

FRIDA 90/75

In recent years, the urban and industrial kitchen trends have seen a move towards textured matt kitchen finishes that are stylish and sophisticated but at the same time, comfortable, enjoyable and low-maintenance. The increasing popularity of ceramic, stone and concrete finishes in furniture and kitchens proves this. These finishes add depth and tonal contrast to the kitchen space and provide you with the flexibility of exploring multiple design options in your home. Aligning with this trend, Häfele brings you subtle ceramic finished hoods that will not only keep your kitchen fresh but will also elevate its design. The new range includes cookerhoods laden with: Filter-free technology - Ceramica 90, advanced motor technology (EBM Plast) - Biscotti 80/60 and anti-drip technology - Frida 90/75.

This product memo will take you through the details of **Frida 90/ 75**. Inspired by the cool tones and bold texture of concrete, Häfele brings you the most versatile cookerhood with a silver concrete finish on a ceramic surface - Frida in two variants of 90 cm & 75 cm. The anti-drip technology combined with the auto open smoke panels of these hoods, make extraction in your kitchen a breeze.

FEATURES

Anti Drip technology in the hood eliminates any possibility of oil dripping when the hood is overdue for cleaning and maintenance. The rising smoke from the cooking process is lighter and passes through the anti-drip filters while the heavier oil particles settle down on the filters and through the curved channels get directed down to the oil collector where they are accumulated.

FEATURES

The Auto-open smoke panel of the FRIDA cookerhood simply slides in behind the fascia to maintain its overall minimalist aesthetics when its in operation. It ensures powerful smoke intake and filtration, keeping the kitchen free from any pungent smell that might result from fumes arising during the cooking process, for example while tempering spices (tadka), which is extremely common in Indian cooking.

The ceramic surface with concrete finish makes it possible for these hoods to adapt to the warm or cool tones of your overall kitchen colour theme.

PRODUCT SPECIFICATIONS

Article No.	536.88.313
Model No.	FRIDA 90
Finish	Ceramic Glass
Motor	260 W Motor
Control	3 Speed Control
Timer Function	Available
Filter	Baffle Filter
Technology	Anti-drip Technology
Extraction	Auto Open Smoke Panel
Lighting	LED
Design	Angled Wall-mounted
Product Dimensions (W x D x H)	898 x 510 x 737 mm
