SLIDING SOLUTIONS

## Experience More with **Service+**

Our customers' working environment is becoming increasingly complex and their market is becoming ever more demanding. This drives our motivation to do everything in our power to help our customers be successful. And to demonstrate that Häfele is the right partner in these challenging times, we want to accompany our customers throughout their entire business process and give them added strength in every phase of their business. We don't just want to sell our products, we also want to provide the highest level of service.

We have now divided our services into two categories: **Standard Services** which we provide to our customers as a matter of course when they choose our products. For example, a high availability of our goods and punctual delivery. And then there is **Service+** which constitutes of services that give our customers considerable added value in terms of building expertise, increasing productivity or providing individual customised solutions. These services require a considerable amount of time and effort to develop and implement and are designed to enable our customers to regard them as worthwhile investments.

The aim is to create solid long-term foundations for our comprehensive service promise and to make Häfele an indispensable partner for our customers. The focus here lies not so much on us and on what we do – but rather, on the benefits derived by our customers. We want to **empower** them with opportunities to develop and expand their skills – both as masters of their trade and as entrepreneurs. We want to support them in the planning and realisation of their projects and relieve them of as much work as possible, thereby providing them with a **helping hand** to use their most valuable resource – time – as efficiently as possible. And we aim to give our customers **peace of mind** and the assurance that even after the end of a successful project completion, we will continue to be there for them as a reliable partner, shouldering responsibility.

The HAFELE logo is positioned in the top left corner of the image. It consists of the word "HAFELE" in a bold, sans-serif font, with a red triangle above the letter "A".

HAFELE

A technical line drawing of a HAFELE handle is displayed on the laptop screen. The drawing shows the handle from multiple perspectives, including a side view and a top-down view, highlighting its mechanical components and the HAFELE logo.

# The Pillars of **Service+**

A close-up photograph of a person's hands typing on a laptop keyboard. The hands are positioned over the keyboard, with fingers resting on various keys. The laptop is open, and the keyboard is the central focus of the lower half of the image.

In order to support you as comprehensively as possible, we have assigned the Plus Services to individual stages of your work process in a total of four themed pillars. We start with the transfer of knowledge and accompany you via planning and production to installation and maintenance.

Empowering customers with  
**Service+ Knowledge**

---

Includes service offerings that provide inspiration and expertise to our customers about the Häfele product range. Through these, we enable our customers to use Häfele products profitably and at the same time remain at the cutting edge of technological development. One example of this is the Häfele Academy, which imparts knowledge about complex products and new technologies to our customers via seminars and trainings.

Providing a helping hand to customers with  
**Service+ Planning & Customised**

---

Includes service offerings like space, design planning and customisations that make life easier for our customers and support their design vision. An example of this is Häfele's Lighting Design Service which helps our customers curate a lighting plan, following a customised approach, that enhances and brings out the true functionality of any interior space as per requirement.

Lending a "Peach-of-mind" experience through  
**Service+ Assist**

---

Includes service offerings that provide support and assistance to our customers, whether digitally or on site. An example of this is the complete assembly and installation service for more complex and maintenance-intensive products done by our Meister certified and trained technicians.

## Meister Service

Bought products from Häfele and got questions about how to use them correctly? Do you require technical support? Our competent technicians would be pleased to help you out with the help of Meister Service.

Meister Service offers complete installation of key hardware products from Häfele, by 'Meister Certified' and trained service technicians from the company directly, at a nominal service charge. This service is available for select products from categories like Kitchen Solutions, Sliding Solutions, Door Hardware, Furniture Fittings and Lighting Solutions.

Key benefits of this initiative:

- Accurate installation of products as per standards and specifications
- Optimum functionality through accurate installations
- Less hassles of product replacements
- A peace-of-mind experience for customers using Häfele products

## ALUFLEX 80B Sliding System

Häfele's Sliding Systems have become synonymous with maximum functionality and minimal effort. Constant innovation over the years has enabled us to introduce new and improved fittings that boast of commendable quality, durable build and expert craftsmanship. It is hence no wonder that the new Aluflex 80B from Häfele's Slido Range, ranks high on functionality, versatility, design and application.

From offering an elegant access to your walk-in wardrobe set-up to functioning as a captivating partition system between living areas or in commercial spaces, the patented Aluflex 80B aluminium profiled system provides a mesmerising floor to ceiling sliding solution. It can easily support panel weights up to 80 kg and comes with an integrated double-sided soft closing mechanism. Different panel design and material possibilities combined with the attractive anodized black finish of the profiles and tracks helps exude style and sophistication in your surroundings as well as add character and dimension to your interiors.

### FEATURES

**Heavy Weight Doors:** The Aluflex Sliding System consists of a bottom track that sustains the door weight and provides additional guidance during the sliding operation. Certified with a cycle testing of 40,000 cycles, this durable system easily carries panel weights up to 80 kg.

**Versatile Applications:** With Aluflex, you can choose wooden panels for privacy, glass panels for complete openness and transparency or a mix of patterned glass and wood to achieve a truly unique look customized by you.

**Minimal Design:** The horizontal and vertical profiles provided with the Aluflex system are extremely slim, promising minimal design with functional efficiency.

**Soft Opening and Closing:** The patented double-sided soft closing mechanism is a part of the Aluflex 80B System kit and ensures smooth and silent opening and closing on both sides.

**Easy Adjustments:** The height of the door can be easily adjusted through the centre drilled hole at the bottom portion of the vertical profile via an Allen key.

## PRODUCT SPECIFICATIONS

- Robust Aluminium profile system
- CATAS® Certified – 40,000 cycle tested
- Smooth and effortless sliding doors
- High weight-bearing rollers
- Integrated and concealed soft opening and closing
- Easy installation

Aluflex 80B Double Door Sliding Kit consists of the following components:

**Article No.: 400.50.110**

**Top Roller Guide x 4**  
Material: Mild Steel and Rubber  
Finish: Silver Anodized

**Bottom Roller x 4**  
Material: Mild Steel and Plastic  
Finish: Silver Anodized

**Soft Closing Kit x 4**  
Consists of:  
Soft Closing Mechanism x 4  
Activator x 4  
Installation Plates & Screws

Length: 3000 mm  
Supplied with 8 cross profile mounting inserts

**(Optional)**  
\*One Cross Profile kit to be ordered for a 2 door system

\*Self Adhesive Brush seal of 3000mm will be provided with this kit.

## ALUFLEX 60T Sliding System

Profiled partitions in the form of sliding doors are the amalgamation of functionality and sophistication in any interior space. They not only help achieve a clean immaculate appearance for floor to ceiling partitions but also impart elegance to the entrance of your walk in wardrobes.

Häfele's Aluflex Range introduces yet another solution in the form of Aluflex 60T, which is an aluminum profiled system with numerous panel design and material application possibilities. True to its name, it provides tremendous flexibility with respect to design, allowing you to experiment with wood or glass (clear/patterned) door panels. Catering to door weight of up to 60 kg, the uniqueness of Aluflex 60T lies in its patented mechanism. The sliding system comes with a top roller mechanism that

sustains the entire weight of the door, negating the need for any bottom track installation thus leaving the floor space completely unobstructed and clear. The integrated double sided soft closing mechanism of Aluflex 60T enables smooth and quiet operations while opening and closing the doors on either side.

In terms of installation and assembly, Aluflex 60T has an uncomplicated assembly process, and any post installation adjustments can be simply done with the help of an allen key through minimal drillings in the profiles. The attractive Anodized Black finish of the profiles and tracks exudes style and sophistication as well as adds character and dimension to your interiors.

### FEATURES

**Double sided Soft Closing Mechanism:** Aluflex 60 T comes with double sided soft closing mechanism, thus enabling soft opening and closing movement on both sides of the door.

**Versatile Applications:** You can make all your design visions come true with Aluflex as it allows you to work with glass, wood or both (in multi panel designs).

**No Bottom Track:** The Aluflex 60 T system operates only on the top roller and track, thus negating the need for a bottom track. This results in clear, unobstructed floor space at the threshold.

**Minimal Design:** The horizontal and vertical profiles provided with the Aluflex sliding system are extremely slim, promising functional efficiency with minimal design.

**Easy Adjustments:** The height of the door can be easily adjusted through the centre screw located on the top roller via a screw driver.

**2 YEARS**  
Warranty

Aluflex 60T Double Door Kit consists of following components:

**Article No.: 400.50.208**

**Top Roller Guide x 4**  
Material: Material: Plastic and Delrin

## SLIDO F-LINE18 50A Sliding System

Häfele's SLIDO range provides an array of wardrobe sliding solutions that offer limitless design potential for homes through varied installation possibilities, material options, finishes, patterns and motion technologies.

Häfele introduces a new addition to this range- SLIDO F-Line18 50A, an Infront wooden sliding wardrobe system for two door panels with soft opening and closing on both sides. The system and

its elements are manufactured in a way that they allow flexibility in various installation possibilities based on the amount of space available or the look desired. The concealed and surface-mounted tracks, ingenious roller adaptability and easy to assemble component design guarantee a flawless experience from installation to operation and beyond.

### FEATURES

- Bottom and top rollers for stable and effortless movement
- Comes with integrated soft opening and closing mechanism
- Concealed and surface mounted tracks available
- Reversible rollers that can either be installed on the surface of the door panel or in a groove in the door panel thickness depending on the requirement
- Effortless height adjustment with the help of Allen key

The Slido F-Line18 50A Roller Kit consists of:  
**Article No.: 401.30.016**

**Rollers**

**Soft closing mechanism**

**End caps**

**Fixing Materials**

- Rollers x 8
- Soft closing mechanism x 4
- End caps for concealed track installation x 8
- Fixing Materials (Allen keys - 4 mm and 2.5 mm, Screws for rollers and end caps )

**Concealed top and bottom tracks**  
**Article No.: 401.30.609**

**Surface mounted top track**  
**Article No.: 401.30.611**

**Surface mounted bottom track**  
**Article No.: 401.30.614**

*\*Track to be ordered separately*

# SLIDO F-LINE42 Wardrobe Sliding Systems

Häfele introduces the new SLIDO F-line42 wardrobe systems, that are vorfront sliding systems which provide double sided soft closing and opening feature. The two systems, SLIDO F-line42 50B (for wooden doors) and SLIDO F-line42 50C (for glass doors with aluminium profiles) are Häfele's in house manufactured and designed systems. One of their kind, these systems are

the finest examples of class and sophistication that provide ease of installation and maintenance. Equipped with rollers at the top and bottom, they are sturdier than similar systems in the market. The new improved Smuso damper technology lets you experience the smoothest and softest movement with every slide.

## FEATURES

**Versatile Applications:** The new SLIDO F-line42 systems are available for wooden and aluminium framed doors consisting of two panels catering to a diverse range of applications and requirements.

**Soft Opening and Closing:** The new wardrobe sliding systems come with Smuso technology that facilitates soft and silent opening and closing of doors on both sides.

**Easy Installation:** The construction of the bottom track in the system is unique as it aligns with the edge of the bottom panel making carcass construction easier.

**Anti-derailment Mechanism:** The anti-derailing clips on the rollers of these systems help secure the door to the track after installation and prevent it from dislodging during operation.

## PRODUCT SPECIFICATIONS

- Vorfront wardrobe sliding system for wooden doors and glass doors with aluminium profiles
- Soft closing and opening due to new improved Smuso damper technology
- Easy installation and maintenance
