WINE CLIMATE CABINET

A close-up photograph of a hand pouring red wine from a dark bottle into a clear wine glass. The wine is dark red and has a thin layer of white foam on top. The background is blurred, showing other people and lights, suggesting a social setting like a restaurant or bar.

A culture of care

Paying respect to the product

Winemakers are the archetypal artisan producers – masters of a process that has so many details, and craves so much attention, that it has its own language and its own fields of study. Is it any wonder that the finished product has become synonymous with luxury, enjoyment, and heightened experiences?

Every single stage of the process – from selection of the growing areas, through cultivation and then creation– calls for real love for wine. For making it, for keeping it, for aging it, and for enjoying it.

From soil to grape.

Vineyards don't just pop up anywhere. Many aspects of geography and climate will affect the grapes that are grown in them. It's part of the language of wine – and it can be found in how we read, or are told, about how the taste and character of a favourite bottle is thanks to the location, climate, and even geology of where the grapes were grown. This hillside, with its incredible geographical properties. This village, with its perfect combination of elevation and microclimate. Stories like these tell us how the grapes used to make wine can be seen as perfect products of their environment.

The amount of care, selection, and control that goes into the maintenance of a vineyard is nothing short of amazing. For the people that do it, it's a passion. And it's a passion that we want to pay tribute to – via a wine climate cabinet that stores the finished product in the exact right conditions, and which can be fine-tuned for the perfect environment.

A world of knowledge and experience

Andreas Larsson is one of the world's foremost wine experts, a sommelier, a wine educator – and a winner of the Best Sommelier of the World title (2007 ASI). He has a discerning palate and is deeply passionate about wine, as well as just about everything else in the world of winemaking. He is known not only for his incredible tasting abilities and encyclopedic knowledge, but also for his friendly and professional approach. Andreas is a highly-sought-after taster, speaker and educator within the vast fields of wine and gastronomy.

Today, outside of his very busy role as a taster, consultant and sommelier, he devotes much of his time to educating and inspiring the next generation of wine experts and enthusiasts.

Andreas Larsson shares his thoughts on the benefits of the ASKO Wine Climate Cabinet.

Andreas Larsson shares his advice and knowledge about storing and serving wine.

Technology meets tradition.

The ASKO Smart Wine Climate Cabinet by Hafele is the closest thing you can get to a fully-equipped wine cellar, but one that can be put anywhere.

The Wine Climate Cabinet uses cutting-edge design and technology to take care of wine in a way which has been perfected over centuries. Everything we know about how to store your wine in the best possible way can be found here, in a premium, connected refrigeration cabinet that can be made as unique as your own collection – and in which you can give it pride of place.

Almost all the features that have been built in to provide your collection with the care it deserves have been inspired by the wine cellars – which, after all, have been used for centuries as the epitome of wine care.

It contains all of the advanced care and storage features that a valuable collection deserves. It's capable of storing a large collection – up to 190 bottles – in the right conditions for storing or serving. It features three individual controllable temperature zones, pure charcoal-filtered air, virtually vibration-free compressors and a sophisticated shelf system and layout. The three temperature zones are perfectly sealed off from one another, humidity is monitored, and the door's glass protects the contents from UV light. But unlike a wine cellar, it documents, catalogues and gives you information about your wine. So, in that respect, it gives you the best of both worlds.

HIGHLIGHTS: WINE CLIMATE CABINET

The Asko Wine Climate Cabinet by Hafele has a number of advanced features designed to provide the kind of care that took centuries to learn. In terms of the hardware, this means sophisticated and virtually vibration-free compressors, controllable temperature zones, pure, activated charcoal-filtered air, and optimum light conditions. The picture is completed by the various software functions – since the cabinet is a fully connected device, it will notify you if anything goes wrong, if anything needs looking at, and even when the wine is ready to be opened. It combines knowledge with information to present a truly smart product.

Optimum humidity
The Wine Climate Cabinet keeps the humidity level at around 70% an optimum level for wine storage. You can check on the cabinet's humidity levels at any time, either in the UI or in the app.

8°C
16°C
12°C
68%

Virtually free from vibrations
The Wine Climate Cabinet's high-quality compressor ensures consistent temperatures in each compartment. And, since wine likes to rest peacefully, this wine climate cabinet is almost vibration-free.

No harmful light
Another important aspect of storing wine is keeping it from harmful UV light. The door of our Wine Climate Cabinet protects your collection from light that could potentially damage it.

The discrete zones
Since different wines require different temperatures, the ASKO Wine Climate Cabinet contains three temperature zones. They're perfectly sealed off from one another and the temperatures are kept at an exact, even level.

Room for the whole collection
The ASKO Wine Climate Cabinet has room for 189 bottles, storing them in roomy, telescopic shelving systems which are easy to access. Small chalkboards let you label your collection on the shelves.

189

The right temperature
Precise temperature controls let you choose whether you want to store and age your wines, or bring them to serving temperature. Range: +5°C max +20°C.

9°C
16°C
12°C

THE CENTRE OF ATTRACTION. THE SERVING AREA.

After putting so much love into storing your wine, and bringing it to the right temperature, it deserves to be served perfectly. The ASKO Wine Climate Cabinet has a serving area with room for your glassware and accessories and a controllable light for inspecting the wine.

Click here to view Andreas Larsson, share his thoughts about the ASKO Wine Climate Cabinet serving area.

▲ *The serving tray can be removed. Under it, you'll find a versatile accessory drawer.*

The serving area can be converted into shelves. ►

Get to know your wine.

Connected features.

Camera to scan your bottle

Using either the cabinet's built-in camera or the companion app on your smartphone, you can scan the labels on your bottles and log them in your inventory. It'll keep track of what you have, put the information at your fingertips, and even tell you where on the shelves each bottle is.

You can also add "notes" to special bottles – helping you remember who gave them to you, or reminding you when they should be opened.

ConnectLife

Fully connected

The Wine Climate Cabinet's companion app is connected to the Vivino database – putting a wealth of information at your fingertips and allowing you to log and keep track of your collection.

Virtual sommelier

Log your wine collection in the ASKO Wine Climate Cabinet's companion app, and you will receive expert advice about how to store it – and when it's ready to be opened.

To download the app

Search for Connect Life Wine Climate Cabinet: available in the App Store and Google Play Stores.

Article No.: 538.10.420

Wine Climate Cabinet, Matt Black Casing / Hardened Transparent Door Glass, 192 cm, Freestanding

Optimum humidity: Humidity kept at approx. 70 %, **Silence for living areas and no-vibrations for better preservation:** High-quality compressor standing on dampers, **No harmful light can reach your wine:** UV protection filter in the door glass, **Perfect temperatures for storage and serving:** Three separated temperature zones, **Minimal temperature variations for better preservation and aging:** Precise temperature control, fluctuation $\leq 0,3^{\circ}\text{C}$, **Fully connected for continuous monitoring:** Connect Life, **Get all the information you need about your wine:** Powered by Vivino

General

- 3 layered glass shelf with UV filter for extra protection of the wine
- 3 Individually controlled temperature zones
- Can hold up to 189 bottles
- LED illumination in all zones
- Charcoal filter in each zone for reducing pollutions that can affect the wine
- Heavy duty hinges with soft close
- Multi Air Flow keeps constant movement of the air and unified temperature in each zone

Features

- Connect Life app: Check/change settings, inventory list, humidity, temperature.
- Powered by Vivino: Scan the label with your mobile or with UI camera and access more information about your wine
- Humidity, temperature and vibration sensors with warnings in the display and the app.
- LED illumination in each zone
- Full Touch TFT display with camera for scanning wine labels.
- Serving area with serving tray, bottle holder and wine accessory drawer.
- Chalkboard name tags on each rack.
- Fully extendable wooden racks with soft closing function.
- RGB light for perfect setting of ambient light.
- Inventory system: See location of your wine, storage time and serving temperature.

Installation

- Location of electrical cable: Center rear
- Reversible door
- Adjustable feet
- Possible to set door opening angle to 90° and 115°

Display and control

- TFT Full colour and full touch display
- Camera for scanning wine labels

Dimension

- Product (H x W x D): 1920 x 700 x 797 mm

Technical data

- Electrical cable: Yes, 2000 mm
- Voltage: 220-240 V
- Frequency: 50 Hz
- Phases: 1
- Connection load: 160 W
- EU energy rating: F
- Annual consumption: 140 kWh/year
- Noise level: 38 dB(A)
- Climate class: Normal, Subnormal, Subtropical, Tropical
- WiFi / CONNECTIVITY
