finishes. From the entrance door to the bathroom accessory. Adapted to the individual design concept. The hotel room is therefore presented as a stylistic unit in every respect, i.e. an atmospherically rounded whole. At the same time, the integrated Häfele hotel assortment provides more efficiency and transparency in the procurement process by means of delivery from a single source. And: Because the entire assortment is available worldwide, country and continent-encompassing hotel concepts can be implemented quickly and without problems at any time.

ONE PARTNER.

1 / Häfele hotel assortment

ONE STYLE.

Interior design in the hotel is not an end in itself, but an important marketing instrument. The signature of the designer enhances the brand profile, and is becoming increasingly important to guests when they are deciding where to stay. At the same time, operators and investors are subject to cost-effectiveness and functionality demands, and have to reconcile the design requirements with the financial framework conditions. Häfele is making it possible to fulfil both requirements to the same extent with the hotel assortment.

ONE FACE.

ONE LOOK. ALL AREAS.

Unity in the variety.

The perception of a room is not oriented to product categories. It has a uniform and essentially subliminal effect. The Häfele hotel assortment therefore consists of a wide range of fitting solutions, but also functional furnishing accessories, all of which can be orchestrated into an overall room impression. In all zones and areas. Rather than having a multitude of equipment details with differing origin, a coordinated range of products which enhances the harmonious impression of the room awaits the guest – and makes the procurement process much easier at the same time.

360° COMPREHENSIVE HOTEL SOLUTIONS.

Many tasks. One partner. Häfele.

ONE PARTNER.

ONE STYLE.

Häfele looks after customers from the project area with its own team of specialists. You can fall back on the practical experience of our experts from specifying products and planning to tendering and operation in order to safeguard your investment in the best possible way. Manufacturer-independent consulting and optimised logistics increase your cost-effectiveness in the material supply area. Your contact partner from Häfele is there for you to provide assistance in finding a solution to your challenges.

SMARTPHONE KEY.

That's how hotels work today: Simply open the door with your smartphone.

Häfele is providing you with trendsetting technology with Dialock. Instead of handing a room key to your guests only when they arrive at the hotel, the smartphone key makes arrival much more convenient. The guest receives access to the hotel and his room via app. No more queues when checking in and out. The guests satisfaction increases. And you also relieve the strain on your staff at reception.

Smartphone key: Convincingly easy.

Your guests receive the key code on their app before arrival. That way, the smartphone becomes the room key. Häfele establishes secure communication between the digital room key and the Dialock electronic access control system using the latest Bluetooth® technology. The door opens.

Additional services: Perfect for you and your guests.

Book a room via the app any time anywhere, check in easily, pay and check out again without having to go to reception. Häfele's cooperation partners make it possible. They integrate other customized functions into the app, such as sales-promoting offers from your hotel or individual tips for the destination of the trip.

Different generations of hotel room keys. Key / transponder / smartphone.

ADVANTAGES

- More convenience when arriving at the hotel: The guest receives their key code on their smartphone via app.
- The smartphone functions as a room key and simply communicates with the Dialock electronic access control system to open the hotel room door.
- High degree of security when opening the door thanks to the latest Bluetooth® technology.
- Book your hotel room via the app.

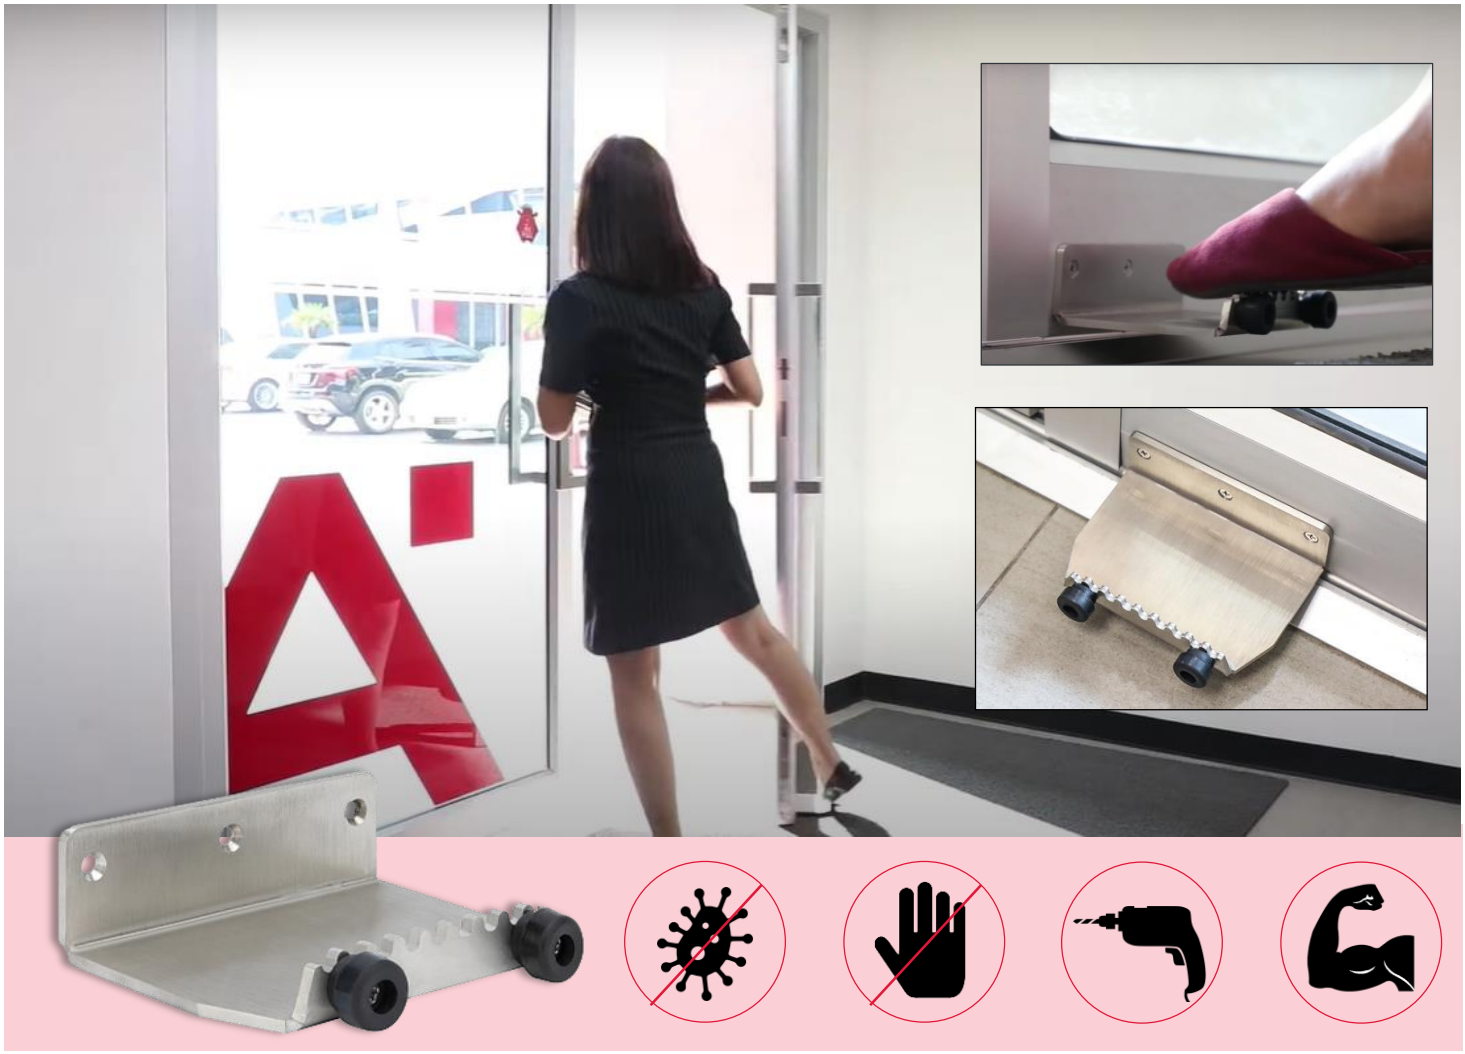
FOOT PANEL PLATE | 987.53.600

Häfele's Foot Panel Plate provides the users with a germ-free, touch-less way of exiting a premise / room. Mounted towards the bottom of the door, this foot plate offers an option to the users of pulling the door open with their foot instead of a door handle.



FEATURES

- For use on doors that are frequently operated
- Enables touch-less door operations
- Prevents spread of germs
- Made from extremely durable Stainless Steel 304
- Minimum installation height from floor: 5 mm
- Maximum door load capacity: 50 kg
- Suitable for installation on timber, steel and aluminum framed doors
- For use with single swing doors or doors installed with deadbolt lock
- Hassle-free installation

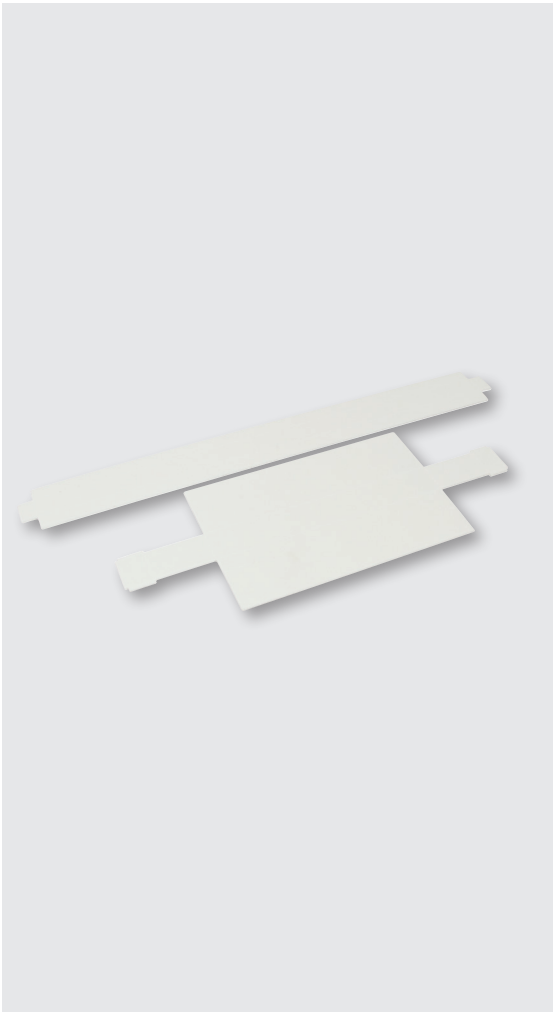
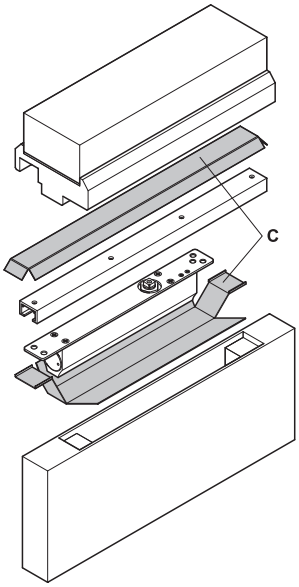
Intumescent fire protection kit for Häfele Startec DCL door closers



For overhead door closer, concealed

DCL 33, fire resistance 60 min	950.11.123
DCL 34, fire resistance 30 min	950.11.124



C = intumescent fire protection kit for DCL concealed door closers

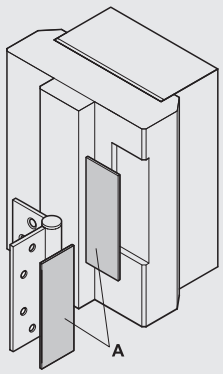
- Function: The material expands substantially when exposed to hot temperatures to protect door closers, provides fire resistance of up to 60 minutes and replaces intumescent wood putty or paste
- Material thickness: 2 mm

Note

The installation must comply with specifications and testing must have been carried out in accordance with EN 1634 in order to guarantee the fire resisting properties of the door. The applicable national and international guidelines, standards, approvals and other relevant regulations with regard to smoke control and fire resistance also have to be taken into consideration. Insulation against heat transfer is provided as soon as the intumescent material is activated.
Concealed, hydraulic door closers must not be fitted to fire resistant doors without appropriate protection measures being taken. This is because:

- **During installation it is required to cut away a large portion of the door which immediately reduces fire resistance.**
- **Many models contain flammable hydraulic oil.**
- **They are made from materials which are very good heat conductors.**
- **The aluminium housings are likely to melt in intense heat leading to breach.**
- **They take up much of the available door leaf thickness.**

Intumescent fire protection kit for door hinges



A = intumescent fire protection kit for door hinges

- Function: The material expands substantially when exposed to hot temperatures to protect door hinges, provides fire resistance of up to 60 minutes and replaces intumescent wood putty or paste

959.00.042

Brass, polished

959.00.048

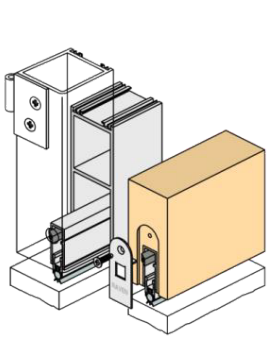
Brass, black

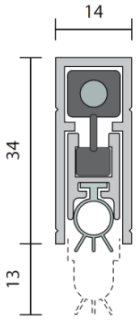
959.00.121

- Version: Fire protection tested for 60 min
- Vision: 200°
- For door thickness: 35–60 mm
- Drill hole q: 14 mm
- With cover on the inside

Door Seals

EN1634



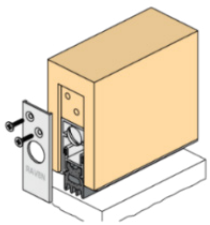


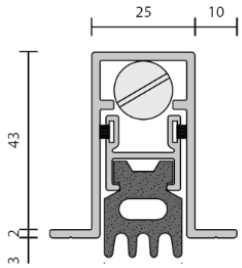
Automatic Door Bottom Seal
Concealed seal for swing doors

- Finish: Satin aluminium (durable anodised finish)
- Sealmaterial: Silicon rubber (self extinguishing)
- Withstands temperatures as high as 200˚C
- Approvals: Acoustic, Fire & Smoke, Energy FRL & FRR /240/60 and FD240
- Globally certified product
- Testingcycle: Tested to over 1,000,000 operating cycles
- Application: Fully Mortised on single and double butt hinged door
- Ideal for residential and light commercial applications

PVC, brown	
Seal Size 600 mm, cut to size 380 mm	950.06.305
Seal Size 820 mm, cut to size 600 mm	950.06.304
Seal Size 920 mm, cut to size 820 mm	950.06.301
Seal Size 1070 mm, cut to size 920 mm	950.06.302
Seal Size 1220 mm, cut to size 1070 mm	950.06.303

Door Seals





Reversible Acoustic Door Bottom Seal
Fully mortise reversible seal

- Finish: Satin clear (durable anodised finish)
- Seal material: Silicon rubber and aluminium (self extinguishing)
- Silicon rubber with stands temperatures as high as200˚C. Air-craftquality aluminium
- Approvals: Acoustic, Fire & Smoke, Energy FRL & FRR -/240/60 and FD240
- Globally certified product
- Testing cycle: Tested to over1,000,000 operating cycles
- Application: Fully Mortised on single and double butt hinged door,
- minimum door thickness 45mm
- Ideal for butt hinged doors with large gaps, where internal access-ramps are used and large clearances are necessary

PVC, brown	
Seal Size 920 mm, cut to size 610 mm	950.49.701
Seal Size 1070 mm, cut to size 920 mm	950.49.702

Smoke control and acoustic seal

PVC, brown

Width 12 mm, length 1000 mm	950.11.131
Width 12 mm, length 4200 mm	950.06.323

- Area of application: For wooden doors, for sealing the air gap between the edges of door leaves and frames
- **Smoke control and acoustic seal**
- Sound proofing value: 31 dB
- Smoke up to 200 °C
- Installation: Self-adhesive

Fire seal

Sodium silicate, dark brown

Width 10 mm, fire resistance 30 min	950.11.031
Width 10 mm, fire resistance 60 min	950.06.601

- Area of application: For wooden doors, for sealing the air gap between the edges of door leaves and frames
- **Fire seal only**
- Version: The material expands substantially when exposed to hot temperatures
- Length: As required
- Installation: Self-adhesive

Note

The installation must comply with specifications and testing must have been carried out in accordance with EN 1634 in order to guarantee the fire resisting properties of the door. The applicable national and international guidelines, standards, approvals and other relevant regulations with regard to smoke control and fire resistance also have to be taken into consideration.
Insulation against heat transfer is provided as soon as the intumescent material is activated.

Concealed, hydraulic door closers must not be fitted to fire resistant doors without appropriate protection measures being taken. This is because:

- **During installation it is required to cut away a large portion of the door which immediately reduces fire resistance.**
- **Many models contain flammable hydraulic oil.**
- **They are made from materials which are very good heat conductors.**
- **The aluminium housings are likely to melt in intense heat leading to breach.**
- **They take up much of the available door leaf thickness.**

Keypad Lock with Motorised Latch

- Material : Zinc Alloy
- Finish : Satin Nickel
- Door Thickness : 17 – 22 mm
- Interface : Keypad Operation
- Body Orientation : Standard Body With Pull Handle
- Additional Protection : Tamper guard
- Indicators : Visual & Audible usage indicators
- Installation : Recessed or Surface Mounted
- Power : 4 premium AA batteries
- Battery Life : 3-5 year battery life
- Warranty : 2 years
- Ratings : IP 55
- Application: Most suited for Spa's and Fitness centre

Keypad Lock	
Motorised Latch Mechanism	231.98.110

Sola Key Managed Cam Lever Lock

- Material : Zinc Alloy
- Finish : Satin Nickel
- Door Thickness : 10– 19 mm
- Interface : Keypad Operation
- Body Orientation : Vertical Body
- Cam Operation : 90˚ (Top, Bottom, Left or Right)
- Additional Protection : Tamper guard
- Indicators : Visual & Audible usage indicators
- Installation : Surface Mounted
- Power : 2 Premium AA A batteries
- Battery Life : 3-5 year battery life
- Warranty : 2 years
- Ratings : IP 55

Key Managed Lock	
Cam Lever Mechanism	231.98.100

- Material : Zinc Alloy
- Finish : Satin Nickel
- Door Thickness : 10– 19 mm
- Interface : Keypad Operation
- Body Orientation : Vertical Body
- Cam Operation : 90˚ (Top, Bottom, Left or Right)
- Additional Protection : Tamper guard
- Indicators : Visual & Audible usage indicators
- Installation : Surface Mounted
- Power : 2 Premium AA A batteries
- Battery Life : 3-5 year battery life
- Warranty : 2 years
- Ratings : IP 55

Shower door hinge, for wall-glass connection

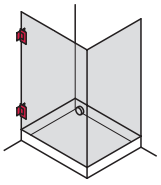
Brass,
chrome plated polished

981.51.004

Brass, graphite black,
PVD coated

981.51.003

The clear, geometric design creates emphasis in the bathroom



- For glass thickness: 8-12 mm
- Glass dimensions: Door width max. 800 mm, door height max. 2400 mm
- Dimensions: Hinge: 90 x 55 mm
  Screw-on plate 90 x 50 mm
- Load bearing capacity: Max. 45 kg
  (with use of 2 shower door hinges)
- Mounting: For DIN left and DIN right hand use
- Opening angle: 90°
  on both sides with locking mechanism in open position
- Lock function: From an opening angle of approx. 85°
- Installation: For screw fixing, glass cut-out required

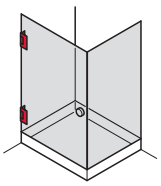
Brass,
chrome plated polished

981.02.081

Brass, graphite black,
PVD coated

981.02.083

The clear, geometric design creates emphasis in the bathroom



- For glass thickness: 8-12 mm
- Glass dimensions: Door width max. 800 mm, door height max. 2400 mm
- Dimensions: Hinge: 90 x 55 mm
  Screw-on plate 90 x 50 mm
- Load bearing capacity: Max. 45 kg
  (with use of 2 shower door hinges)
- Mounting: For DIN left and DIN right hand use
- Opening angle: 90°
  on both sides with locking mechanism in open position
- Lock function: From an opening angle of approx. 85°
- Installation: For screw fixing, glass cut-out required

Glass holder for wall-glass connection

Brass,
chrome plated polished

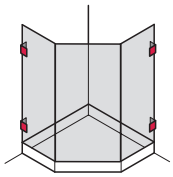
981.02.254

Brass, graphite black,
PVD coated

981.02.253

The clear, geometric design creates emphasis in the bathroom

- For glass thickness: 8-12 mm
- Dimensions: 45 x 45 mm
- Angle: 90°
- Mounting: For left and right hand use
- Installation: For screw fixing, glass cut-out required



Concealed wall mounting

Brass,
chrome plated polished

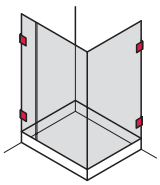
981.02.263

Brass, graphite black,
PVD coated

981.02.243

The clear, geometric design creates emphasis in the bathroom

- For glass thickness: 8-12 mm
- Dimensions: 45 x 45 mm
- Angle: 90°
- Mounting: For left and right hand use
- Installation: For screw fixing, glass cut-out required



Shower door hinge, for glass-glass connection

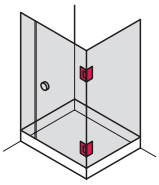
Brass, chrome plated polished, 90° glass front

981.51.014

Brass, graphite black, PVD coated, 90° glass front

981.51.013

The clear, geometric design creates emphasis in the bathroom



- For glass thickness: 8-12 mm
- Glass dimensions: Door width max. 800 mm, door height max. 2400 mm
- Dimensions: 90 x 55 mm
- Load bearing capacity: Max. 45 kg (with use of 2 shower door hinges)
- Mounting: For DIN left and DIN right hand use
- Opening angle: 90° on both sides with locking mechanism in open position
- Lock function: From an opening angle of approx. 85°
- Installation: For screw fixing, glass cut-out required

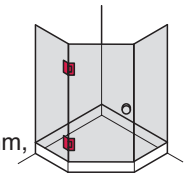
Brass, chrome plated polished, 135° glass front

981.51.021

Brass, graphite black, PVD coated, 135° glass front

981.51.023

The clear, geometric design creates emphasis in the bathroom



- For glass thickness: 8-12 mm
- Glass dimensions: Door width max. 800 mm, door height max. 2400 mm
- Dimensions: 90 x 55 mm
- Load bearing capacity: Max. 45 kg (with use of 2 shower door hinges)
- Mounting: For DIN left and DIN right hand use
- Opening angle: 90° on both sides with locking mechanism in open position
- Lock function: From an opening angle of approx. 85°

> Version:
  For sealing of 2-leaf shower doors, with magnet for holding in closed position
> Length: 2.4 m, can be shortened as required
> Installation: For sliding onto glass edge

Note: 90° and 180° magnetic seal are same, during installation, one seal is kept ideal and other is rotated, to match the need.

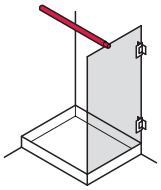
Stabilising rod for shower walls, 90°

Brass, chrome plated polished

981.02.061

Brass, graphite black, PVD coated

981.02.063



- For glass thickness: 8-12 mm
- Length: 1050 mm
- q: Rod 20 mm, end cap: 28 mm
- Installation: For screw fixing (wall)/ clipping on (glass)

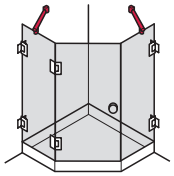
Stabilising rod for shower walls, 45°

Brass, chrome plated polished

981.02.071

Brass, graphite black, PVD coated

981.02.073

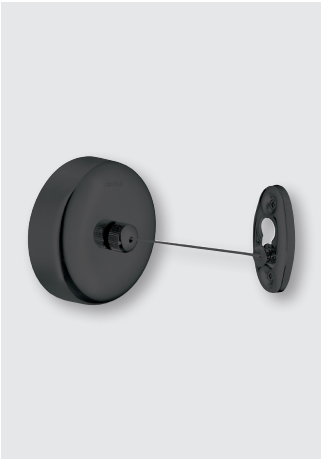


- For glass thickness: 8-12 mm
- Length: 400 mm
- q: Rod 20 mm, end cap: 28 mm
- Installation: For screw fixing (wall)/ clipping on (glass)

Clothes line

Polished stainless steel

980.60.951



Stainless steel, graphite black, PVD coated

980.60.953

All-metal, therefore extremely robust and durable; space-saving, disappears completely into housing after use

- Version: Pull-out steel wire which can be tensioned towards receiver
- Extension length: 2.5 m
- Dimensions: Housing q 91 x 57 mm, receiver 65 x 35 x 9 mm

Length 450 mm, self-adhesive	808.90.391
Length 600 mm, for screw fixing	808.90.384

- Version: One set consists of 6 protection rails
- Dimensions: 13 x 7 mm

Luggage stand

Polished stainless steel

983.25.091

- Version: Collapsible with elastic straps for luggage rack
- Dimensions: 660 x 620 x 440 mm (in open position)

Hotel safe

Hotel safe	
Steel, black	836.24.350
Data transfer unit (optional)	836.24.980

- Version: Motorised electronic numerical combination lock (PIN code 3-6 digits), opens upwards, with LED display, the last 100 openings can be read out via the display
- Dimensions and weight: External dimensions 400 x 145 x 350 mm, internal dimensions 395 x 75 x 345 mm, weight 15 kg
- Material thickness: Housing 2 mm, door 6 mm
- Emergency opening: Using master PIN or emergency opening key

Supplied with:
1 hotel safe, 4 alkaline AA batteries, mounting accessories

Mini bar, volume 42 litres

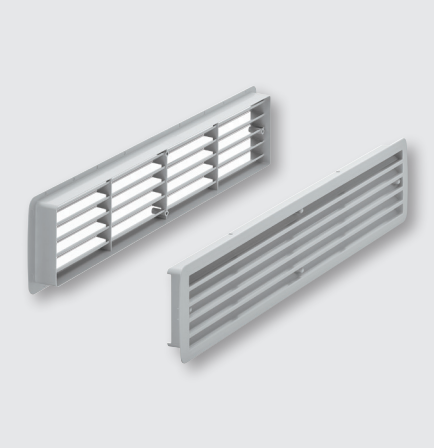
Peltier technology

- Dimensions: H 508 x W 420 x D 425 mm
- Version: 2 tiers, receptacle for 1.5 l bottles and LED interior lighting
- Operating noise: 38 dB
- Peltier technology: Cooling compared to room temperature 20 °C ΔT max. 6.5–15 °C
- Nominal voltage: 110–120 V or 220–240 V, 50–60 Hz
- Wattage: 50 W
- Energy efficiency class: B
- Energy consumption: 109 kWh/annum
- Weight: 9.4 kg
- Installation: Without front panel

Black

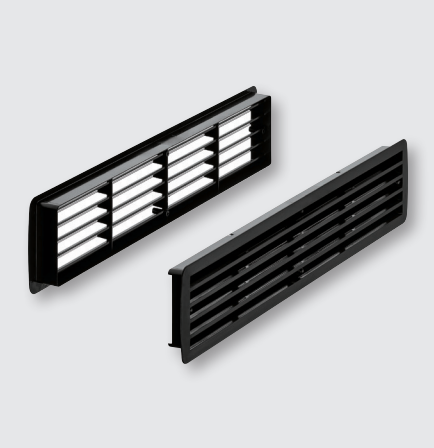
Schuko safety plug
Nominal voltage: 220–240 V, 50–60 Hz
US plug
568.27.257

Ventilation grill



Plastic, light grey

959.10.005



Plastic, black

959.10.006

- Version: Two-piece, with frame, louvre type concealed ventilation slots
- Dimensions: 457 x 92 mm
- Cut-out: 433 x 77 mm
- For door thickness: 35–40 mm
- Ventilation: 200 cm²
- Installation: For recess mounting

Installation reference for mini bars

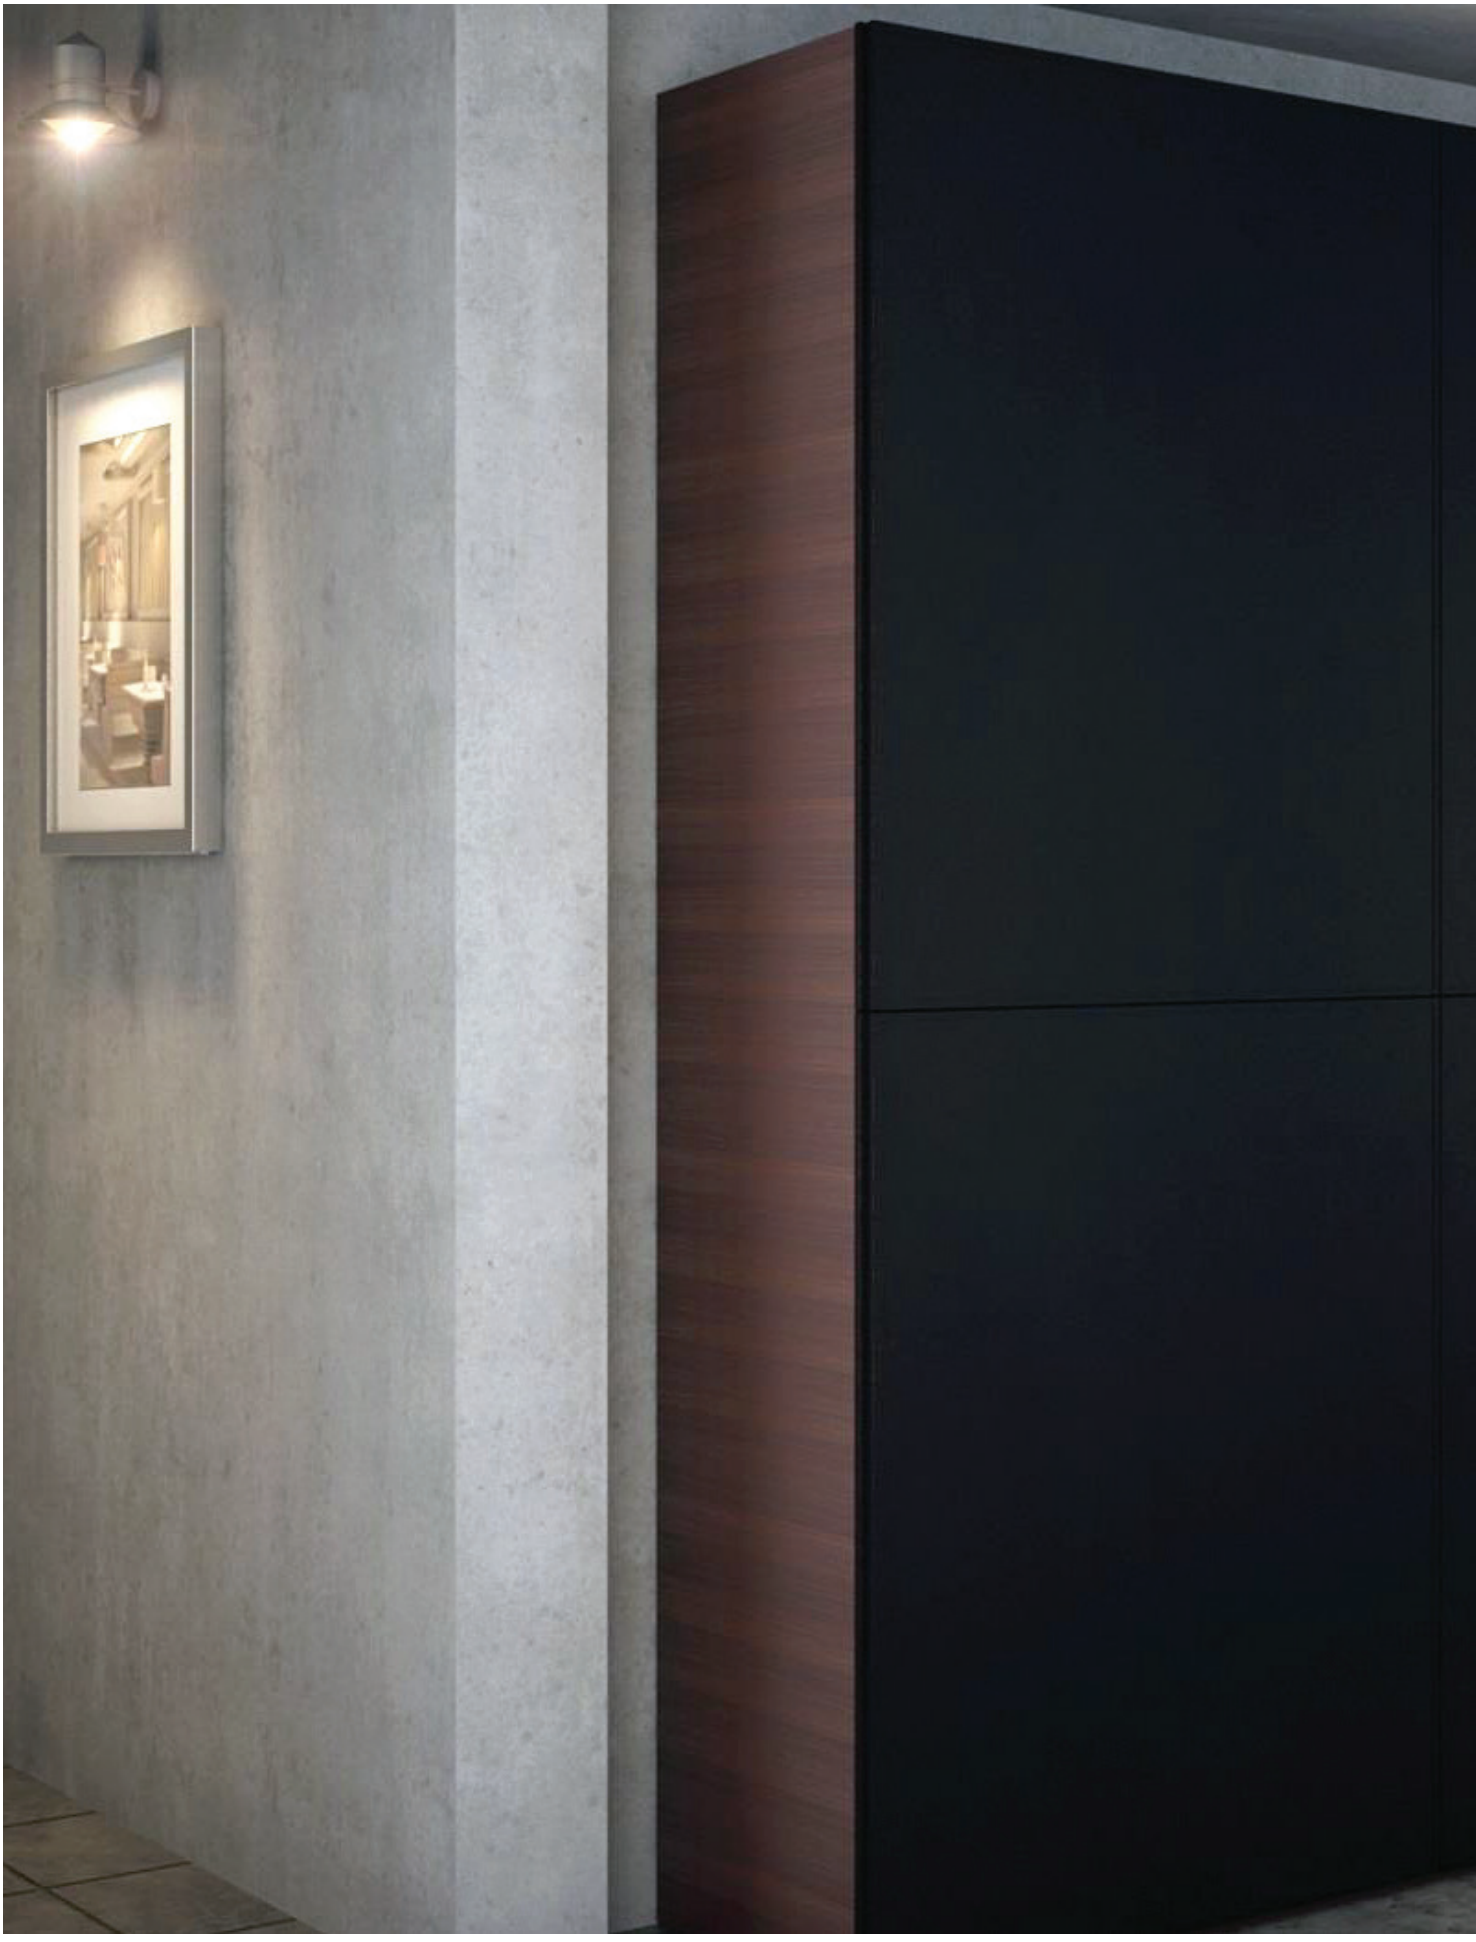
- At least 200 cm² fan cross-section for air supply and ventilation
- 20 mm distance from rear of refrigerator to furniture
- Direct connection from absorber device to ventilation duct

Connecting fitting for appliance doors

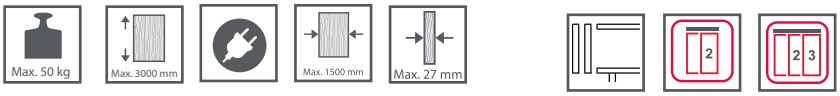
Plastic, brown

568.16.007

- Area of application: For connecting the mini bar door with a pre-mounted furniture door
- Installation: For screw fixing



Classic 50 VF S (ST - 18)



Vorfront sliding system for wooden wardrobe and furniture doors.

400.51.125

For 2 Doors - Sliding door kit consists of:

- 2 Running Gears with Ball Bearing
- 1 Running Gear for Inner Door
- 1 Running Gear with Pins
- 2 End Stoppers
- 2 Bottom Guides for Inner Door
- 2 Bottom Guides Adjustable
- 4 Clips for Guide
- 2 End Stops
- 2 Support Blocks
- Central Stop

Hardware Specification:

- Smooth and effortless sliding doors
- Easy installation
- Suitable for 2 door and 3 door applications

400.51.129

For 3 Doors - Sliding door kit consists of:

- 2 Running Gears with Ball Bearing
- 2 Running Gears for Inner Door
- 2 Running Gears with Pins
- 2 End Stoppers
- 4 Bottom Guides for Inner Door
- 2 Bottom Guides Adjustable
- 6 Clips for Guide
- 2 End Stops
- 2 Support Blocks
- 1 Central Stop

Product Name	Article No.	L mm
Silver anodized aluminium top track (Note: Track to be ordered separately)	400.52.026	2500 mm
	400.52.036	3500 mm
Silver anodized aluminium bottom track (Note: Track to be ordered separately)	400.52.954	2500 mm
	400.52.955	3500 mm

Classic IF 50

Infront sliding system for wooden wardrobe and furniture doors

Hardware Specification:

- Bottom running rollers for smooth and effortless movement
- The pre-drilled holes are oblong in shape to provide for adjustability and alignment of panels
- The top and bottom (common) tracks are extruded anodized Aluminium profiles for smooth movement of the roller
- Very easy to install and ensures running stability for bottom running sliding

Complete accessories set for 1 door
404.24.000
Sliding door kit consists of:

- 2 Runners
- 2 Bottom Guides
- 2 End Stoppers

Product Name	Article No.	L mm

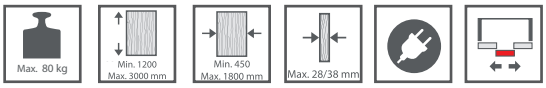
Classic DUO 80 VF



(Vorfront) sliding system for wooden wardrobe and furniture doors.

Hardware Specification :

- High load capacity up to 80 kg
- More than one adjustment
- Door thickness 28mm & 38mm
- Anti derailing system inside the lower slide
- Provides easy way to mount heavy doors onto the furniture with just a clack
- Adjustment: +3mm/-3mm (vertical adjustment)
- Soft Closing: opening and closing

Product Name	Article No.	L mm
Silver anodized aluminium top track (Note: Track to be ordered separately)	409.36.606	3000 mm
	409.36.604	3600 mm
Silver anodized aluminium bottom track (Note: Track to be ordered separately)	400.50.936	3000 mm
	400.50.804	3600 mm
Kit straightener (optional)	400.50.011	

Classic DUO 80 VF

409.36.112
For Door Thickness of 28 mm
External door kit consists of:
- 2 Steel Adjustable Upper Slide
- 2 Steel Lower Slide with Wheel and O-Ring
- 1 Right Plastic Adjustable Upper Lock
- 1 Left Plastic Adjustable Upper Lock
- 1 Plastic Upper Central Lock.
- 2 Plastic Lower Lock
- 1 Rounded Socket Key with 4 mm Hexagonal Ends

409.36.110
- For Door Thickness of 38 mm
- External door kit consists of:
- 2 Steel Adjustable Upper Slide
- 2 Steel Lower Slide with Wheel and O-Ring
- 1 Right Plastic Adjustable Upper Lock
- 1 Left Plastic Adjustable Upper Lock
- 1 Plastic Upper Central Lock.
- 2 Plastic Lower Lock
- 1 Rounded Socket Key with 4 mm Hexagonal Ends

409.36.111
Internal door kit consists of:
- 2 Steel Adjustable Upper Slide
- 2 Steel Lower Slide with Wheel and O-Ring
- 1 Right Plastic Adjustable Upper Lock
- 1 Left Plastic Adjustable Upper Lock
- 1 Plastic Upper Central Lock.
- 2 Plastic Lower Lock
- 1 Rounded Socket Key with 4 mm Hexagonal Ends

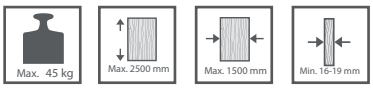
SOFTSPACE Device For External & Internal Door (Note: Available in the kit)

Only for 3 Door Application

409.36.050
For Door Thickness of 28 mm
External Central Double Side Soft Close door kit consists of:
- 2 Steel Adjustable Upper Slide
- 2 Steel Lower Slide with Wheel and O-Ring
- 1 Right Plastic Adjustable Upper Lock
- 1 Left Plastic Adjustable Upper Lock
- 1 Plastic Upper Central Lock.
- 2 Plastic Lower Lock
- 1 Rounded Socket Key with 4 mm Hexagonal Ends
- 1 Central Double Side Soft Close
- 1 Soft Close

409.36.051
For Door Thickness of 38 mm
External Central Double Side Soft Close door kit consists of:
- 2 Steel Adjustable Upper Slide
- 2 Steel Lower Slide with Wheel and O-Ring
- 1 Right Plastic Adjustable Upper Lock
- 1 Left Plastic Adjustable Upper Lock
- 1 Plastic Upper Central Lock.
- 2 Plastic Lower Lock
- 1 Rounded Socket Key with 4 mm Hexagonal Ends
- 1 Central Double Side Soft Close
- 1 Soft Close

Classic IF 45



Straight sliding system for wooden wardrobe and furniture doors.

Hardware Specification:

- Vertical adjustment mechanism which enable adjustment up to 6 mm
- For doors with thickness of 16 and 19 mm
- Rolling system with ball bearing wheels
- For single or double guide applications

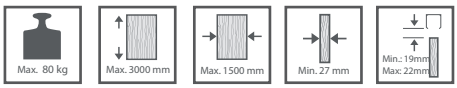
Product Name	Article No.	L mm
Silver anodized aluminium top single track (Note: Track to be ordered separately)	405.21.603	3000 mm
Silver anodized aluminium top double track (Note: Track to be ordered separately)	405.21.613	3000 mm
Brake stop (Note: Brake stop to be ordered separately)	405.21.300	-

405.21.100

Sliding door kit consists of:

- 2 Rollers with Bracket
- 1 Bottom Guide

Classic 80 W



Straight sliding system for wooden doors.

Hardware Specification:

- Ideal for dividers and internal doors
- An elegantly designed top quality system
- Concealed lower guide
- Roller comes with an elastic system for absorbing the irregularities of profile (If any)
- High quality Zamak aluminium body
- Proven smooth and silent rolling, thanks to our special anti dust ball bearing system
- Rollers for long lasting rolling durability

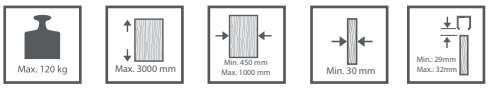
Product Name	Article No.	L mm
Aluminium anodized top track (Note: Track to be ordered separately)	409.50.602	2100 mm
Aluminium anodized top track (Note: Track to be ordered separately)	941.27.432	3000 mm

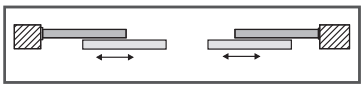
409.79.020

Sliding door kit consists of:

- 2 Rollers with Bracket
- 1 Bottom Guide
- 2 Adjustable Stoppers and other fittings

Classic 120 S





Straight synchro sliding system for wooden doors.

Hardware Specification:

- Synchro system for simultaneous opening of both the doors
- Solid rollers made of high quality Zamak one piece die casting
- High tech hanger made of high quality Zamak alloy with solid structure and discrete design

941.10.035

- Sliding door kit consists of:
- 4 Rollers with Bracket
- 2 Bottom Guides
- 2 Pulley Door Profiles
- 2 Cable Brackets
- 8 m Steel Cable
- 2 Stoppers and other fittings

Product Name	Article No.	L mm
Aluminium anodized top track (Note: Track to be ordered separately)	941.10.915	1524 mm
	941.10.918	1828 mm
	941.10.921	2134 mm
	941.10.924	2438 mm

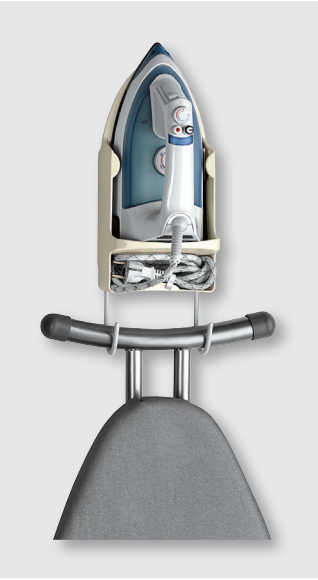
  locking, fully pre-mounted

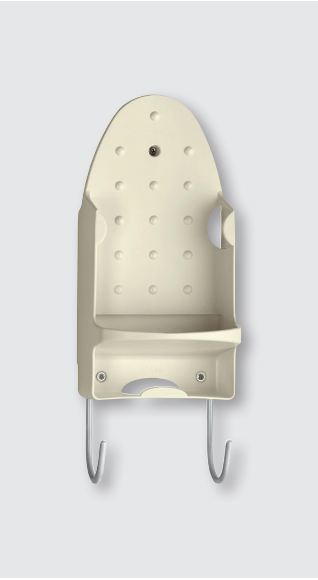
Covering hood, for Häfele Ironfix wall mounted ironing board

Plastic, white

568.66.790

Ironing board, incl. supports for ironing board and iron





Ironing board incl. support

983.25.089

- Version: Collapsible ironing board
  (silver coloured cover)
  incl. holder, an iron can also be placed in the holder
  (iron not included in scope of delivery)
- Dimensions: Ironing board area 1220 x 340 mm
- Installation: For screw fixing, e.g. in a cabinet

Häfele Duoletto Built-in foldaway bed

- Area of application: Usable as individual bed or bunk bed (2 fitting sets)
- Version: Foldaway bed with frame and slatted frame, including anti-tilt facility and retaining straps / brackets for bedding and mattress
- Weight of bed: 55–85 kg, gas-filled struts make it possible to conveniently fold the bed in and out
- For mattress size: 900 x 2000 mm
- Load bearing capacity: 100 kg
- Installation: Variable and freely selectable installation height when used as single bed

Built-in foldaway bed	
Without mattress	271.89.000
With mattress	271.89.005

Häfele Teleletto II Foldaway bed fitting for sofa bed

Quick change from sofa to bed;
extra large lying area

- Area of application: Built-in foldaway bed and sofa
- Version: Built-in foldaway bed with bed frame, slatted frame, sofa frame and angular feet, including anti-tilt facility and retaining straps / brackets for bedding and mattress
- Weight of bed: 74-110 kg, gas-filled struts make it possible to conveniently fold the bed in and out
- For mattress size: 1400 x 2000 mm
- Sofa dimensions: 2057 x 700 mm
- Load bearing capacity: 100 kg
- Installation: Variable and freely selectable installation height when used as single bed
- 7 zone mattress version: Cover removable and washable at 60°, suitable for allergy sufferers,
- 1400 x 2000 mm, lying comfort provided by dimensional stability, high point stability,
- Provides optimum spinal support and good ventilation, open pored foam structure with moisture transport, firmness rating H3 – body weight up to 90 kg

Häfele Teleletto II

Foldaway bed fitting for sofa bed without mattress	271.89.020
Replacement gas-filled strut for Teleletto II foldaway bed fitting for sofa bed	271.99.186
7-zone mattress with cold foam core	271.67.204

Kettle

- Volume: 1.7 L
- Power: 2150 W
- Food Grade Stainless Steel inner & outer body
- Analog temperature display
- UK Strix Control for precise heating
- Indicator light on switch
- Detachable Micro-mesh Filter
- External water gauge
- Automatic & manual switch off
- Boil-dry protection
- Colors: Opal (Metallic red) & Jade (Matt grey)

DOME KETTLE

Pedal BINS

- Soft closure and super-light pedal operation
- Odour-proof closure
- Easy to clean with a removable inner bucket
- Non-slip base protects the floor and keeps the bin steady
- Cradle to cradle certified
- Made up of 40% high-grade recycled materials and after use, 98% of the bin and packaging is recyclable
- Colour Options: Stainless Steel (Anti-Fingerprint), Platinum, Passion Red and White
- Material: Pre-coated Stainless Steel Grade 304

- Stainless Steel Anti Fingerprint

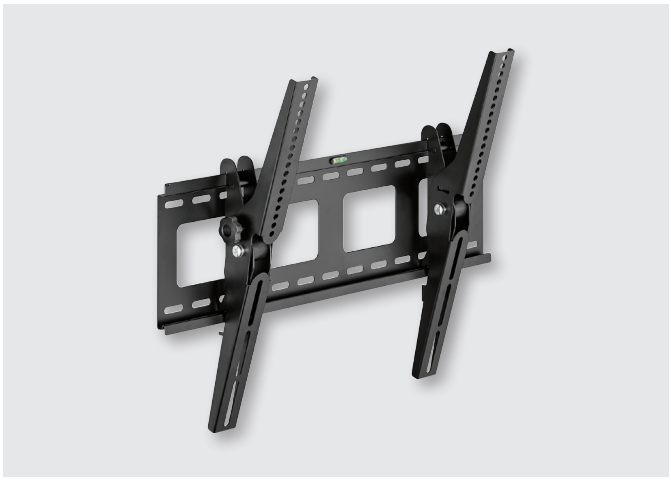
Wall mounted TV support bracket

Steel, powder coated black

817.35.301

- Area of application:
  For monitors with diagonal of 10” to 32”
- Adjustment facility:
  Tilting: +15° to –5°; swivelling: ±15°
- VESA standard:
  100 x 100 mm, 200 x 100 mm, 200 x 200 mm
- Load bearing capacity: 27 kg
- Installation: For screw fixing



Steel, powder coated black

817.35.322

- Area of application:
  For monitors with diagonal of 32” to 55”
- Adjustment facility: Tilting: +12° to –12°
- VESA standard: 600 x 400 mm
- Load bearing capacity: 79 kg
- Installation: For screw fixing

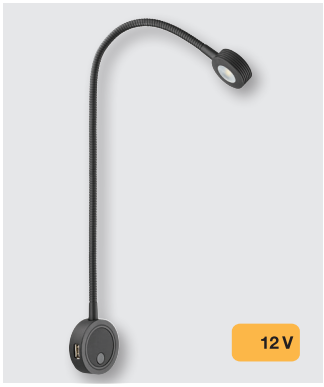
Häfele Loox LED 2034 Flexible light, 12 V - Monochrome with USB

- Dimmable: Yes
- Version: Integrated twin USB charging station 5 V / 2 A, integrated push switch for 2 brightness levels
- Material: Aluminium
- Length x width: 450 x 50 mm
- Height: 15.5 mm
- Energy efficiency class: A+
- Degree of protection: IP20
- Number of LEDs: 3
- Mounting: For screw fixing beneath magnetic cover
- Supplied with: 1 light with 2 m lead including fixing materials



12 V Loox 12 V driver see page 134

Min. 20 W driver per light for optimum operation of the USB charging station.

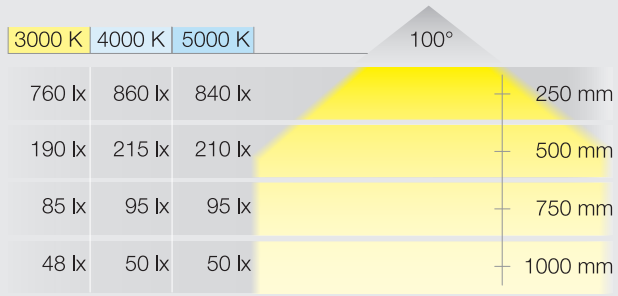
LOOX LED 2020 RECESS MOUNTED LIGHT/SURFACE MOUNTED DOWNLIGHT, ROUND

12 V SYSTEM

The LED 2020 generates homogeneous, extensive light and is ideal for atmospheric lighting in any area – and with the IP44 degree of protection the recess mounted light can also be used in wet rooms.

The light can be used in a variety of ways because of the two installation types and three colour temperatures.



Article No.:	833.72.280	833.72.281	833.72.282	833.72.283	833.72.284	833.72.285	833.72.286	833.72.287	833.72.288

LED DRAWER light with infra red sensor

12 V SYSTEM

LED Drawer Light helps you locate and search through the drawer and cabinet contents. The inbuilt sensor gets activated by the movement of door, automatically switching on and off as you open and close the drawer / shutter.
The LED Drawer Light provides you flexibility to install in two different ways: Side Installation for drawers (in case there is space restriction) and top installation for both drawers and cabinets.

- LED Drawer Light with Built-in Infra Red Sensor
- Life: 50,000 hours

HÄFELE CONNECT BLE BOX

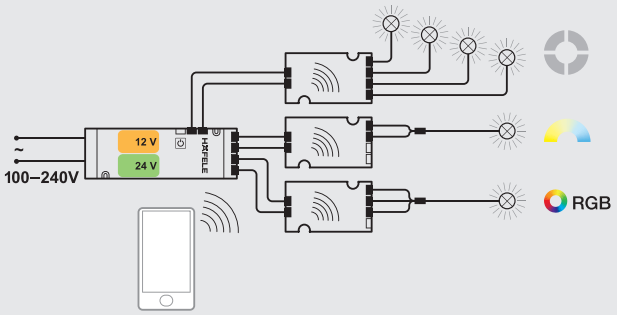
The Häfele Connect BLE box (Bluetooth low energy technology – ideal protocol for wireless light control) makes it possible to intuitively control furniture lighting and electrically operated fittings using a convenient app. A 12 V or 24 V driver supplies the BLE box via two leads. A single BLE Box or an entire network of BLE boxes is intuitively controlled via a Smartphone or tablet.

The Häfele Connect App makes it possible to control individual lights and electrically operated fittings.

The app controls the switching status (on/off), the brightness (0–100%) and also the colour temperature (with multi white lights) and the light colour (with RGB lights).
All parameters can be saved as scenarios and retrieved at any time.
Even time-controlled alteration of the brightness, the colour temperature, the light colour and the position of fittings is possible.
Real-life images of the actual room and the actual lights provide an intuitive operating experience. The Häfele Connect App is free for Apple IOS® and Android™.

	4 channel	
	BLE box 12 V	**BLE box 24 V**
Article No.:	**850.00.005**	**850.00.006**
Version	for on/off switching and dimming of lights (0–100%). Please order the BLE adapter separately for operating electrically operated fittings, RGB lights or multi white lights, see page 121.	
Number of connections	4	4
L x W x H (mm)	100 x 57 x 17	
Output current	2.5 A per output (max. 30 W with 12 V, max. 60 W with 24 V); sum total of all outputs max. 60 W with 12 V, max. 90 W with 24 V	
Standby power consumption (W)	<0.5 W	<0.6 W
Supplied with	1 BLE box, lead 300 mm	1 BLE box, lead 300 mm

HÄFELE CONNECT BLE BOX



> The distance between the Smartphone or tablet to the nearest BLE box is approx. 10 m. Multiple BLE boxes create a network, and can also be placed approx. 10 m apart.
> One BLE box occupies 2 outputs of the driver.

Please order lead with snap-in connector for modular switches driver separately. Length 2 m: Cat. No. 833.89.142.
See page 131

Häfele Loox motion detector, modular – automatic on/off switching

- Material/colour: Plastic, silver coloured
- Degree of protection: IP20
- Sensor range: 0–3000 mm
- Sensor angle: 120 °
- Power consumption: ≤0.1 W
- Delay time: 30 sec.
- Drill hole Ø: 12 mm
- Supplied with: 1 motion detector

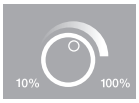
	Cat. No.
Motion detector, modular	833.89.129

Please order lead with snap-in connector for modular switches driver separately. Length 2 m: Cat. No. 833.89.142.
See page 131

Sensor switches

Häfele Loox dimmer, modular – automatic on/off switching

WITH TOUCH/ TOUCHLESS



- Material/colour: Plastic, silver coloured
- Degree of protection: IP20
- Power consumption: ≤0.3 W
- Drill hole Ø: 12 mm
- Supplied with: 1 dimmer

Type	Sensor range	Cat. No.
With touch	–	833.89.058
Touchless	0–60 mm	833.89.126

Please order lead with snap-in connector for modular switches driver separately. Length 2 m: Cat. No. 833.89.142.
See page 131

Dimming value is stored without the need for voltage supply (memory function)

Häfele Loox capacitive switch/dimmer, modular – touchless on/off switching and dimming

- Manual operation (proximity sensor), memory function
- Concealed installation in wood, glass or stone (not in metalliferous materials) at a maximum depth of 30 mm
- For screw fixing or recess mounting (drill hole Ø 35 mm)
- A distance of min. 500 mm to electromagnetic fields (power lines, microwave) must be adhered to.

- Material/colour: Plastic, silver coloured
- Diameter: 35 mm
- Height: 10 mm
- Degree of protection: IP20
- Power consumption: ≤1 W
- Supplied with: 1 switch

	Cat. No.
Capacitive switch/dimmer, modular	833.89.133

This completely invisible operating solution opens up completely new possibilities in continuously adjustable light control.

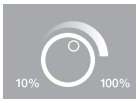
Please order lead with snap-in connector for modular switches driver separately. Length 2 m: Cat. No. 833.89.142.
See page 131

5 YEARS GUARANTEE*

Häfele Loox dimmer, surface mounted modular – soft on/off switching and dimming

WITH TOUCH

With touch function



- > Material/colour: Plastic, silver coloured
- > Dimesion: 40 x 40 x 8.5 mm (L x W x H)
- > Degree of protection: IP20
- > Sensor range: 0–100 mm
- > Power consumption: ≤0.3 W
- > Supplied with: 1 switch with fixing material

	Cat. No.
Modular dimmer (with touch)	833.89.134

Please order lead with snap-in connector for modular switches driver separately. Length 2 m: Cat. No. 833.89.142.
See page 131

Dimming value is stored without the need for voltage supply (memory function)

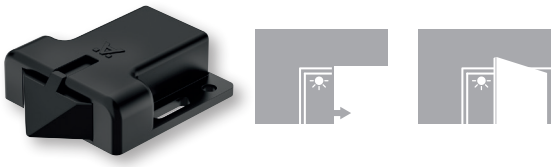
Häfele Loox door sensor for drawer profile

Door sensor

	Cat. No.
Door sensor for Loox drawer profile for 833.74.835	833.89.110

Mechanical switches

Häfele Loox universal door contact switch, modular – on/off switching



- Material/colour: Plastic, black
- Dimension: 51.8 x 40 x 14.2 mm (L x W x H)
- Degree of protection: IP20
- Supplied with: 1 switch with fixing material

	Cat. No.
Universal door contact switch, modular	833.89.143

Please order lead with snap-in connector for modular switches driver separately. Length 2 m: Cat. No. 833.89.142. See page 131

The universal door contact switch is suitable for hinged doors or single-leaf sliding doors.

Häfele Loox lead with snap-in connector for modular switches

- Degree of protection: IP20
- Supplied with: 1 lead

	Length mm	Cat. No.
Lead with snap-in connector for modular switches	1000 mm	833.89.141
	2000 mm	833.89.142

Required for modular switches

Drill hole Ø for plug: 12 mm

Häfele Loox door contact switch – on/off switching

- Material/colour: Plastic, Black
- Degree of protection: IP20
- Drill hole Ø: 12 mm
- Length 28 mm
- Supplied with: 1 switch with 2 m lead

	Cat. No.
Door contact switch	833.89.059

Drill hole Ø for plug: 12 mm

5 YEARS GUARANTEE*

Mechanical switches

Häfele Loox rocker switch – on/off switching

- Material/colour: Plastic, black
- Diameter: 15 mm
- Height: 17.7 mm
- Drill hole Ø: 12 mm
- Supplied with: 1 switch with 2 m lead

	Cat. No.
Rocker switch	833.89.106

Drill hole Ø for plug: 12 mm

Housing for switch, surface mounted

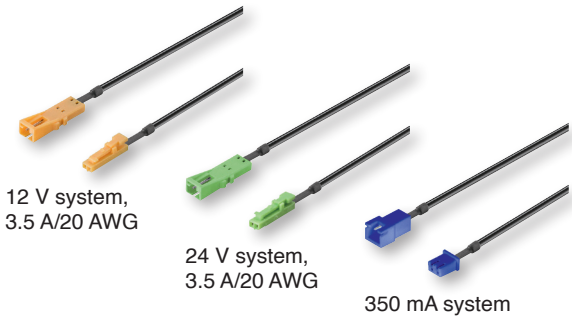
- Dimension: 48 x 45 x 17 mm (L x W x H)
- Diameter: 16 mm
- Material/colour: Plastic, silver coloured
- Supplied with: 1 housing
- Application: For switch Ø 12 mm

	Cat. No.
Housing for switch	833.89.090

Suitable for 32 mm series drilled holes

Leads and Distributors

Extension leads 12 V / 24 V / 350 mA



12 V system, 3.5 A/20 AWG

24 V system, 3.5 A/20 AWG

350 mA system

> Supplied with: 1 lead

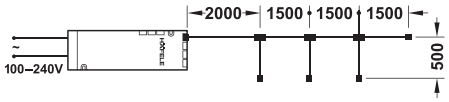
Length (mm)	Cat. No. (1000)	Cat. No. (2000)
12 V system, 3.5 A/20 AWG	833.73.765	833.73.766
24 V system, 3.5 A/20 AWG	833.77.713	833.77.714
350 mA system	833.80.705	833.80.706

For extending the connection leads of the LED lights.
> Lead length from driver to light max. 6 m

4-way extension lead – convenient extension for additional lights

12 V system, 3.5 A/20 AWG

24 V system, 3.5 A/20 AWG



> Length: 6,500 mm
> Supplied with: 1 lead

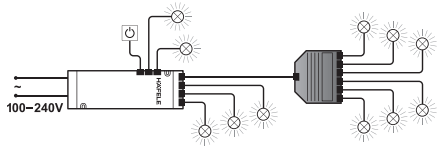
Application	Cat. No.
12 V system, 3.5 A/20 AWG	833.74.773
24 V system, 3.5 A/20 AWG	833.77.813

Makes it easier to power several lights positioned one after the other.
max. 4 lights per extension can be connected,
max. 2 extensions can be coupled

6-way distributor – for connecting additional lights to one driver

12 V system, 3.5 A/20 AWG

24 V system, 3.5 A/20 AWG



> Length x width: 58.5 x 34 mm
> Height: 18 mm
> Supplied with: 1 distributor with 2 m lead

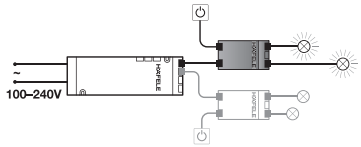
Application	Cat. No.
12 V system, 3.5 A/20 AWG	833.74.798
24 V system, 3.5 A/20 AWG	833.77.724

With the 6-way distributor, up to 6 additional lights can be operated from one driver slot.

3-way distributor with switching function 12 V / 24 V

12 V system, 3.5 A/20 AWG

24 V system, 3.5 A/20 AWG



> Length x width: 57 x 34 mm
> Height: 18 mm
> Power consumption: 0.1 W
> Supplied with: 1 distributor with 200 m lead

Application	Wattage	Cat. No.
12 V system, 3.5 A/20 AWG	max. 42 W	833.74.751
24 V system, 3.5 A/20 AWG	max. 84 W	833.77.723

Up to 3 lights can be operated independently of the driver using the 3-way distributor with switching function connected to the output of the light.

Give your designs the perfect touch in the bath, vanity or closet areas with Häfele's Aquasys Range of Light Mirrors, consisting of the Aquasys, Aquasys X+ and Aquasys X Series. Beautifully designed, the mirrors add value, functionality and style to any interior space.

Aquasys Light Mirror - Multi-Functional Convenience

Bluetooth Capable Transducer System

> Plays music from your mobile on the sound system integrated into the mirror

Demister (Mirror Heater)

> Prevents the mirror from fogging up

Background Lighting

> Functions as a source of mood and ambient lighting

Front Lighting

> Offers adjustable lighting option from warm white to natural white

AQUASYS

The mirrors from the Aquasys Series are top-of-the-range models and come feature packed with the following:

> Front Lighting
> Background Lighting
> Demister (Mirror heater)
> Bluetooth Capable Transducer System
> Application: Bathrooms

AQUASYS X+

The mirrors from the Aquasys X+ Series include mid-range models which have the following features:

> Front Lighting
> Background Lighting
> Demister (Mirror heater)
> Application: Bathrooms

AQUASYS X

The mirrors from the Aquasys X Series provide economical options for those looking for mirrors with:

> Front Lighting
> Background Lighting
> Application: Dressing Rooms, Living Rooms & Bathrooms

Aquasys Light Mirror

420 E Sound system

Bluetooth® receiver with exciter speaker

Invisible sound system with impressive quality on many different surfaces.
Quick and easy installation, therefore also ideal for retrofitting.

- Power consumption: During operation with 2 exciter speakers: Max. 19 W, during optional operation with 4 exciter speakers: Max. 32 W
- Reception range: Max. 10 m
- Nominal voltage: 110–240 VAC
- Power connection: With 2 m lead to 12 V driver
- Dimensions: 140 x 45 x 15 mm
- Installation: For screw fixing
- Exciter version: Speaker for screw or glue fixing with 1 m lead

Including 2 exciter speakers. Expansion to 4 exciter speakers possible.
Available on request: Multi-room control for separating different users in adjacent rooms.

Pop-Up-Sockets

Less is indeed more! Functionality at a pull. Häfele integrates concepts of space efficiency, functionality, ease, entertainment and advanced technology seamlessly into its New Pop-up Socket Systems.

- Effective utilisation of space
- Reduces dependency on the traditional wall socket systems:
- Packs-in a unique dose of entertainment through the integrated Bluetooth audio system.
- Is splash-proof (IP54 in a close position) which means that it is resistant to water splashing from all directions

All you need to know about Movable Walls

Movable walls allow business owners and homeowners to create the floor plan they need out of a wide-open space. Movable walls are partitions that can increase the functionality of an open area such as a loft apartment, warehouse, conference room or banquet hall. These systems can provide privacy and good acoustic insulation for work and living environments.

Uses:

Movable wall panels are an ideal way to separate areas and create privacy in a room.

- Homeowners can select wall panels that create a solid wall and door for entry into a bedroom or living area or use glass panels to define separate areas of the living space while keeping the open floor concept in the room.
- In a business environment, movable walls are a quick way to set up offices and change the layout of the building space to accommodate new workers.
- Hotels and Malls can use movable walls to create more number of functional areas within the available space – for instance, a banquet hall or a convention centre in a Hotel can double up with a movable wall partition to accommodate two functions or conferences simultaneously.

Movable Wall Systems by Hafele:

Hafele brings to you its range of Movable Wall systems from Parthos, Netherlands. These systems are ideal for uniting or dividing spaces within a given area to achieve optimal space utility. Our range of movable wall systems gives you the flexibility of customization and conforms to the highest standards of functionality and quality.

Our products help to expand the imagination of designers. This applies especially to the development of flexible space-saving solutions for hotels, congress and convention centres, schools, restaurants, shopping centres, commercial buildings or large apartments.

Our greatest strength is our ability to deliver custom work.

Palace 80

For many types of users, the Palace 80 may very well be the ultimate solution for creating more space and flexibility.

This movable wall with a panel thickness of only 80 mm will guarantee an optimal ease of operation with only the slightest loss of space. The favourable cost aspect also makes it an excellent alternative. Furthermore, the Palace 80 proves that a slim construction does not affect the stability and sound insulation.

The trolleys of this wall are suspended on metal bearers running horizontally through the panel. The result is a self supporting structure.

- Panel Thickness: 80MM
- Panel Height: 1500-3500MM
- Panel width: 600 - 1240MM
- Frame construction: Aluminium / Wood
- Board Material: 9MM, carried by the construction
- Fire Safety: Optional fire-retardant class B1/M1
- Vertical profile: Aluminium, Anodized, with sealing profiles
- Pressure Sleeves: Aluminium, Black with double sealing profiles
- Operation of pressure sleeves: Manual
- Doors: Single door in panel or fixed single door
- Sound instalation: 40 and 44 DB RW
- Weight (depending on sound insulation value): approx: 40 & 44 kg/m^2
- Standard version with covering profiles
- Very easy to operate due to light construction
- High-quality track and trolley system
- Stable and self-supporting frame construction
- Enormous flexibility thanks to a broad range of panels

Transpalace

Max. 3.5 m

Max. 40/44 dB Rw

The most exclusive model in the Palace series is the Transpalace. This sturdy, transparent movable wall has been finished with double-layer safety glass. Transpalace will allow you to retain the transparency, while enjoying what the other Palace walls have to offer, such as a high degree of sound insulation, a stable frame and a beautiful design. The technology has been subtly incorporated behind a thin panel of glass, in the colour of your choice.

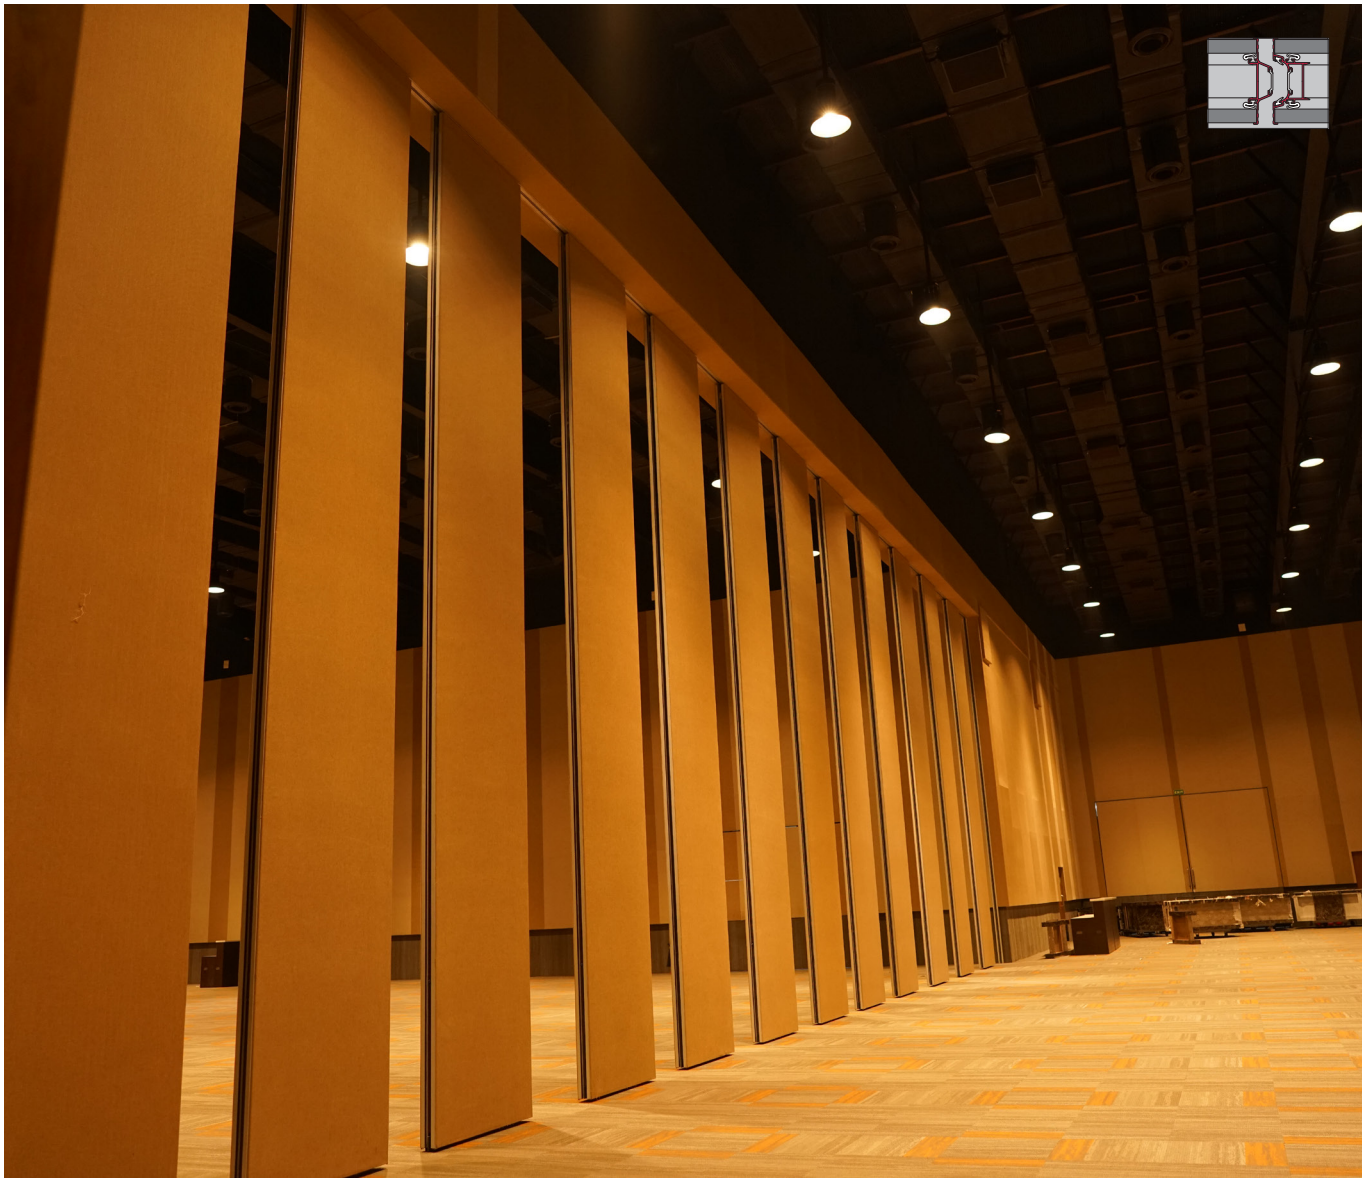
- Panel Thickness: 80/100MM
- Panel Height: 1500-3500MM
- Panel width: 600 - 1240MM
- Frame construction: Aluminium
- Board Material: 10MM, safety-glass carried by the construction
- Fire Safety: Optional fire-retardant glass
- Vertical profile: Aluminium, Anodized, with sealing profiles
- Pressure Sleeves: Aluminium, Black with double sealing profiles
- Operation of pressure sleeves: 80: Manual / 100: Electrical
- Doors: Single door in panel or fixed single door
- Sound instalation: 44 and 46 DB RW
- Weight (depending on sound insulation value): approx: 65 kg/m^2
- Glass Can Be Replaced Separately
- Aluminium Profiles, Available In Every Ral Colour Chart System
- Slim Glass Available In Every Colour
- Welded Aluminium/Steel Construction

Palace 90

The Palace 90 is a paradigm of robust custom work. Inspite of its slim look, the Palace 90 disposes of an extensive package of functional characteristics, Furthermore, this type of wall is suited to every (working) environment. The inlayed aluminium border profiles give it an especially stylish look.

- Panel Thickness: 90MM
- Panel Height: 1500-4000MM
- Panel width: 600 - 1240MM
- Frame construction: Aluminium / Wood
- Board Material: 8MM, carried by the construction
- Fire Safety: Optional fire-retardant class B1/M1
- Vertical profile: Aluminium, Anodized, with sealing profiles invisible when wall is closed
- Pressure Sleeves: Aluminium, Black with double sealing profiles
- Operation of pressure sleeves: Manual
- Doors: Single door in panel or fixed single door
- Sound instalation: 46 and 48 DB RW
- Weight (depending on sound insulation value): approx: 32-50 kg/m^2
- New EPDM pressure sleeve and pieces for improved acoustic properties
- Standard version with inlayed profiles
- Stable and self-supporting frame construction
- Enormous flexibility thanks to a broad range of panel models
- Attractively priced
- Very easy to operate
- High-quality track and trolley system

Palace 110 S



The Palace 110 makes it much easier to organise your space: a high degree of sound insulation, single or double doors, height of more than fifteen metres, curved panels if required, semi-automatic operation and fire resistance rating of up to sixty minutes!

- Panel Thickness: 110MM
- Panel Height: 1500-15000MM
- Panel width: 600 - 1240MM
- Frame construction: Aluminium / Steel
- Board Material: 16MM, carried by the construction
- Fire Safety: Optional fire-retardant class B1/M1
- Vertical profile: Aluminium, Anodized, with magnetic strips and sealing profiles
- Pressure Sleeves: Aluminium, Black with double sealing profiles
- Operation of pressure sleeves: Manual or Electrical
- Doors: Single door in panel or fixed single door
- Sound instalation: 45, 50, 53, 56, 57, 58 DB RW
- Weight (depending on sound insulation value): approx: 31-56 kg/m^2
- Durable and stable metal construction
- Possible heights of more than 15 metres
- Optimal flexibility, curved walls and tracks possible
- Available in a fire-resistant model of up to 30 and 60 minutes with passdoor
- Available in a broad range of finishes
- High-quality track and trolley system
- L- shaped semi-automatically operated top & bottom seals possible

President

An enormous degree of user-friendliness and an extensive range of options as to design and finish are among the President‘s greatest advantages. In addition to design, we also pay a great deal of attention to user-friendliness.

- Completely transparent partition
- Curved segmented models available
- Virtually unlimited choice of options in pattern and design
- High-quality track and trolley system
- Extremely durable clamping construction without necessity of drilling the glass
- Profiles and track available in several colours

Autotec Automatic Doors

Hardware Specification:

- High load capacity up to 125 kg
- Door thickness 12 mm
- Automatic sliding system for internal glass doors
- Comes configured with an energy saving system which leads to lower power consumption (less than 0.5 W)
- Boasts of 70% less electricity consumption
- Highest level of safety – EN16005 standard
- Cycle testing: 10,00,000 cycles

Features :

- The system has a smooth and silent operation due to the roller and track mechanism
- Different configurations (modes) are available as per the application desired
- In case of power failure, there is an option of battery backup
- IP54 rated - Limited dust ingress and protection against water spray (canopy is required if the system is exposed to the external environment)

Supernatural™

The One of a Kind Collection

Just like an original work of art, every Supernatural slab is one of a kind a quartz surface that will take your interior décor to a whole new level. Mirroring nature's endless diversity and beauty, each slab is finished to perfection.

Inspired by some of the world's most beautiful natural marble, Caesarstone's supernatural designs represent the very best of what nature has to offer. Using cutting-edge technology, these earthy tones and delicate veins are infused with intricacies and textures never before seen on quartz surfaces.

The new Supernatural designs adorn any modern interior, while maintaining all the advantages and timeless qualities that make Caesarstone special.

Metropolitan™ The Metropolitan Collection is a unique collection leading the urban interior trend. The Metropolitan Collection reflects the authentic textures of manufacturing, such as oxidized steel, poured plaster and raw concrete. These unpolished designs reveal variations in appearance and capture depth and movement throughout the surface. Caesarstone's new cutting-edge technology achieves a weathered patina in quartz never experienced before.

562.59.006

Cloudburst Concrete
562.59.858

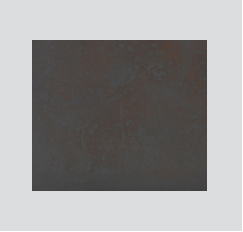
Topus Concrete
562.59.873

Airy Concrete
562.59.874

Excava **562.59.294**

Primordia
562.60.815

Black Tempal
562.59.394

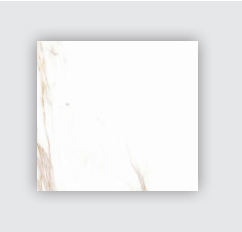


Oxidian **562.59.414**

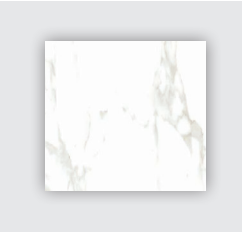
Surfaces - Dekton

Outdoor Countertops:

When designing an outdoor surface we need to take gravity into account: everything floating in the air will end up falling onto it. And it can be unused for weeks and months. A strong material with high resistance to UV-rays, thermal fluctuations, Scratches and stains would be your best bet in such applications. Sounds hypothetical? Not really. Dekton surfaces come with the ideal properties to sustain the harsh conditions of outdoor applications and thus become your ideal choice for countertops that need to be installed outside your home. The myriad choice of finishes and designs available in this range can help you create a unique application, just the kinds you had always imagined.

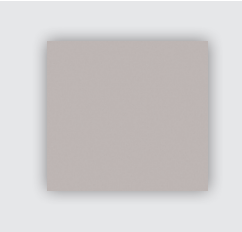


Entzo **562.58.146**

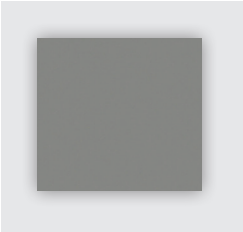


Aura 15 **562.58.126**

Spectra **562.58.246**



Splendor **562.58.266**



Blaze **562.58.276**

Glacier **562.58.216**

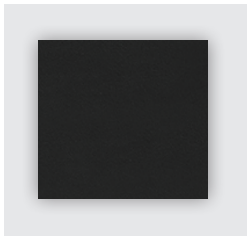
Tundra **562.58.236**

Fiord **562.58.226**

Surfaces - Dekton

Wall Cladding:

Gone are the days when your kitchen and dado walls hide behind plastered paints, inconsistent tiles or dull wall papers. Dekton's unique surface properties like low water absorption and fire resistance make it an ideal choice for wall cladding applications in kitchens as well as the other areas of your interior spaces. Moreover the dimensional stability provides an overall consistency in design making for a seamless look without borders or differences. The end result is a surface that adorns your walls with spectacular aesthetics as well as robust and ever-lasting durability



Domoos **562.58.006**

Vegha **562.58.056**

Flooring and Indoor Countertops:

The aesthetic appeal of any kitchen is greatly emphasized by the choice of countertops and flooring materials used. Today, the need to move away from clinical and functional designs is changing the spectrum of material choices available in the market. Dekton, with its unique material properties, forms an ideal choice for every surface in your kitchen – be it countertops, flooring or even cabinet fronts. It's scratch and stain resistance properties along with low water absorption levels make it a robust choice for countertops and floorings. The spectrum of designs and patterns available through Dekton, bring with it the flexibility to design your kitchen your way – you may choose to follow a seamless synergy between the flooring, cabinets and countertops or else bring in a healthy contrast of tones.

Trilium **562.58.196**

Kelya **562.58.066**
