

SLIDO F-LINE18 50A

Häfele's SLIDO range provides an array of wardrobe sliding solutions that offer limitless design potential for homes through varied installation possibilities, material options, finishes, patterns and motion technologies.

Häfele introduces a new addition to this range- SLIDO F-Line18 50A, an Infront wooden sliding wardrobe system for two door panels with soft opening and closing on both sides. The system and its elements are manufactured in a way that they allow flexibility in various installation possibilities based on the amount of space available or the look desired. The concealed and surface-mounted tracks, ingenious roller adaptability and easy to assemble component design guarantee a flawless experience from installation to operation and beyond.

FEATURES

- Bottom and top rollers for stable and effortless movement
- Comes with integrated soft opening and closing mechanism
- Concealed and surface mounted tracks available
- Reversible rollers that can either be installed on the surface of the door panel or in a groove in the door panel thickness depending on the requirement
- Effortless height adjustment with the help of Allen key
