

MIXER-GRINDER RANGE

ELEGANZ 800 | CUATRO 1000 | THEA 1200

India is a nation with more than 1,700 dialects and over 2000 ethnic groups, diverse in its culture, ethnicity and beliefs. The underlying thread that connects and pulsates through this diversity is our varying and rich cuisine. In many ways, food unites us— it provides us a common platform to exchange recipes, assimilate novelties and celebrate similarities— it has its own language that is understood by all. It is hence no wonder that a family in the north of India relishes a cuisine from the south or that spices of the east find their way in a recipe native to the west.

For generations, the Indian kitchen has never been complete without the quintessential Mixer-Grinder. For many, the delectable pastes, curries and chutneys made in the mixer-grinders are a part of the 'secret recipes' passed down for generations, forming an integral element of an individual's culture. To honour this legacy and warrant further innovation, Häfele introduces new premium mixer - grinder models to its Countertop Range of Appliances - Eleganz 800, Cuatro 1000 and Thea 1200.

These new models are functionally excellent, visually elegant and ergonomically designed to promise consistently remarkable results upon every use. They come with the new ninja series blades, the designs of which are inspired by the Japanese masterpiece - the Katana Sword. Crafted with ultimate precision and perfection, the ninja series blades in our advanced mixer-grinders are your katana— guaranteeing an assured win in all your kitchen battles.

ELEGANZ 800

CUATRO 1000

THEA 1200

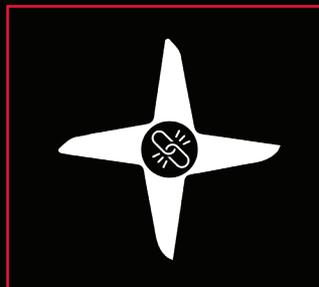

Ninja Series Blade:

Häfele's new Mixer/ Grinder models come equipped with the innovative ninja series blades that are inspired by the Japanese masterpiece– the Katana Sword. Crafted with ultimate precision and perfection, these blades guarantee an assured win in all your kitchen battles. The three blades within this series corresponding to the three models; Supremus Blades in Eleganz 800, Victus Blades in Cuatro 1000 and Titanium Blades in Thea 1200 have their own individualistic design and functional characteristics making each of them real assets in your daily mixing-grinding tasks.

Supremus Blade
in Eleganz 800

Sharp blades performing at high speed and providing efficient and smooth mixing/ grinding results.

Victus Blade
in Cuatro 1000

Strong, precise blades endowed with high durability and swift action technology.

Titanium Blade
in Thea 1200

Light-weight, durable and corrosion-resistant blades operating with maximum efficiency and finesse.

ELEGANZ 800

Mixer and Grinder

Powered with a formidable 800 W Copper Wound Motor and equipped with Supremus Blades, Häfele's Eleganz 800 is packed with potential and is our first 'Made in India' Mixer and Grinder. It is equipped with 3 food grade Stainless Steel Jars with click lock feature and ergonomically designed handles to provide you with extra grip & comfort. A minimalist design with glossy black finish blending with your kitchen aesthetics, Eleganz 800 boasts of a large Dial Knob carefully crafted to assist you with better control and operating experience.

Features

Multi-functional jars

The three Stainless Steel Jars come in different sizes– 1.5 L wet jar for large quantities of liquid mixing like idli/dosa batter, 1 L dry and wet jar for versatile applications like chutneys and wet spice mixtures and 300 ml dry jar for grinding spices and other small quantity requirements. These jars come with a click locking function making hands-free operation possible and easier.

Variety of food items

Eleganz 800 can carry out the toughest dry and wet grinding operations involving different types of food items ranging from spices, urad dal and haldi to herbs, fruits and vegetables swiftly and effortlessly.

Easy operation

The knob dial of Eleganz 800 is ergonomically designed to help you navigate between the speed options easily.

Powerful motor

The powerful 800W 100 % copper-wound motor of Eleganz 800 has an endurance of more than 200 hours thus guaranteeing a longer and durable life and a motor rating* of 30 minutes specifically catering to continuous grinding of hard ingredients.

Speed

Whether you want a fine paste quickly or a slow coarse grind, Eleganz 800 has the answer in the form of 3 speed options and an additional pulse function for light grinding.

Stable base

The base of the grinder has a suction element that helps it stay in place and makes sure it doesn't shift when you are operating it.

* Note: Motor rating is time for which Eleganz 800 can function continuously in a single instance.

Specifications

Voltage:
220-240 V

Longlasting and durable
100% copper-wound motor

3 Stainless steel jars for
multi- function operations with 3000+
cycle testing for a rust free function

Ergonomically
designed big dial knob

Frequency:
50/60 Hz

RPM:
20,000

Click locking jar lids for
hands-free operation

Strong suction feet
for extra stability

Motor power:
800 W

Speed:
3 Level + Pulse

Supremus stainless steel blades
for high performance

Motor endurance:
200+ hours

Article No.	535.43.283
Motor rating	30 minutes
Rotary switch	10,000 cycles
Blade reliability*	16 hours
Jar durability	3000 cycles
Body material	ABS
Finish	Glossy black
Dimensions	190 (L) x 320 (W) x 425 (H)
Motor warranty	5 Years
Product warranty	2 Years

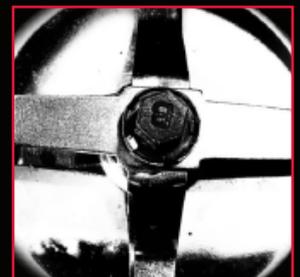

Supremus Blade:

Eleganz 800 comes with Supremus Blades from the Ninja Series of Blades that possess an RPM of 20,000 providing you with highly efficient and smooth mixing/ grinding functions. The three blades- 6 leaf, 4 leaf and 2 leaf housed in their respective jars, produce clear and smooth liquid/ dry mixtures no matter the food type or quantity. The blades also come with a stress testing of 16 hours for a precise performance.

6 leaf:
Toothed End + Blunt End +
Sharp End-
A multipurpose blade for
efficient blending, wet
grinding and ice crushing

4 Leaf:
Sharp End + Blunt End-
Excellent choice for fine
grinding and chutney making

2 Leaf:
Blunt Toothed End + Sharp End-
Unique design for finest spice
grinding results

* Blade reliability is the duration for which the Supremus blade can operate continuously at a given time without any effect on efficiency.

CUATRO 1000

Vacuum Mixer and Grinder

Cuatro 1000 brings to the table and your homes the maximum goodness of fruits and vegetables in the form of VacuoTechnology. When chemicals in food are exposed to the oxygen in the air, their chemical composition changes and they begin to deteriorate. A traditional blender, while blending accelerates the oxidation process of food particles which results in the food undergoing a change in taste, colour, texture and losing most of its nutrients which in turn impacts the life of the blended food.

In Cuatro 1000, the tap of a button removes the air and oxygen responsible for oxidation of food from the jar and stops the subsequent depletion of the micro nutrients to enhance the shelf life and preserve the nutrient content of the food. Once the air is pulled out of the blending jar, the food is blended uniformly at high speed thus providing it a perfectly smooth texture without the formation of air bubbles.

Features

Powerful DC motor

The 1000 W motor with copper winding enhances the durability of the motor and helps in efficient mixing and grinding of ingredients to achieve the right consistency every time.

BPA Free tritan jar

The 1 L jar that comes along with Cuatro 1000 is made of Tritan which is free of any harmful chemicals. The jar is tough, transparent and dishwasher safe.

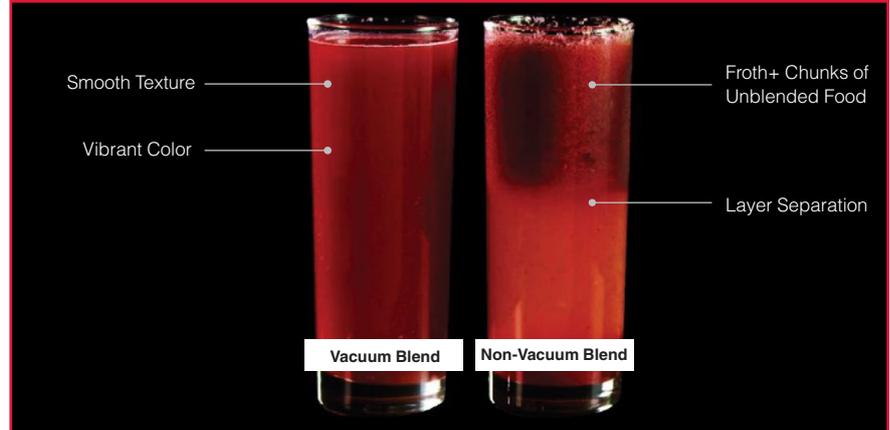

Silent operation:

The operation noise of the Cuatro 1000 motor is less than 70 dB, which makes carrying out grinding/mixing functions as quietly as possible. Additionally it comes with a noise reduction cover.

AdapTech Display

The AdapTech Control of Cuatro 1000 helps you select any of the pre-set functions with just a tap of your finger. Additionally, the display indicates the time lapsed for the current selected function and the real-time speed to keep you notified of the changes occurring inside.

Vacuotechnology:

Vacuum helps to take out the air and removes oxygen which is responsible for oxidation of food and the subsequent depletion of the micro nutrients. In a vacuum blender, the high pressure vacuum allows you to take out the unwanted air in the blender. The absence of air, helps you achieve a uniform and consistent blending result while the absence of oxygen enhances the shelf life and preserves the nutrient content of the food. Thus, your vacuum blended juices, smoothies and purees retain most of the essential nutrients and have a smooth texture that maintains its consistency over a longer period of time.

Specifications

Voltage:
220-240 V

Longlasting and durable
100% copper-wound motor

1 L Mixer jar+ 150 gms dry
grinding jar

Motor type:
DC

Motor power:
1000 W

RPM:
20,000

control

Victus stainless Steel blades

Motor endurance:
200+ hours

Article No.	535.43.282
Body material	Plastic ABS
Finish	Black
Dimensions	335 (L) x 270 (W) x 598 (H) mm
Motor warranty	5 Years
Product warranty	2 Years

Victus Blade:

The Victus Blade in Cuatro 1000 from Häfele's Ninja Series is an amalgamation of traditional sharp edged chutney grinding blade and dry grinding blade that provides you with the perfect concoction of juice, chutney and spice mixture that stay fresh for hours due to the VacuoTechnology. The Dry Grind blade in the Dry Grinding Jar slices even the toughest of nuts and spices with ease due to its hardened Stainless Steel blades and swift action technology.

4 Leaf:
Toothed End + Sharp End-
For efficient blending and wet
grinding

2 Leaf:
Sharp End + Blunt End-
For fine spice grinding results

THEA 1200

Mixer and Grinder

Inspired by the Greek goddess Thea or Theia known for endowing metals and crystals with brilliance, lustre and intrinsic value, Häfele's Thea 1200 Mixer Grinder with its shimmering stainless steel metal body and sturdy titanium coated blades is crafted to perfection.

This appliance packs a powerful 1200 W AC motor with a stepless speed control mechanism to ensure a smooth operation. With its ergonomically designed large control knob and dedicated One Touch tactile buttons for Pulse Function, Ice Crushing and smoothie, Thea 1200 is a sight to behold and a delight to use. The machine comes with a huge 1.8 L capacity glass jar, 130 grams Stainless Steel jar for dry grinding and a 45 grams exclusive dry grinding glass jar for soft dry grinding to satiate all your cooking requirements.

Features

Powerful DC motor

Thea 1200 comes with a 1200 W AC motor with copper winding and stepless speed control which allow you to smoothly transition between different speeds and help grinding ingredients into varied pastes with different consistencies like Humus, Peanut butter & Almond butter.

High quality jars

Thea 1200 comes with 1.8 L & 45 grams glass jars which help you keep an eye on the food items inside the jar and are microwave friendly. The 130 grams Stainless Steel jar is used for performing tougher grinding operations.

Easy usage

The large and ergonomically designed electronic knob control with circular light indicator and 3 pre-set electronic buttons for Pulse function, Ice crushing & Smoothie lets you perform operations with utmost ease.

Jars

1.8 L glass jar:

Ideal for smoothie, shake or puree, the Thea 1200 Mixer-Grinder helps you achieve all required functions in one machine. Its 1.8 L food-grade glass jar comes with a spill-proof lid and unique Titanium blades that add finesse and sturdiness in all your mixing-grinding requirements.

130 gms stainless steel jar:

Chutney/ spice mixtures are used in all Indian kitchen households. The medium 130 grams stainless steel jar can be used for tougher grinding operations.

45 gms glass jar:

Say yes to freshly ground coffee or a nice scoop of peanut butter with this 45 grams glass jar. The small glass dry grinder is for soft dry ingredients like coffee beans, almonds, peanuts other variety of nuts.

Specifications

Voltage:
220-240 V
