

RE-SPLIT

NEW

Because big things (or should we say technology) often comes in small packages...

Advanced Functionality, Minimalist Aesthetics: RE-Split successfully unites the functionalities of the lock and lever handle into one body, enhancing the door design with sleek aesthetics. This lock provides access via multiple modes- password, fingerprint and built-in Bluetooth key and is suitable for installation on internal and external doors across various settings. RE-Split hits the mark at capturing technological advancements that move towards providing more compact solutions packed with contemporary features. Furthermore, this lock can be operated as well as managed via the 'Häfele Smart Living' mobile application. It works on the Bluetooth Technology and allows you to set multiple access possibilities for yourself as well as your visitors through different password configurations on your mobile device.

ACCESS MODES:

-  **Fingerprint**
(Up to 40 unique accesses)
-  **Key-pad or Password**
(Up to 40 unique accesses)
-  **Built-in Bluetooth Key**
(Mobile application access)
-  **Mechanical Key**
(2 user keys)

SMART TECHNOLOGIES:

-  **Smart Mobile App Configuration:** Lets you configure and set-up the lock via the Häfele Smart Living Mobile Application.
-  **Smart Voice:** Provides you step-by-step voice guidance while adding a user, setting a password or enabling a function/mode; or simple voice notifications from the lock about the various operative modes or incorrect usage of the lock.
-  **Smart Freeze:** Reduces the possibilities of unwanted break-ins by freezing the lock function for over 5 min. in case of 10 incorrect entries of access.

External Lock Body

Internal Lock Body

TYPES OF PASSWORD:

Permanent Password: Used by the admin user (owner) for regular access to the property. Once set, this password remains active until it is changed or reset by the admin.

Period Password: Generated to give access to visiting guests who may want to use your property for a few hours or days with multiple entries and exits.

Temporary Password: Generated for guests and is valid for a single entry visit only. This password expires after 24 hours.

Dynamic Password: Remains valid for a brief period of time, i.e. 5 minutes and allows multiple entry and exits within the 5 minutes. Generated mainly for one-time visitors like delivery agents, postman etc. This password can be generated even when you are not in the vicinity of the lock.

APPLICATION:

- Internal and external doors of residential and commercial spaces, holiday homes, stand-alone villas and cottages
