TENDER RAIN CALICES AND MINI PLUVIA

HÄFELE INTRODUCES TENDER RAIN CALICES AND MINI PLUVIA

A shower can be many things. A quick wake-up call in the morning or a relaxing steam shower at the end of the day. The origin of your 'Eureka' ideas or a silent retreat for your tired brain. For bathing in a space that not only provides you with relaxation but also offers you a novel experience, Häfele brings to you two new shower solutions, Tender Rain Calices and Tender Rain Mini Pluvia.

Inspired by the relationship between metal – with its clean and shiny surfaces and water – with its transparency and fluidity, these new shower fittings by Häfele display a unique approach and eccentric design elements. The patented construction of these shower heads reflects the influence of revolutionary Italian design and technology.

Made of Solid Brass, both the showers exhibit inherent sturdiness, corrosion, wear and heat resistance. The timeless chrome-plated finish looks good in contemporary bathrooms and gives you an option of purchasing matching bathroom accessories. For an antique look, the Calices shower heads are also available in a copper-plated finish.

Along with these desirable attributes, Häfele's Tender Rain Calices and Mini Pluvia also fulfill ecological objectives of saving water and energy depicting eco-friendly and non-hazardous behavior.

CALICES

The Häfele Tender Rain Calices Shower Solution epitomizes beauty with its elegant chalice-shaped shower heads and lighting spouts that put you in the spotlight while you bathe. Eliminating the need for any other lighting in your shower enclosure, Calices shower heads add a touch of modern design and luxury to your bathroom. Available in two finishes, chrome-plated and copper-plated, these shower heads are a welcome addition to any bathroom.

FEATURES

- **Design:** Calices combines shower and lighting in an aesthetical, sleek and graceful design to provide you the experience of luxury bathing. The model includes four differently shaped chalices consisting of two shower heads and two LED lamps.
- **Material:** Solid Brass
- **Finish:** Chrome-plated & Copper-plated
- **Average Water Flow Rate:** 12-16 liters/ minute
- **Average Water Flow Rate of Each Shower Head:** 6-8 liters/ minute
- **Minimum Dynamic Pressure:** 1 bar
- **Colour Temperature of Lamp:** 3000 °K (warm light)
- **Water and Dust Protection Ingress:** IP67 [\[Note 1\]](#)
- **LED Power Output:** 5 W
- **Light Intensity:** 500 lumen
- **LED Driver:** SELV [\[Note 2\]](#)
- The finish of the false ceiling fixing plate provided along with the kit matches that of the shower heads and LED lamps avoiding any discrepancies in color tonality and providing a uniform look to your bathroom
- Patented and registered model

Note 1: IP (Ingress Protection) rating of 67 protects Calices Shower Heads from contact from harmful dust and immersion in water upto 1 meter for half an hour. This makes it completely dust resistant and water resistant.

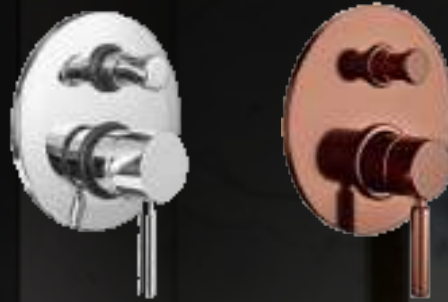

Note 2: SELV stands for Safety Extra Low Voltage. This system is electrically separated from earth and other systems thereby preventing a risk of an electric shock and fluctuation in output voltage

CONFIGURATIONS

All **Calices Shower Heads and LED Lamps** require a false ceiling for their installation. These shower heads possess the property of anti-scaling that prevents the shower from losing its charm due to hard water

Article nos.: 589.76.000 / 589.76.060
 Calices - Set of 2 Shower Heads and 2 LED Lamps
 (With Manifold and False Ceiling Fixing Device)
[For more information, please refer to Technical Specifications]
 Finish: Chrome-plated / Copper-plated

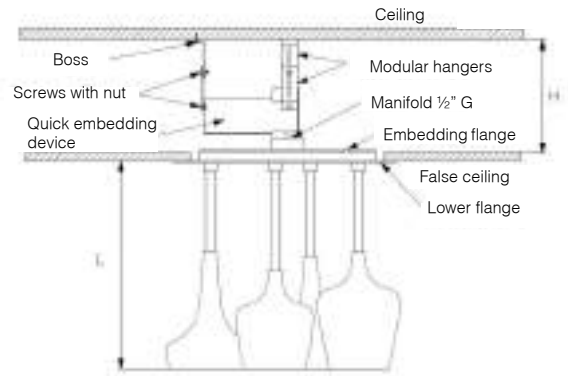

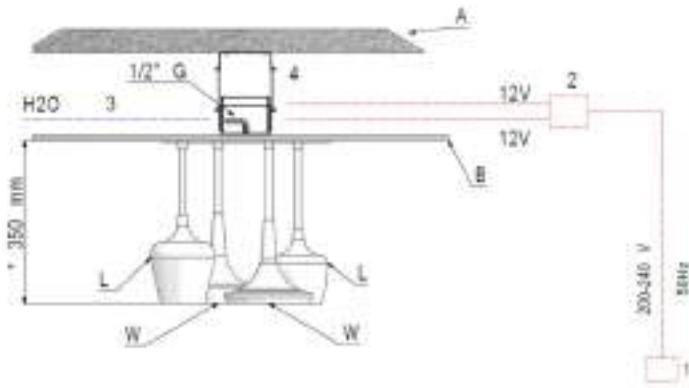

Article nos.: 589.76.090 / 589.76.120
 Built-in Mixer with Diverter
 Finish: Chrome-plated / Copper-plated

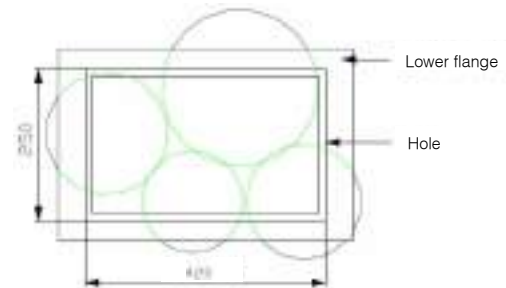

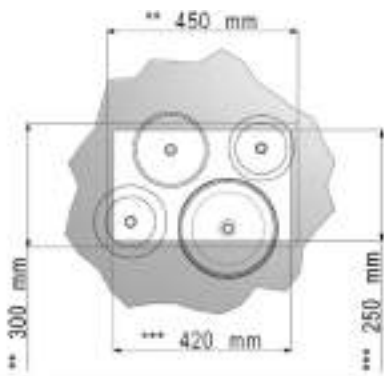

Article no.: 589.76.091
 Thermostatic Mixer with Diverter
 Finish: Chrome-plated
 A thermostatic mixer provides higher accuracy while changing the temperature of water compared to standard mixers. The temperature changes from hot to cold as you move the mixer from left to right. It also comes with a child lock, which when turned on, only allows you to increase the temperature of hot water up to a tolerable degree.

 - Hole:** Cavity in the false ceiling to install the shower
 - ***** Hole dimensions in the false ceiling
 - **** Lower flange dimensions

MINI PLUVIA SHOWER HEAD

Tender Rain Mini Pluvia has taken its inspiration from a gushing natural waterfall and replicated it in a modern, sleek and curved shower that you can benefit from in the comfort of your bathroom. The arched shape of Mini Pluvia influences the shape of your shower, not only creating a visually appealing effect but also concentrating the water solely on you for a thoroughly cleansing and invigorating shower.

FEATURES

- **Design:** Mini Pluvia offers the experience of a natural waterfall, with a sleek, curved, arc-shaped water jet where you can enjoy rejuvenating showers
- **Material:** Solid Brass
- **Finish:** Chrome-plated
- **Dimensions:** 375 (W) x 220 (D) x 60 (H) mm
- **Average Water Flow Rate:** 14 liters/ minute
- **Minimum Dynamic Pressure:** 1.5 bar
- The wall shower arm for the Mini Pluvia Shower Head has the same chrome-plated finish to provide a uniform look to your bathroom
- Patented and registered model
